#### DISTINGUISHED SERVICE CROSS.

"For extraordinary heroism in action in Clairs Chènes Woods, France, October 20, 1918. While leading his company in an attack on enemy machine-gun nests he, with three of his men in advance of the remainder of the company, fearlessly attacked an enemy machine-gun nest, capturing three prisoners and two guns, turning the guns against the enemy. He was mortally wounded while operating one of the guns in an exposed position."

"For extraordinary heroism in action near Moulins, France, July 14-15, 1918. Seeing his right flank badly exposed to the enemy's advance

across the Marne, Lieut. Barber changed the position of two of his guns to meet this emergency, performing this during terrific enemy fire. He then ran a distance of 150 yards in the open to stop the fire of our infantry on our troops. Going forward to the aid of a wounded soldier, Lieut. Barber administered first aid and was carrying the man to safety when the latter died. Picking up the one remaining undamaged gun, he opened fire on the enemy, who were crossing the river, sinking one boat, killing many, and causing the others to abandon their boats."

#### DISTINGUISHED SERVICE CROSS.

"For extraordinary heroism in action at Sergy, France, July 29-30, 1918. When the company on the left of his own had fallen back, leaving a gap through which the enemy was approaching for a counterattack, Capt. Norton, with the remnants of two squads, formed an automatic-rifle post and successfully covered the withdrawal of the remainder of his command to a stronger line of resistance. Though his small group was almost annihilated by hostile fire, he held this position until the arrival of reinforcements, inflicting heavy losses on the enemy."
