"I give it as my fixed opinion that, but for our graduated cadets, the war between the United States and Mexico might, and probably would, have lasted some four or five years, with, in its first half, more defeats than victories falling to our share ; whereas, in less than two campaigns, we conquered a great country and a peace, without the loss of a single battle or skirmish."

WINFIELD SCOTT.

5. BENJAMIN I. WHEELER, LL. D. BERKELEY, CALIFORNIA
6. Hon. WILLIAM H. UPHAM MARSHFIELD, WISCONSIN
7. Mr. JOHN ALLISON NASHVILLE, TENNESSEE

Appointed by the President (pro tempore) of the Senate.

8. Hon. JOHN KEAN ELIZABETH, NEW JERSEY
9. Hon. JAMES P. TALIAFERRO JACKSONVILLE, FLORIDA

Appointed by the Speaker of the House of Representatives.

10. Hon. THAD. M. MAHON CHAMBERSBURG, PENNSYLVANIA
11. Hon. CHARLES B. LANDIS DELPHI, INDIANA
12. Hon. JAMES HAY MADISON, VIRGINIA

The United States Military Academy is a school for the practical and theoretical training of Cadets for the military service of the United States. Upon completing its course satisfactorily, Cadets are eligible for promotion and commission as second lieutenants in any arm or corps of the Army in which there may be a vacancy and the duties of which they may have been judged competent to perform.

The Academy was created by an Act of Congress, approved March 16, 1802. The Act authorized the President to organize and establish a Corps of Engineers to consist of five officers and ten Cadets and provided that it should be stationed at West Point, in the State of New York, and should constitute a Military Academy. The Academy, with ten Cadets present, was formally opened July 4, the year of the Act.

Subsequent Acts of Congress, in 1803 and 1808, authorized 40 Cadets from the Artillery, 20 from the Light Artillery, 100 from the Infantry, 16 from the Cavalry, and 20 from the Riflemen; but few of these were appointed, and no provision at the Academy was made for them. In 1810, the Academy was deprived of nearly all means of instruction, and officers and Cadets had difficulty in obtaining their pay. During 1811, and a part of 1812, although war was imminent, the Academy was without officers or Cadets. To include this time, 71 Cadets had been graduated; they had entered without mental or physical examination; at all ages, from 12 to 34, and at any time of the year.

By Act of Congress of April 29, 1812, the Academy was reorganized. The provisions of this Act have furnished the general principles upon which the Military Academy has since been conducted and controlled; a more adequate corps of professors was authorized; a maximum of 250 Cadets was fixed, and the age and the mental requisites for admission were prescribed.

In 1817, under the provisions of the Act of 1812, and the able superintendency of Major Sylvanus Thayer, Corps of Engineers, the present era in the Academy's history began.

Until 1843, a prescribed residence was not a legal qualification for appointment, but the custom of selecting one Cadet from each Congressional district had grown to prevail. In this year, this custom became the law, Congress prescribing that the Corps of Cadets should consist of one from each Congressional district, one from each Territory, one from the District of Columbia, and ten from the United States at large, to be appointed by the President.

By Act of Congress approved June 6, 1900, the Corps of Cadets as now constituted consists of one from each Congressional district, one from each Territory, one from the District of Columbia, two from each State at large, and thirty from the United States at large, all to be appointed by the President and, with the exception of the thirty appointed from the United States at large, to be actual residents of the Congressional or Territorial districts, or of the District of Columbia, or of the States, respectively, from which they purport to be appointed. Under this Act, and under the apportionment of Members of Congress according to the 12th Census, the maximum number of Cadets will be 511.

The total number of graduates from 1802 to 1901, inclusive, is 4067.

SUPERINTENDENTS OF THE UNITED STATES MILITARY ACADEMY.

25	ALBERT L. MILLS.....	1st Lieutenant 1st Cavalry.....	Aug. 21, 1898.

NOTE.—The selection of the Superintendents of the Military Academy was confined to the Corps of Engineers from the establishment of the Institution, March 16, 1802, till the passage of the law of July 13, 1866, which opened it to the entire Army. By the Act of June 12, 1838, the local rank of Colonel was conferred upon the Superintendent.

† Major Williams resigned June 20, 1803, on a point of command, and pending its settlement until April 19, 1805, when he again returned to service as Chief Engineer, no permanent Superintendent of the Military Academy was appointed, the command devolving upon the senior officer of the Corps of Engineers present for duty.

§ Bvt. Major P. G. T. Beauregard, Corps of Engineers, by order of John B. Floyd, Secretary of War, relieved Colonel Delafield, Jan. 23, 1861, and was appointed Superintendent of the Military Academy and was dismissed, August 10, 1861, for insubordination. He was again appointed Secretary of War, Joseph Holt, the command again devolving upon Colonel Delafield.

UNITED STATES MILITARY ACADEMY,
WEST POINT, NEW YORK.

Superintendent.

COLONEL ALBERT L. MILLS,
Captain 1st Cavalry.

Military Staff.

- Captain WILLIAM C. RIVERS, 11th Cavalry, *Adjutant of the Military Academy and of the Post; Recruiting Officer.*

CHAPLAIN.

Rev. Herbert Shipman, (Re-appointed 22 April, 1900.)

(22 April, 1896.)

TEACHER OF MUSIC.

George Essigke,

(15 October, 1895.)

BATTALION ORGANIZATION.

For instruction in Infantry Tactics and in military police and discipline, the Cadets are organized into a battalion, under the Commandant of Cadets, each company being commanded by an officer of the Army. The officers and non-commissioned officers are selected from those Cadets who have been most studious, soldier-like in the performance of their duties, and most exemplary in their general deportment. In general, the captains and lieutenants are taken from the first class; the sergeants from the second class; and the corporals from the third class.

FEBRUARY 18, 1901.

Adjutant, Jewett. *Quartermaster*, Peek. *Sergeant-Major*, Crissy. *Q. M. Sergeant*, Hobson.

CLASSIFICATION OF CADETS.

The Cadets are arranged in four distinct classes, corresponding with the four years of study. The Cadets employed on the first year's course constitute the **FOURTH CLASS**; those on the second year's course the **THIRD CLASS**; those on the third year's course the **SECOND CLASS**; and those on the fourth year's course the **FIRST CLASS**.

The academic year commences on the 1st of July. On, or before, that date the result of the examination held in the preceding month is announced and Cadets are advanced from one class to another. At no other time shall a Cadet be advanced from one class to another, unless prevented by sickness, or authorized absence, from attending at the aforesaid examination; in which case a special examination shall be granted him; but in no case shall a Cadet be advanced from one class to another without having satisfied the Academic Board of his proficiency in each branch of study pursued by his class.

NOTE.—Names marked thus* are to be attached to the next Army Register, in conformity with a regulation for the government of the Military Academy, requiring the names of the most distinguished Cadets, not exceeding five in each class, to be reported for this purpose at each Annual Examination.

Cadets whose names are marked thus † were found deficient, and turned back, to join the next succeeding class.

Cadets whose names are marked thus ‡ were found deficient, and discharged.

FIRST CLASS—74 MEMBERS—GRADUATED FEBRUARY 18, 1901.

a Turned back to join Fourth Class, January 20, 1900, for deficiency in Mathematics.
b Admitted June 18, 1897; discharged January 25, 1898, for deficiency in Mathematics and English.
c Admitted June 20, 1898; discharged January 28, 1899, for deficiency in Mathematics.
d Absent, suspended without pay from May 22, 1901, until April 1, 1902.
e Absent with leave (sick) from October 31, 1900, until August 28, 1901. Not examined.
f Absent with leave (sick) from March 6, until August 28, 1901. Not examined.
g Receiving instruction under the provisions of a Joint Resolution of Congress, approved February 9, 1899. Not graded in Mathematics.

Additional Changes in the Third Class since June 30, 1900.

Blair, Winn. Turned back to join Fourth Class, January 16, 1901, for deficiency in French.
 Clark, Charles B. Resigned September 3, 1900.
 Clark, Paul H. Turned back to join Fourth Class, January 16, 1901, for deficiency in Mathematics.
 Cooke, Anos M. Discharged January 16, 1901, for deficiency in Mathematics.
 Harrell, William P. Dismissed August 8, 1900.
 Horton, William H., Jr. Discharged January 16, 1901, for deficiency in Mathematics.
 Iglesias, Luis. Receiving instruction under the provisions of a Joint Resolution of Congress, approved January 28, 1899. Withdrew November 9, 1900.
 McCroskey, Benjamin B. Discharged January 16, 1901, for deficiency in Mathematics and Drawing.
 Meekison, Alexander B. Discharged January 16, 1901, for deficiency in Mathematics and French.
 Quarles, Robert E. Resigned January 24, 1901.
 Phipps, Frank H., Jr. Turned back to join Fourth Class, January 16, 1901, for deficiency in Mathematics and French.
 Rodman, Wiley C. Discharged January 22, 1901, for deficiency in Mathematics and Drawing.
 White, Andrew J. Turned back to join Fourth Class, April 13, 1901, for deficiency in Mathematics.

^a Continued with his class; required to make good his deficiency in Drill Regulations by September 1, 1901.

^b Admitted June 13, 1899; discharged January 20, 1900, for deficiency in Mathematics.

^c Receiving instruction under the provisions of a Joint Resolution of Congress, approved January 31, 1900. Withdrew June 12, 1901.

Additional Changes in the Fourth Class since June 30, 1900.

- Buckley, Newton E. Resigned August 20, 1900.
 Bunch, Tillman M. Discharged January 23, 1901, for deficiency in Mathematics and English.
 Butler, Henry L. Resigned January 4, 1901.
 Cameron, John D. Resigned November 1, 1900.
 Cowan, William V. Honorably discharged December 3, 1900, by reason of physical disability.
 Davis, Marion S. Discharged January 16, 1901, for deficiency in Mathematics and Drill Regulations.
 de St. Aubin, Alexander L. L. Resigned August 27, 1900.
 Dortch, James T. Honorably discharged July 13, 1900, by reason of physical disability.
 Duncan, Thomas S. Discharged January 16, 1901, for deficiency in Mathematics and Drill Regulations.
 Flinn, Edward A. Discharged January 23, 1901, for deficiency in Mathematics and Drill Regulations.
 Fortson, Eugene P. Discharged January 16, 1901, for deficiency in Mathematics and Drill Regulations.
 Garges, Fred A. Discharged January 16, 1901, for deficiency in Mathematics and Drill Regulations.
 Gehle, Arthur F. Discharged January 16, 1901, for deficiency in Mathematics.
 Golden, John B. Resigned June 6, 1901.
 Halsey, John W. D. Discharged February 22, 1901, for deficiency in Mathematics, English and Drill Regulations.
 Jamison, Charles R. Resigned September 20, 1900.
 Kensel, Frederic. Resigned January 4, 1901.
 Lyman, Albert T., Jr. Discharged January 22, 1901, for deficiency in Mathematics.
 Martin, Walter H. Discharged January 16, 1901, for deficiency in Mathematics and Drill Regulations.
 Miller, Edward E. Resigned December 12, 1900.
 Nelson, George E. Resigned November 21, 1900.
 Norris, Albert A. Resigned August 20, 1900.
 Oates, William C., Jr. Resigned May 31, 1901.
 Owens, Charles W. Discharged January 16, 1901, for deficiency in Mathematics, English and Drill Regulations.
 Peirce, Wentworth W. Discharged January 22, 1901, for deficiency in Mathematics, English and Drill Regulations.
 Powell, Roger G. Resigned August 15, 1900.
 Rarick, Clarence E. Resigned August 31, 1900.
 Roberts, Harold C. Discharged January 22, 1901, for deficiency in Mathematics and Drill Regulations.
 Storer, James A. Discharged January 16, 1901, for deficiency in Mathematics, English and Drill Regulations.

CADETS ADMITTED IN JULY AND AUGUST 1900.

MUELLER, ALBERT H. Not graduated with class in February, 1901; undergoing sentence of General Court Martial until June 1, 1901. (C. O. No. 6, A. G. O., 1907.) Graduated June 1, 1901, but not recommended by the Academic Board for promotion in the Army, his character as shown by his conduct while a Cadet not being deemed satisfactory. Honorably discharged, June 7, 1901.

*LIST OF DISTINGUISHED CADETS REPORTED AT
THE ANNUAL EXAMINATION, 1901.*

Number.	Names.	Where born.	Appointed from	Science and Art in which each Cadet particularly excels.
FIRST CLASS.				
1	Johnston, Edward N.....	Mo.	Ore.	Civil and Military Engineering and Science of War, Law, History, Ordnance and Gunnery, Military Efficiency, Natural and Experimental Philosophy, Chemistry, Chemical Physics, Mineralogy and Geology, Drill Regulations, Mathematics, French, and Spanish.
2	Sherrill, Clarence O.....	N. C.	N. C.	Civil and Military Engineering and Science of War, Law, History, Ordnance and Gunnery, Practical Military Engineering, Natural and Experimental Philosophy, Chemistry, Chemical Physics, Mineralogy and Geology, Mathematics, French, Spanish, and English.
3	Poole, John H.....	Mich.	Wis.	Civil and Military Engineering and Science of War, Law, History, Ordnance and Gunnery, Military Efficiency, Soldierly Department and Discipline, Practical Military Engineering, Natural and Experimental Philosophy, Chemistry, Chemical Physics, Mineralogy and Geology, Drill Regulations, Drawing, Mathematics, Spanish, and English.
4	Peek, Ernest D.....	Wis.	Wis.	Civil and Military Engineering and Science of War, Law, History, Ordnance and Gunnery, Soldierly Department and Discipline, Natural and Experimental Philosophy, Chemistry, Chemical Physics, Mineralogy and Geology, Drawing, and Mathematics.
5	Lee, Walter H.....	N. C.	N. C.	Civil and Military Engineering and Science of War, Law, History, Ordnance and Gunnery, Soldierly Department and Discipline, Natural and Experimental Philosophy, Drill Regulations, and Mathematics.

*LIST OF DISTINGUISHED CADETS REPORTED AT
THE ANNUAL EXAMINATION, 1901.*

Number.	Names.	Where born.	Appointed from	Science and Art in which each Cadet particularly excels.
SECOND CLASS.				
1	Longley, Francis F.....	Ill.	Mich.	Natural and Experimental Philosophy, Chemistry, Chemical Physics, Mineralogy and Geology, Drill Regulations (Artillery and Infantry), and Drawing.
2	Mitchell, William A.....	Ala.	Ga.	Natural and Experimental Philosophy, Chemistry, Chemical Physics, Mineralogy and Geology, Drill Regulations (Artillery and Infantry), and Drawing.
3	Bell, James F.....	Pa.	Pa.	Natural and Experimental Philosophy, Chemistry, Chemical Physics, Mineralogy and Geology, and Drawing.
4	Hannum, Warren T.....	Pa.	Pa.	Natural and Experimental Philosophy, Chemistry, Chemical Physics, Mineralogy and Geology, and Drill Regulations (Artillery and Infantry.)
5	Ralston, Robert R.....	Pa.	Pa.	Natural and Experimental Philosophy, Chemistry, Chemical Physics, Mineralogy and Geology, and Drill Regulations (Artillery and Infantry.)
THIRD CLASS.				
1	MacArthur, Douglas.....	Ark.	Wis.	Mathematics, French, Spanish, and Practical Military Engineering.
2	Leeds, Charles T.....	Mass.	Mass.	Mathematics, French, Spanish, and Drawing.
3	Fiske, Harold C.....	N. Y.	N. Y.	Mathematics, French, Spanish, Drawing, and Practical Military Engineering.
4	Grant, Ulysses S.....	Ill.	Large.	Mathematics, French, and Spanish.
5	Schley, Julian L.....	Ga.	Ga.	Mathematics, Drawing, and Practical Military Engineering.
FOURTH CLASS.				
1	Pettis, Charles R.....	Miss.	Miss.	Mathematics, English, French, Drill Regulations, and Service of Security and Information.
2	Howell, Robert P., Jr.....	N. C.	N. C.	Mathematics, English, and French.
3	Campbell, Robert M.....	Md.	Large.	Mathematics, English, Drill Regulations, and Service of Security and Information.
4	Robert, Henry H.....	Miss.	Miss.	Mathematics, English, Drill Regulations, and Service of Security and Information.
5	Richardson, Robert C., Jr.	S. C.	S. C.	English and French.

NOTE.—The Cadets in each Class reported as "distinguished" are the first five according to class rank. Only the subjects in which the Cadet stands above tenth are mentioned.

Course of Study and Books Used at the U. S. Military Academy.

(Books marked thus * are for reference.)

FIRST YEAR—FOURTH CLASS.

DEPARTMENT.	COURSE OF STUDY, TEXT-BOOKS, AND BOOKS OF REFERENCE.
Mathematics.	C. Smith's Treatise on Algebra. J. B. Johnson's Theory and Practice of Surveying. Davies' Legendre's Geometry. *Ludlow's Logarithmic Tables. Ludlow's Elements of Trigonometry. C. Smith's Conic Sections.
Modern Languages.	Williams' Composition and Rhetoric. *Roget's Thesaurus of English Words. Abbott's How to Write Clearly. *Webster's Dictionary. Meiklejohn's English Language. De Peiffer's French Pronunciation. *Smith's Synonyms Discriminated. Keetels' Analytical and Practical French Grammar. Castarède's Treatise on the Conjugation of French Verbs. Roemer's Cours de Lecture et de Traduction, Vol. I. Böcher's College Series of French Plays, Vol. II. *Spiers' and Surene's French Pronouncing Dictionary.
Drill Regulations, U. S. Army.	Practical Instruction in the Schools of the Soldier, Company and Battalion—Infantry. Theoretical Instruction in the School of the Soldier and Company. Practical and Theoretical Instruction in the School of the Cannoneer—Siege and Light Artillery. Theoretical and Practical Instruction in the Service of Security and Information. Exercises in applied Tactics, and Practice Marches—Infantry. Theoretical and Practical Instruction in Target Practice. U. S. Infantry and Light Artillery Drill Regulations. Firing Regulations for Small Arms. Manual of Security and Information, by the Department of Tactics.
Use of the Sword, &c.	Instruction in Fencing with Rapier and Broad Sword, and Bayonet Exercise, and Military Gymnastics.

SECOND YEAR—THIRD CLASS.

DEPARTMENT.	COURSE OF STUDY, TEXT-BOOKS, AND BOOKS OF REFERENCE.
Mathematics.	C. Smith's Conic Sections and Solid Geometry. Church's Descriptive Geometry, with its application to Spherical Projections, Shades, Shadows and Perspective. Bass' Differential Calculus. D. A. Murray's Integral Calculus. Johnson's Text Book on the Method of Least Squares.
Modern Languages.	Borel's Grammaire Française. *Spiers' and Surene's French Pronouncing Dictionary. Hennequin's Lessons in Idiomatic French. Monsanto and Languellier's Spanish Grammar. Böcher's College Series of French Plays, Vol. II. Knapp's Spanish Grammar. Roemer's Cours de Lecture et de Traduction, Vol. II. Knapp's Spanish Reader. Revue Militaire de l'Etranger. Traub's Spanish Verbs and Spanish Pronunciation. The Weekly Figaro. Ramseys's Elementary Spanish Reader. Eco de Madrid. *Seoane's Neumann and Baret's Spanish Dictionary. Edgren's Compendious French Grammar. *De Peiffer's French Pronunciation.
Drawing.	Constructive Problems in Plane Geometry. Point Paths. Topography and plotting of Surveys with lead pencil, pen and ink, and colors; construction of the various problems in Descriptive Geometry, Shades and Shadows, Linear Perspective and Isometric Projections; Practical Surveying in the Field. Field Reconnaissance Contouring, and Sketching with and without instruments; Theory of color and laying of tints; History of Cartography and Topography; Triangulation and large Surveys. Lectures on the foregoing. *Reed's Topographical Drawing and Sketching, including Photography applied to Surveying.
Drill Regulations, U. S. Army.	Practical Instruction in the Schools of the Soldier, Company and Battalion—Infantry. Practical Instruction in the School of the Cannoneer—Light Artillery; and School of the Trooper—Cavalry; and Equitation. Practical Instruction in Small Arms Target Practice. Practical Instruction in the Service of Security and Information. Exercises in applied Tactics and Practice Marches—Infantry. *U. S. Army Drill Regulations. *Firing Regulations for Small Arms. *Manual of Security and Information by the Department of Tactics.
Practical Mil'y Engineering.	Practical Instruction in the Construction of Ponton, Spar and Trestle Bridges, and Surveying.

THIRD YEAR—SECOND CLASS.

DEPARTMENT.	COURSE OF STUDY, TEXT-BOOKS, AND BOOKS OF REFERENCE.	
Natural and Experimental Philosophy.	Michie's Analytical Mechanics. Michie and Harlow's Practical Astronomy. Young's General Astronomy.	Michie's Elements of Wave-Motion relating to Sound and Light.
Chemistry, Mineralogy, and Geology.	Tillman's Descriptive General Chemistry (2d Edition). Tillman's Elementary Lessons in Heat (2d Edition). Tracy's Anatomy, Physiology and Hygiene. Thompson's Elementary Lessons in Electricity and Magnetism (new and revised ed.). Tillman's Important Minerals and Rocks. LeConte's Elements of Geology (4th Edition).	
Drawing.	Free Hand Drawing and Landscape in black and white. Mechanical and Architectural Drawing in ink and colors; Military Landscape, Sketching in the Field; Memory Drawing; Free-hand Mechanical Drawing without instruments; Building Construction, working Drawings and Isometric Sections; Engineering and Ordnance Drawing; Lectures on all the foregoing subjects with stereopticon. *Reed's Topographical Drawing and Sketching, including Photography applied to Surveying.	
Drill Regulations, U. S. Army.	Practical Instruction in the Schools of the Soldier, Company and Battalion—Infantry. Theoretical Instruction in Drill Regulations—Infantry. Practical Instruction in the School of the Cannoneer—Sea Coast Artillery. Theoretical Instruction in Drill Regulations for Light Artillery. [tion. Practical Instruction in the Schools of the Troop and Squadron—Cavalry; and Equita- *Dyer's Hand Book for Light Artillery.	
Practical Military Engineering.	Practical Instruction in the Construction of Ponton Bridges; in laying Gun Platforms, and in the Construction of Revetments and Obstacles. Practical and Theoretical Instruction in Military Signaling.	

FOURTH YEAR—FIRST CLASS.

DEPARTMENT.	COURSE OF STUDY, TEXT-BOOKS, AND BOOKS OF REFERENCE.	
Civil and Military Engineering and Science of War.	Wheeler's Civil Engineering. Fiebege's Field Fortifications. Fiebege's Pamphlet on Permanent Fortification.	Mercur's Attack of Fortified Places. Wagner's Organization and Tactics and the Service of Security and Informa'n. Mahan's Stereotomy.
Law.	Davis's Elements of Law. Davis's International Law (2d Edition).	Davis's Military Law. Flanders' Manual of the Constitution.
History and Historical Geography.	Durny's General History. *Labberton's New Historical Atlas.	
Practical Military Engineering.	Demolitions. Practical Instruction in the Construction of Ponton, Trestle and Spar Bridges; in the preparation and application of Siege Materials; and laying out Field and Siege Works. Practical Instruction in Military Reconnaissances on foot and mounted; in Field Telegraphy, Night Signaling, and the use of the Heliograph. *Ernst's Manual of Practical Military Engineering.	
Natural and Experimental Philosophy.	Practical Instruction in Astronomy.	
Drill Regulations, U. S. Army.	Practical Instruction in the Schools of the Soldier, Company and Battalion—Infantry; of the Troop and Squadron—Cavalry; Packing and Equitation. Theoretical Instruction U. S. Cavalry Drill Regulations. [ery. Practical Instruction in the School of the Battery—Light, Horse, and Mountain Artillery. Practical Instruction in the Service of Security and Information; Exercises in applied Tactics; Practical Instruction in Small Arms Target Practice; Practice Marches—Infantry, Cavalry and Artillery; Lectures in Customs of Service and Military Etiquette; Lectures on Hippology, on Age of Horse, Horseshoeing, Stable Management and Practical Work at Stables, &c. United States Army Cavalry Drill Regulations. *Firing Regulations for Small Arms. *Manual of Security and Information, by the Department of Tactics. *Dyer's Hand Book for Light Artillery.	
Ordnance and Gunnery.	Bruff's Ordnance and Gunnery. Ingalls' Ballistic Tables.	

INFORMATION RELATIVE TO THE APPOINTMENT AND ADMISSION OF CADETS TO THE UNITED STATES MILITARY ACADEMY.

APPOINTMENTS.

How Made.—Each Congressional District and Territory—also the District of Columbia—is entitled to have one Cadet at the Academy. Each State is also entitled to have two Cadets at the Academy, from the State at large. Thirty are also appointed from the United States *at large*. The appointments (except those from the United States *at large* and from the District of Columbia) are made by the Secretary of War at the request of the Senator, Representative, or Delegate, in Congress; and the person appointed must be an actual resident of the State, District or Territory from which the appointment is made. The appointments from the United States *at large* and from the District of Columbia are specially conferred by the President of the United States.

Manner of Making Applications.—Applications can be made at any time, by letter to the Adjutant-General, to have the name of the applicant placed upon the register that it may be furnished to the proper Senator, Representative, or Delegate, when a vacancy occurs. The application must exhibit the full name, date of birth, and permanent abode of the applicant, with the number of the Congressional District in which his residence is situated.

Date of Appointments.—Appointments are required by law to be made one year in advance of the date of admission, except in cases where, by reason of death or other cause, a vacancy occurs which cannot be provided for by such appointment in advance. These vacancies are filled in time for the next examination.

Alternates.—For each candidate appointed there may be nominated *two alternates*. Each of the alternates will also receive from the War Department a letter of appointment, and will be examined *with the regular appointee*. In the event of the failure of the principal to pass the prescribed preliminary examinations, the better qualified of the alternates, as determined at the preliminary examination, will be admitted. The alternates will not be allowed to defer their reporting until the result of the examination of the regular appointee is known, but must report at the time designated in their letters of appointment. The alternates, like the nominee, should be designated as nearly one year in advance of date of admission as possible.

ADMISSION OF CADETS.

Candidates selected for appointment shall appear for mental and physical examination, before boards of army officers to be convened at such places as the War Department may select, on the first day of May, annually, except when that day comes on Sunday, in which case the examination shall commence on the following Tuesday. Candidates who pass successfully will be admitted to the Academy without further examination, upon reporting in person to the Superintendent at West Point before 12 o'clock noon on the 15th day of June of the same year.

No candidate shall be examined at any other time unless prevented from presenting himself at the May examination by sickness or other unavoidable cause, in which case he shall report to the Superintendent at West Point before 12 o'clock noon on the 12th day of June of the same year.

Each candidate before he shall be admitted to the Academy as a Cadet shall be shown, by the examination provided for in the preceding paragraph, to be well versed in the following prescribed subjects, viz: reading, writing, spelling, English grammar, English composition, English literature, arithmetic, algebra through quadratic equations, plane geometry, descriptive geography and the elements of physical geography, especially the geography of the United States, United States history, the outlines of general history and the general principles of physiology and hygiene.

Candidates may be examined either orally or in writing, and no rejected candidate may be re-examined except upon the recommendation of the Academic Board.

Immediately after reporting to the Superintendent for admission, and before receiving his warrant of appointment, the candidate is required to sign an engagement for service in the following form, in the presence of the Superintendent, or of some officer deputed by him:

"I, _____, of the State (or Territory) of _____, aged _____ years _____ months, do hereby engage (with the consent of my parent or guardian) that, from the date of my admission as a Cadet of the United States Military Academy, I will serve in the Army of the United States for eight years, unless sooner discharged by competent authority."

In the presence of _____

The candidate is then required to take and subscribe an oath or affirmation in the following form:

"I, _____, do solemnly swear that I will support the Constitution of the United States, and bear true allegiance to the National Government; that I will maintain and defend the sovereignty of the United States, paramount to any and all allegiance, sovereignty, or fealty I may owe to any State or country whatsoever; and that I will at all times obey the legal orders of my superior officers, and the rules and articles governing the Armies of the United States."

Sworn and subscribed, at _____, this _____ day of _____ nineteen hundred and _____ before me.

Qualifications.—No candidate will be admitted who is under seventeen, or over twenty-two years of age, or who is deformed, or afflicted with any disease or infirmity which would render him unfit for the military service, or who has, at the time of presenting himself, any disorder of an infectious or immoral character. Accepted candidates if between seventeen and eighteen years of age should not fall below five feet three inches in height and one hundred pounds in weight; if between eighteen and nineteen years, five feet three and one-half inches in height and one hundred and five pounds in weight; if over nineteen, five feet four inches in height and one hundred and ten pounds in weight. Candidates must be unmarried.

CHARACTER OF EXAMINATIONS.

PHYSICAL EXAMINATION.

Every candidate is subjected to a rigid physical examination, and if there is found to exist in him any of the following causes of disqualification to such a degree as would immediately or at no very distant period impair his efficiency, he is rejected:

- 1.—Feeble constitution; unsound health from whatever cause; indications of former disease, glandular swellings, or other symptoms of scrofula.
- 2.—Chronic cutaneous affections, especially of the scalp.
- 3.—Severe injuries of the bones of the head; convulsions.
- 4.—Impaired vision, from whatever cause; inflammatory affections of the eyelids; immobility or irregularity of the iris; fistula lachrymalis, &c., &c.
- 5.—Deafness; copious discharge from the ears.
- 6.—Loss of many teeth, or the teeth generally unsound.
- 7.—Impediment of speech.
- 8.—Want of due capacity of the chest, and any other indication of a liability to a pulmonic disease.
- 9.—Impaired or inadequate efficiency of one or both of the superior extremities on account of fractures, especially of the clavicle, contraction of a joint, deformity, &c.
- 10.—An unusual excurvature or incurvature of the spine.
- 11.—Hernia.
- 12.—A varicose state of the veins of the scrotum or spermatic cord (when large), hydrocele, hemorrhoids, fistulas.
- 13.—Impaired or inadequate efficiency of one or both of the inferior extremities on account of varicose veins, fractures, malformation (flat feet, &c.), lameness, contraction, unequal length, bunions, overlying or supernumerary toes, &c., &c.
- 14.—Ulcers, or unsound cicatrices of ulcers likely to break out afresh.

MENTAL EXAMINATION.

Reading.—In *reading*, candidates must be able to read understandingly, and with proper accent and emphasis. They will be required, if called upon, to define intelligently the leading words of the text read.

Writing and Spelling.—In *writing and spelling* they must be able, from dictation, to write legibly, neatly, rapidly, and correctly, sentences from standard pieces of English literature, both prose and poetry, sufficient in number to test their qualifications both in hand-writing and in spelling. In *punctuation and capitals* they must be familiar with the rules for punctuation and for the use of capitals. In order to test their knowledge, sentences will be given for correction, or for this purpose a theme may be required of the candidate.

The following specimens are from a recent examination in this subject:

There was no pursuit, though the sun was still high in the Heaven when William crossed the Gette. The conquerors were so much exhausted by marching and fighting that they could scarcely move; and the horses were in even worse condition than the men. Their general thought it necessary to allow some time for rest and refreshment. The French nobles unloaded their sumpter horses, supped gaily, and pledged one another in champagne amidst the heaps of dead; and, when night fell, whole brigades gladly lay down to sleep in their ranks on the field of battle. The inactivity of Luxemburg did not escape censure. None could deny that he had in the action shown great skill and energy. But some complained that he wanted patience and perseverance. Others whispered that he had no wish to bring to an end a war which made him necessary to a Court where he had never, in time of peace, found favor or even justice. Lewis, who on this occasion was perhaps not altogether free from some emotions of jealousy, contrived, it was reported, to mingle with the praise which he bestowed on his lieutenant blame which, though delicately expressed, was perfectly intelligible.

And what is home and where, but with the loving!

Happy thou art, that so canst gaze on thine!

My spirit feels but, in its weary roving,

That with the dead, where'er they be, is mine.

Go to thy home, rejoicing son and brother!

Bear in fresh gladness to the household scene!

For me, too, watch the sister and the mother,

I will believe—but dark seas roll between.

NOTE.—Candidates are eligible for admission from the day they are 17, until the day they become 22 years of age, on which latter day they are not eligible.

There being no provision whatever for the payment of the traveling expenses of either accepted or rejected candidates for admission, no candidate should fail to provide himself in advance with the means of returning to his home, in case of his rejection.

It is suggested to all candidates for admission to the Military Academy that, before leaving their places of residence for the place of examination, they should cause themselves to be thoroughly examined by a competent physician, and by a teacher or instructor in good standing. By such an examination any *serious* physical disqualification or deficiency in mental preparation would be revealed.

It should be understood that the informal examination herein recommended is solely for the convenience and benefit of the candidate himself, and can in no manner affect the decision of the Academic and Medical Examining Boards.

The use of tobacco in any form by Cadets is *prohibited*.

Arithmetic.—Candidates must possess such a complete knowledge of *arithmetic* as will enable them to pursue the study of such branches of mathematics as are taught at the United States Military Academy. They will be subject to examination only in that part of arithmetic which relates to denominate numbers, the processes of common and decimal fractions, the greatest common divisor of numbers and the least common multiple of numbers.

The following are typical questions:

Reduce $5\frac{1}{2} + \frac{7\frac{1}{2}}{0.5} - 0.725$
 $\frac{4 + 3.45}{2\frac{1}{2}}$ to an equivalent decimal.

Multiply .0578 by 4.

Change .013 to an equivalent fraction whose denominator is 135.

Deduce a method for finding the greatest common divisor of any two integers which cannot readily be factored.

Find the greatest common divisor of $26\frac{1}{4}$, $28\frac{3}{8}$, and $29\frac{1}{2}$.

How many men would be required to cultivate a field of $2\frac{3}{8}$ acres in $5\frac{1}{2}$ days of 10 hours each, if each man completed 77 square yards in 9 hours?

5 cubic feet of gold weigh 98.20 times as much as a cubic foot of water; and 2 cubic feet of copper weigh 18 times as much as a cubic foot of water; how many cubic inches of copper will weigh as much as $\frac{2}{3}$ of a cubic inch of gold?

English shillings are coined from a metal which contains 37 parts of silver to 3 parts of alloy; one pound of this metal is coined into 66 shillings. The United States silver dollar weighs 412.5 grains, and consists of 9 parts silver to 1 part of alloy. What fraction of the U. S. dollar will contain the same amount of silver as 1 English shilling?

What is the difference in grains between $42\frac{3}{8}$ lbs. Av. and 42.375 lbs. T.?

Algebra.—Candidates will be required to pass a satisfactory examination in that portion of *algebra* which includes the following range of subjects: Definitions and notation; the fundamental laws; the fundamental operations, viz.: addition, subtraction, multiplication and division; factoring; highest common factor; lowest common multiple; fractions simple and complex; simple, or linear, equations with one unknown quantity; simultaneous simple, or linear, equations with two or more unknown quantities; involution, including the formation of the squares and cubes of polynomials; evolution, including the extraction of the square and cube roots of polynomials and of numbers; theory of exponents; radicals, including reduction and fundamental operations, rationalization, square roots of binomial surds, equations involving radicals, and imaginary quantities; quadratic equations; equations of quadratic form; simultaneous quadratic equations; ratio and proportion; arithmetical and geometrical progressions. Candidates will be required to solve problems involving any of the principles or methods contained in the above subjects.

The following are typical questions:

Enunciate the Commutative Law, the Distributive Law, the Associative Law.

What is a homogenous algebraic expression? Give example.

Remove brackets from $a - [5b - \{a - (3c - 3b) + 2c - (a - 2b - 2c)\}]$.

Find *L.C.M.* of $6(a^3 - b^2)(a - b)^2$, $9(a^4 - b^4)(a - b)^2$ and $12(a^2 - b^2)^3$.

Deduce the condition that the roots of the quadratic equation $ax^2 + bx + c = 0$ shall be equal, equal numerically with opposite signs, real, imaginary, rational.

A hare is eighty of her own leaps before a greyhound; she takes three leaps for every two that he takes, but he covers as much ground in one leap as she does in two. How many leaps will the hare have taken before she is caught?

A and B run a race, their rates of running being as 17 to 18. A runs $2\frac{1}{2}$ miles in 16 minutes 48 seconds, and B runs the entire distance in 34 minutes. What was the entire distance?

A and B can do a piece of work in $\frac{1}{4}$ hours, A and C in $3\frac{3}{8}$ hours, B and C in $5\frac{1}{2}$ hours. In what time can A do it alone?

A gun is fired 36 times before a second gun begins, after which the first is fired 8 times while the second is fired 7 times; but the second requires the same amount of powder for 3 shots that the first requires for 4. When both guns have used up the same amount of powder, how many shots have been fired from each?

A, B, C, and D, working one at a time do a certain work in 130 days. A gets 42 cents, B gets 45 cents, C gets 48 cents and D gets 50 cents for each days work. Each received the same amount. How many days did each work?

Having 300 barrels of flour worth \$7.50 per barrel, and 800 barrels worth \$7.80 per barrel, and 400 barrels worth \$7.65 per barrel, how many more barrels of flour at \$8.00 and \$8.50 per barrel will make 2000 barrels worth \$7.85 a barrel?

$$\text{Solve } \left. \begin{array}{l} x + \frac{3}{y} = \frac{7}{2} \\ 3x - \frac{2}{y} = \frac{26}{3} \end{array} \right\}$$

There is a number which consists of two digits, such that if we divide the number by the product of its digits we obtain a quotient 5 and a remainder 2, but if we invert the order of the digits and divide the resulting number by the product of its digits we obtain a quotient 2 and remainder 5. Required the number.

$$\begin{array}{l} \text{Solve} \quad \left. \begin{array}{l} 2y^2 - 4xy + 3x^2 = 17 \\ y^2 - x^2 = 16 \end{array} \right\} \\ \text{Simplify} \quad \frac{(3 + \sqrt{3})(3 + \sqrt{5})(\sqrt{5} - 2)}{(5 - \sqrt{5})(1 + \sqrt{3})} \\ \text{Solve} \quad \sqrt{2x+7} + \sqrt{3x-18} = \sqrt{7x+1} \end{array}$$

Find the geometrical progression whose sum to infinity is $4\frac{1}{2}$ and whose second term is -2 .

Plane Geometry.—Candidates will be required to give accurate definitions of the terms used in *plane geometry*, to demonstrate any proposition of plane geometry as given in the ordinary text-books and to solve simple geometrical problems either by a construction or by an application of algebra.

The following are typical questions:

Name and define the different kinds of triangles; of quadrilaterals.

Prove that, if a perpendicular is drawn to a given straight line at its middle point: 1st. Any point of the perpendicular is equally distant from the extremities of the line; 2d. Any point without the perpendicular, is unequally distant from the extremities.

Show that, if through the middle point of one of the sides of a triangle, a line be drawn parallel to the base, it will bisect the second side and the part intercepted will be equal to one-half the base.

What number of sides has the polygon, the sum of whose angles is twenty-six right angles?

To draw a common tangent to two given circles.

Find the locus of the middle points of all chords of a circle equal in length to a given line.

Find the locus of the middle points of all chords of a circle passing through a given point within the circle.

Prove that, through three points not in the same straight line, one circumference may always be made to pass, and but one.

Prove that, the square described on the hypotenuse of a right angled triangle is equivalent to the sum of the squares described on the other two sides.

Given the side of an equilateral triangle equal to 10 feet; find its area.

Define "limit of a variable." Illustrate by an example.

Prove that, the area of a circle is equal to the product of its circumference by half the radius.

Angles at the centres of equal circles are proportional to what? Angles at the centres of unequal circles are proportional to what? Define the unit angle or radian.

The regular inscribed hexagon is double the equilateral triangle inscribed in the same circle, and one-half of the circumscribed equilateral triangle.

English Grammar.—Candidates must have a good knowledge of *English grammar*; they must be able to define the terms used therein; to define the parts of speech; to give inflections, including declension, conjugation and comparison; to give the corresponding masculine and feminine genders; to give and apply the ordinary rules of syntax.

They must be able to parse correctly any ordinary sentence; giving the subject of each verb, the governing word of each objective case, the word for which each pronoun stands or to which it refers, the words between which each preposition shows the relation, precisely what each conjunction and each relative pronoun connects, what each adjective and adverb qualifies or limits, the construction of each infinitive, and generally to show a good knowledge of the function of each word in the sentence.

They must be able to correct in sentences or extracts any ordinary grammatical errors.

It is not required that any particular text-book shall be followed; but the definitions, parsing, and corrections must be in accordance with good usage and common sense.

The following questions were used at a recent examination:

I. Give the principal parts (present tense, past tense, and past participle) of the following verbs: 1. choose; 2. crow; 3. freeze; 4. slay; 5. stick; 6. fly; 7. sit; 8. burst.

II. Write the plurals of the following words: 1. motto; 2. fairy; 3. money; 4. belief; 5. axis; 6. synopsis; 7. man-of-war; 8. Norman; 9. M.

III. Write the feminine forms of the following words: 1. hero; 2. mankind; 3. murderer; 4. testator; 5. priest; 6. ambassador; 7. Englishman; 8. poet; 9. emperor.

IV. Write the possessive case of the following words: 1. men; 2. I; 3. it; 4. boys; 5. they; 6. prince; 7. King John; 8. King of Italy; 9. Henry the Fourth.

Define the following: 1. Personal pronoun. 2. Preposition.

Parse the words in italics in the following sentence:

Other *things being equal*, it is obvious that the writer *who* has most words to choose from is most *likely* to find in *his* assortment just the word *which* he needs at a given moment.

Correct all the errors in the following sentences: 7. I should not have asked like you did for twice the the money.

1. It was not her that did it.

2. Who do you take him to be?

3. He surely don't expect me to do it.

4. Neither by you nor he was it considered necessary.

5. Each have their own faults.

6. How do you know when its coming?

8. Are either of these places marked on the map?

9. Two fatal errors underlaid his theory.

10. Except you go with me, I shall stay at home.

11. You or he is in the wrong.

12. Here comes Smith and two other men.

In English Composition and English Literature.—Candidates must have a fair knowledge of the general principles and leading rules of composition. Their knowledge will be tested by the correction of errors in the selection and right use of words, of errors in the construction of sentences, by their proficiency in variety of expression, and by their ability to write a letter in the correct form.

They must have a fair knowledge of the names of the most prominent American and English authors and the names of their principal works.

Questions similar to the following are likely to be used:

Indicate the errors in the selection and use of words in the following sentences by underscoring the errors and writing the correct word above the incorrect:

1. He had exceptionable opportunities for learning the language.
2. A century transpired before it was revisited.
3. King Edward VII. replaced Queen Victoria on the throne of England.
4. He was continually aggravated by his conduct.
5. There were not less than twenty persons present.

Correct the following errors in construction of sentences:

1. The teacher should repress the practice of throwing stones, as far as possible.
2. The French having nearly lost 5000 men, became discouraged.
3. The picture of the king hung on the wall behind the door, covered with a cloth.
4. He made no petition, though he did not like the new representative quite as well as his colleagues.
5. He did not pretend to abolish French music but only to cultivate it.

For variety, change the following sentences into another correct form and still keep the same meaning:

1. If that be granted the rest is easily proved.
2. We hope we shall have the pleasure of seeing you.
3. A man that has little sense is seldom aware of the fact.
4. He was the first that entered.
5. His disease was one that cannot be cured.

Write the following letter in proper form to Charles Smith at 2121 Mount Vernon Avenue, Baltimore, Maryland, giving proper address and complimentary conclusion:

March 2 1900 philadelphia pa 8131 Eighth street

by this mail I send you two copies of the book ordered by you the 13th ultimo hoping they will prove satisfactory
hamlin and Co.

What author wrote? 1. Gulliver's Travels. 2. Macbeth. 3. Pilgrim's Progress. 4. Childe Harold.

Name one work of each of the following authors: 1. Tennyson. 2. Hawthorne. 3. Milton. 4. Spencer.

Geography.—Candidates will be required to pass a satisfactory examination, in *descriptive geography* and the elements of *physical geography*. A preponderance of weight is attached to a knowledge of the geography of the United States.

In descriptive geography of the United States, candidates should be thoroughly informed as to its general features and boundaries (both with respect to neighboring countries, and latitude and longitude); its adjacent oceans, seas, bays, gulfs, sounds, straits, and islands; its lakes, the location and extent of its mountain ranges; the sources, directions, and terminations of the important rivers, the names of their principal tributaries, and at what points, if any, these rivers break through highlands on their way to the ocean; the water routes of communication from one part of the country to another; the location and termination of important railroad lines; the boundaries of the several States and Territories and their order along the coasts, frontiers and principal rivers; the locations and boundaries of the Island possessions; and the names and locations of the Capitals and other important cities of the several States, Territories and Island possessions.

In short, the knowledge should be so complete that a clear mental picture of the whole of the United States is impressed on the mind of the candidate.

In descriptive geography of other countries, candidates should be familiar with the continental areas and grand divisions of the water of the earth's surface; the large bodies of water which in part or wholly surround the grand divisions of the land; the capes, from what parts they project and into what waters, the principal peninsulas, location, and by what waters embraced; the parts connected by an isthmus; the principal islands, location and surrounding waters; the seas, gulfs, and bays, the coasts they indent, and the waters to which they are subordinate; the straits, the lands they separate, and the waters they connect; the location of the principal lakes; the locations, boundaries, capitals and principal cities of the political divisions of the world.

In physical geography, candidates should be familiar with the relief of the earth's surface; the principal mountain systems, the river systems and watersheds; the coastal and lake plains; and the influence of climate, soil, mineral deposits and other physical features on the resources, industries, commercial relations and development of a country and its people, especially of the United States.

The following questions were used at a recent examination:

1. Name the bodies of water surrounding Europe.
2. Where is 1. Cape St. Vincent, 2. Cape Corrientes, 3. Cape Matapan, 4. Cape Lopez, 5. Cape Comorin, 6. Cape York?

3. Name in order the political divisions of South America which border on the Pacific Ocean and the capital of each.
4. Locate definitely the following islands: 1. Mauritius, 2. Tasmania, 3. Formosa, 4. New Zealand, 5. Madeira, 6. Falkland; to what country does each belong?
5. Where are the gulfs of 1. Bothnia, 2. Guinea, 3. Paria, 4. Salonica, 5. Pechili?
6. What lands are separated and what waters connected by 1. Torres Strait, 2. Hudson Strait, 3. Strait of Malacca?
7. Bound Italy; name its capital, largest river and principal mountain range.
8. Locate definitely the following cities: 1. Vienna, 2. Nankin, 3. Cork, 4. Tunis, 5. Montevideo, 6. Bavaria, 7. Suoz, 8. Pretoria.
9. Name in order the waters traversed in sailing from Liverpool, England, to Hong Kong, China.
10. A considerable portion of the boundary line of the United States is along what parallel?
11. Locate definitely the following: 1. Flatland Lake, 2. Sabine Pass, 3. Black Hills, 4. Sebago Lake, 5. Cape Lookout, 6. Montauk Point, 7. Wichita Mountains, 8. Lingayen Bay.
12. The meridian of Minneapolis passes through what states?
13. Name the principal rivers that drain Pennsylvania; where do they rise, at what points do they leave the state and at what points, if any, do they break through highlands?
14. Name all the waters traversed in going by the two commercial water routes from Duluth to the Atlantic Ocean.
15. Name the principal ranges of mountains crossed in going by rail from New York to San Francisco; state the rail route assumed to be travelled.
16. Bound precisely the following states and territories: 1. Montana, 2. Arizona, 3. Arkansas, 4. Wisconsin, 5. Pennsylvania, 6. Georgia. (In bounding all contiguous states must be mentioned as well as rivers, mountain ranges, etc.)
17. Name the states west of the Mississippi river, drained wholly or in part by it or its tributaries, and give the capital of each.
18. Locate accurately the following cities: 1. Austin, 2. Pensacola, 3. Asheville, 4. Winchester, 5. Allegheny, 6. Iloilo, 7. Oswego, 8. Pasadena, 9. Guthrie, 10. Detroit.
19. Going by water from New Orleans, La., to Pittsburgh, Pa., what states would you pass on the left?
20. How many large islands are there in the Hawaiian group? Which is the largest? Which is the most important?
21. Going westward on the 35th parallel of north latitude, from near Newberne, N.C., what states and large rivers would be crossed?
22. Describe the chief mountain system of the eastern hemisphere, and state what island chains of Asia abound in volcanoes.
23. What are the great river systems of South America? Where are the principal coastal plains?
24. What are the qualifications of a good harbor? Name three of the best harbors on the Atlantic coast; one on the Pacific coast.
25. What has made the Middle Atlantic States the principal commercial section of the United States?

History.—The candidate will be required to be familiar with so much of the *history of the United States* and the outlines of *general history* as is contained in the ordinary school histories.

In history of the United States, the examination will include questions concerning early discoveries and settlements; the forms of government in the colonies; the causes, leading events, and results of wars; and prominent events in the history of our Government since its foundation.

In general history, candidates must have a fair knowledge of the general outlines of the history of the following nations: Egyptian, Assyrian, Babylonian, Persian, Grecian, and Roman; and of the mediæval and modern history of the European nations.

The following questions show the character of the examination in U. S. History and in General History:

1. What explorations or discoveries did each of the following named persons make? Give the date in each case. a. De Narvaez. b. Coronado. c. Marquette. d. La Salle.
2. Name three colonies that were founded for religious reasons and give the sect or denomination by which each was colonized.
3. Who were the Pilgrims?
4. When, and under what circumstances was Delaware separated from Pennsylvania?
5. Give an account of Bacon's Rebellion.
6. When and where did each of the following events occur? a. Meeting of the first Colonial Congress. b. Burgoyne's surrender. c. Arnold's treason.
7. Name some important results of each of the following battles of the Revolutionary War: a. Long Island. b. Trenton. c. Brandywine.
8. Name four additions to the Territory of the United States since the Revolutionary War, and give the way each has been acquired.
9. Bound the Territory of the United States at the close of the Revolutionary War.
10. What was the "Massacre of Wyoming"?
11. When, where and for what purpose, did the Constitutional convention meet? What resulted from its deliberations?
12. What was the "Whiskey Insurrection"?
13. What were the "Alien and Sedition" laws? What was their effect?
14. When and where was the last battle of the War of 1812 fought? Name the Commanders on each side.
15. What were the two principal political parties in 1860? Their candidates for the Presidency? Their leading doctrines on the slavery question? Parties. Candidates. Principles.
16. With what foreign nations had the United States unfriendly relations during and at the close of the Civil War? Give the cause in each case.
17. Name, with date, three important military events of 1865.
18. What Vice-Presidents have become President? Name the predecessor in each case.

19. Give an account of the "Virginius affair."
20. In what war were the following battles fought? What were the opposing forces? Which side won?
 - a. Ticonderoga. b. Monterey. c. Saratoga. d. Stony Point. e. Spottsylvania. f. Lundy's Lane.
1. Into what general periods is the history of Egypt divided?
2. Into what classes was Egyptian society divided?
3. Name one of the great Kings of Assyria.
4. In what region did the Assyrian Kingdom lie?
5. Name the greatest Babylonian King and describe some of his achievements.
6. Who was the founder of the Persian Empire?
7. State the principal events of the reign of Darius I.
8. Into what three general parts was ancient Greece divided, and what was the name of the principal state in each?
9. What was the character of the Spartan people and the nature of their government?
10. What was the character of the Athenian people, and the nature of their government after the expulsion of the tyrants?
11. Name four great battles of the Græco-Persian War, and give the date of any one of them.
12. What was the name of the great war between the Grecian States, and what States were the leaders in it?
13. Give an outline of the conquests of Alexander the Great. In what century did they occur?
14. What was the nature of the early government of Rome?
15. Give the title of the principal officers of the Roman republic, and describe their functions.
16. What were the Punic Wars? How many in number? Name two great Carthaginian and two great Roman generals.
17. Who was Augustus Cæsar? State briefly the principal events of his career.
18. What was the feudal system, and how did it originate?
19. What is meant by the Renaissance?
20. Who was the leader of the Reformation? Describe briefly its nature and principal events.
21. Who was Oliver Cromwell, and what did he establish?
22. What was the cause of the French Revolution, and what did it effect?
23. Under what two forms of government did Napoleon rule France, and what was the "Code Napoleon"?
24. When and under what circumstances was the new German Empire founded?
25. Name some of the more important events of Queen Victoria's reign.

Physiology and Hygiene.—Candidates must be able to pass a satisfactory examination in the general principles of *physiology and hygiene* with special reference to the nature and the effects of alcoholic drinks and other narcotics upon the human system.

They must be able to state the general effects of alcohol upon the cells and tissues of the body and upon the processes of digestion, its effects on the liver, lungs and heart, on the blood, blood vessels, and on the nervous system, on the moral powers and the capacity for physical endurance; its hereditary effects; the origin and nature of alcoholic beverages; the general effects of tobacco on the cells and tissues of the young and on the digestive organs, its effects on the throat, on the heart, on the blood, on the nervous system; the effects of opium on the stomach and on the nervous system; the influence of tea and coffee on the system.

Questions similar to the following are likely to be used:

1. What are the two important offices of the bones? Describe the internal minute structure of the bone.
2. Name in order the different parts of the alimentary canal.
3. Indicate by diagram the shape of the human stomach; mark the left side when in position.
4. What is the mucous membrane—its structure; the serous membrane—its use?
5. What in general is the effect of alcohol and tobacco on the living cells; what is the only absolute safeguard against the narcotic appetite?
6. What chronic effect is often produced on the stomach by the habitual use of alcohol?
7. Name in order all the channels through which the air passes in respiration; in what part of the circuit does it aerate the blood?
8. What is the average amount of air taken in at one inspiration; what changes are observed in the expired air?
9. What is the usual effect on the stomach of the habitual use of alcohol?
10. Name two well determined effects of alcohol upon the liver.
11. What is meant by the general circulation of the blood?
12. What are the two systems of channels for the circulation of the blood? Describe the structure of each.
13. Starting with the blood in the right auricle describe its course through the body until it returns to the same receptacle?
14. What are the three agencies instrumental in returning the blood from the different parts of the system to the heart?
15. What are the effects of alcohol on the blood—of tobacco?
16. What are the effects of alcohol on the heart—what is the explanation of the fact that alcohol sometimes increases the rapidity of heart-beats?
17. What is the effect of tobacco that produces the disease known as the "tobacco heart"?
18. Describe the structure of the skin—what are the functions of the skin?
19. What is the explanation of the disease "aneurism" when due to alcohol?
20. Under what two heads may we in general class the changes produced by alcohol on the structures of the organs—which of these is due to the stronger beverages?

ACADEMIC DUTIES.

The academic duties and exercises commence on the first of September and continue until the first of June. Examinations of the several classes are held in January, and June, and, at the former, such of the new Cadets as are found proficient in studies and have been correct in conduct are given the particular standing in their class to which their merits entitle them. After each examination, Cadets found deficient in conduct or studies are discharged from the Academy, unless the Academic Board for special reasons in each case should otherwise recommend. Similar examinations are held every January and June during the four years comprising the course of study.

Military Instruction.—From the termination of the examination in June to the end of August the Cadets live in camp, engaged only in military duties and exercises and receiving practical military instruction.

Except in extreme cases, Cadets are allowed but one leave of absence during the four years' course; as a rule the leave is granted at the end of the first two years' course of study.

PAY OF CADETS.

The pay of a Cadet is \$540 per year, to commence with his admission to the Academy. No Cadet is permitted to receive money, or any other supplies, from his parents, or from any person whomsoever, without the sanction of the Superintendent.

A most rigid observance of this regulation is urged upon all parents and guardians, as its violations would make distinctions between Cadets which it is the especial desire to avoid; the pay of a Cadet is sufficient, with proper economy, for his support.

Each Cadet must keep himself supplied with the following mentioned articles, viz.:

Two pairs of uniform shoes; six pairs of uniform white gloves; two sets of white belts; *eight white shirts; *four night shirts; twelve white linen collars; twelve pairs of white linen cuffs; *eight pairs of socks; *eight pairs of summer drawers; *six pairs of winter drawers; *twelve pocket handkerchiefs; *twelve towels; two clothes bags, made of ticking; *one clothes brush; *one hair-brush; *one tooth-brush; *one comb; one mat-tress; one pillow; four pillow-cases; eight sheets, two blankets, and one quilted bed cover; one chair; one tumbler; *one trunk; one account book; one wash basin.

Candidates are authorized to bring with them the articles marked *.

Cadets are required to wear the prescribed uniform. All articles of their uniform are of a designated pattern, and are sold to Cadets at West Point at regulated prices.

DEPOSIT PRIOR TO ADMISSION.

Immediately after being admitted to the Institution Cadets must be provided with an outfit of uniform, the cost of which will be about \$100, which sum must be deposited with the Treasurer of the Academy before the candidate is admitted. It is best for a candidate to take with him no more money than will defray his traveling expenses, and for the parent or guardian to send to "The Treasurer of the U. S. Military Academy," the required deposit of \$100. This amount is sufficient to equip a new Cadet with uniform and to supply him with all articles and books.

ASSIGNMENT TO CORPS AFTER GRADUATION.

The attention of applicants and candidates is called to the following provisions of an Act of Congress approved May 17, 1886, to regulate the promotion of graduates of the United States Military Academy:—

"That when any Cadet of the United States Military Academy has gone through all its classes and received a regular diploma from the Academic Staff, he may be promoted and commissioned as a second lieutenant in any arm or corps of the Army in which there may be a vacancy and the duties of which he may have been judged competent to perform; and in case there shall not at the time be a vacancy in such arm or corps, he may, at the discretion of the President, be promoted and commissioned in it as an additional second lieutenant, with the usual pay and allowances of a second lieutenant, until a vacancy shall happen."

HEADQUARTERS UNITED STATES MILITARY ACADEMY,

WEST POINT, N. Y., June 30, 1901.

BY ORDER OF COLONEL MILLS:

W. C. Rivers,

Captain 11th Cavalry,

Adjutant.
