## P R E F A C E

Here is presented Volume IX, Supplement 1940-1950, of General Cullum's Biographical Register of the Officers and Graduates of the United States Military Academy.

All of the difficulties encountered in the preparation of previous volumes, and described therein by their editors, have hampered and delayed the production of this Supplement. In addition, the greatly increased size of classes graduated during the decade comprised in this volume has added many more entries here than in any previous edition—over 5700, or almost half again as many as the total number of entries in the next preceding edition, Supplement 1930-1940. Moreover, this volume, Supplement 1940-1950, notes the records of our graduates during World War II—a period during which changes in all aspects of a graduate's career, including station, position, and grade (permanent and temporary), occurred much more frequently than ever before.

The data noted in this volume are based mainly upon information furnished by the graduates themselves. Where such information was not forthcoming, recourse was had—insofar as practicable—to other records whose authenticity is reliable. The unofficial nature of the data in this book must, however, be noted here, and users should be governed accordingly.

It is hoped that this Supplement can be regarded as continuing, in some measure, the worthy project initiated by General Cullum so many years ago.

## N O T E

In the following pages a † after the name of a graduate signifies that he is dead. If the death occurred before 1890, it is recorded in the third edition of the Register (1891); if between 1890 and 1900, in the fourth edition (1900); if between 1900 and 1910, in the fifth edition (1910); if between 1910 and 1920, in the sixth edition (1920); if between 1920 and 1930, in the seventh edition (1930); if between 1930 and 1940, in the eighth edition (1940); if the death occurred before 1940 and was not known until after this date, it is noted in this volume.

An \* after the name of a graduate usually refers to a foot-note giving the name of the graduate's immediate ancestors who have been graduates of the Military Academy. The names are printed in the text in the order of graduation and class rank. In the Index the names are arranged alphabetically.

It is requested that graduates who consult this volume communicate with the Secretary of the Association of Graduates at West Point with reference to any additions, deletions, or corrections which should be made in a subsequent edition.

This is Volume IX, Supplement 1940-1950 to the Biographical Registers of the Officers and Graduates of the U. S. Military Academy at West Point since its establishment in 1802—initiated by Brevet-Major-General George W. Cullum, Colonel of Engineers, U. S. Army, Retired. Edited by Colonel Charles N. Branham, U. S. Army, Retired.

## E X P L A N A T O R Y

The three principal elements of an officer's status—where, what (including grade and duty), and when—comprise the description of the career, during the period 1940-1950, of each graduate having such an entry under his name in this volume. The semicolon (;) denotes a change occurring in one (usually time) or more of these three principal elements—but the lack of any one of them indicates that no change has occurred in that element since the last preceding mention of it. Please note also that time spent in hospital, in travel between assignments, or on leave of absence, is not usually included.

Termination of temporary grade (rank) usually means that the officer concerned then reverted to his next lower grade (rank)—temporary or permanent.

## ABBREVIATIONS

Abbreviations are used extensively in this volume, to conserve valuable space. If standard, or if deemed understandable from the context, they are not usually included in the following list. Also, it is presumed that most readers of this book understand the 1, 2, 3, 4, 5 designations of the various staff sections and their officers—so universally used by the Army and Air Force during the period comprised in this volume, i.e.

- 1—Personnel
- 2—Intelligence
- 3—Operations (and Training)
- 4—Supply (Logistics)
- 5—Civil Affairs

In addition, and for example, G-4 may be used to designate the title of the Assistant Chief of Staff responsible for Supply, or it may be used to designate his staff section. The actual duty of the officer concerned will be readily apparent from the context—including his grade at the time indicated.

### CLASS OF 1919

Entered 14 June 1917; graduated 1 November 1918

This class entered the United States Military Academy 14 June 1917 and on 1 November 1918 completed the course then prescribed, which was known as the War Emergency Course. They were recalled 3 December 1918 to the Academy and completed on 11 June 1919 a Student Officers' Course, on which latter date they were given the diploma awarded 1 November 1918. No diploma was given for the Student Officers' Course.

The relative rank of the members of this class was permanently fixed by their class standing at the time of graduation (1 November 1918); however, their work in the post graduate course was considered in their assignment to branches.
