#### CLASS OF 1947

Admitted as Cadets 1 July 1944 and graduated and commissioned Second Lieutenants on 3 June 1947; unless otherwise noted in individual biographies. Graduates of this class, who entered with an earlier class and were turned back, did not lose their cadet status (except for pay and allowances) while on leave until joining this class—unless otherwise noted in their individual biographies.

The Classes of 1947 and 1948 were formed on 5 June 1946 by dividing the cadets then in the senior class at the Academy into two classes of approximately equal numbers, according to a formula in which the choice of each cadet for a three-year or a four-year course was a principal consideration. The Class of 1947 thus became the last class after World War II to be graduated upon completion of a three-year course.

<b>CLASS OF 1948</b>	
Admitted as Cadets 1 July 1944 and graduated and commissioned Second Lieutenants 8 June 1948; unless otherwise noted in individual biographies. Graduates of this class, who entered with an earlier class and were turned back, did not lose their cadet status (except for pay and allowances) while on leave until joining this class—unless otherwise noted in their individual biographies.	
The Classes of 1947 and 1948 were formed on 5 June 1946 by dividing the cadets then in the senior class at the Academy into two classes of approximately equal numbers, according to a formula in which the choice of each cadet for a three-year or a four-year course was a principal consideration. The Class of 1948 thus became the first class after World War II to complete a full four-year course.

#### CLASS OF 1949

Admitted as Cadets 2 July 1945, commissioned Second Lieutenants 3 June 1949, and graduated 7 June 1949; unless otherwise noted in individual biographies. (The graduates of the Class of 1949 were commissioned Second Lieutenants on 3 June 1949, 4 days before their graduation, in order to have their date of commission the same as that of the Class of 1949, United States Naval Academy; since some graduates of both these classes were commissioned directly in the United States Air Force.) Unless otherwise noted in their individual biographies, graduates of this class who entered with an earlier class and were turned back, did not lose their cadet status (except for pay and allowances) while on leave until joining this class.

**CLASS OF 1950**

Admitted as Cadets 1 July 1946, commissioned Second Lieutenants 2 June 1950, and graduated 6 June 1950; unless otherwise noted in individual biographies. (The graduates of the Class of 1950 were commissioned Second Lieutenants on 2 June 1950, 4 days before their graduation, in order to have their date of commission the same as that of the Class of 1950, United States Naval Academy; since some graduates of both these classes were commissioned directly in the United States Air Force.) Unless otherwise noted in their individual biographies, graduates of this class who entered with an earlier class and were turned back, did not lose their cadet status (except for pay and allowances) while on leave until joining this class.

---

Whenever a graduate has been known by two different names, both are given in the Index. Unless the change has been made since 1940, no note of it is necessarily made in this Volume, and the explanation of such double references must be sought in previous Volumes of the Register.
