[PUBLIC—NO. 416—70TH CONGRESS]

[H. R. 8105]

An Act To provide for the membership of the Board of Visitors, United States Military Academy, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That hereafter the Board of Visitors to the United States Military Academy shall consist of five members of the Committee on Military Affairs of the Senate, two members of the Committee on Appropriations of the Senate, seven members of the Committee on Military Affairs of the House of Representatives, and five members of the Committee on Appropriations of the House of Representatives, to be appointed by the respective chairmen thereof; the members so appointed shall visit the United States Military Academy at least once annually at such time or times as the chairmen of said committee shall appoint, and the members from each of said committees may visit said academy together or separately as the respective chairmen of said committees may elect; and the superintendent of the academy and the members of the Board of Visitors shall be notified of such date by the chairmen of the said committees: Provided, That members chosen by the respective chairmen of the said committees who have been reelected to the Senate or House of Representatives may continue to serve as members of the Board of Visitors and visit the United States Military Academy notwithstanding the expiration of Congress. The expenses of the members of the board shall be their actual expenses while engaged upon their duties as members of said board and their actual expenses of travel.

Approved, May 17, 1928.

HISTORICAL SKETCH.

The United States Military Academy is a school for the practical and theoretical training of cadets for the military service. Upon completing its course satisfactorily, cadets are eligible for promotion and commission as second lieutenants in any arm or corps of the Army the duties of which they have been adjudged competent to perform.

The supervision and charge of the Academy are in the War Department under such officer or officers as the Secretary of War may assign to that duty (section 1331, Revised Statutes.) In conformity with the provisions of this section, the Chief of Staff has been, by direction of the Secretary, charged with the supervision of matters in the War Department pertaining to the Academy.

The occupation of West Point as a military post took place on January 20, 1778, and has been continuous since that date. The earliest proposal for a military school for the United States was that of Brigadier General Henry Knox, Chief of Artillery (May, 1776). His plans were seconded by Colonel Alexander Hamilton and approved by General Washington, though they were not adopted in the form suggested before 1802, other counsels having temporarily prevailed.

On October 1, 1776, Congress passed a resolution appointing a committee to prepare a plan for "A Military Academy at the Army." The result was the resolution of June 20, 1777, providing for a Corps of Invalids "to serve as a military school for young gentlemen previous to their being appointed to marching regiments." The invalid Corps was organized in July, 1777, and in 1781, at the request of Washington, was marched from Philadelphia to form part of the garrison at West Point, where an engineer school, a laboratory, and a library had already been established in three separate buildings.

On March 30, 1779, the Board of War adopted regulations for the Corps of Engineers and for the Sappers and Miners. These were promulgated in orders, July 30, 1779, by George Washington and provided for a plan of instruction to be carried into effect after approval by the Board and by the General-in-Chief. The plan contemplated lectures, by engineer officers, on fortification, mining, reconnaissance, encampments and the like. Practical experiments in gunnery were conducted at West Point as early as February, 1780. In 1783, after the cessation of hostilities, Washington, having been called upon for his views as to the peace establishment, laid the matter of a Military Academy before his officers at Newburgh. He referred to it again in his message on December 3, 1793. The law of May 9, 1794, authorized the organization of a Corps of Artillerists and Engineers with two cadets to a company, thus creating the new grade of "cadet" in the American Army. A school for the Artillerists and Engineers, and for the cadets attached to the Corps, was established, on the recommendation of Washington, by order, at West Point in 1794. The destruction of its buildings by fire, in 1796, caused its suspension. In July, 1801, the Secretary of War directed that all the cadets of the Corps of Artillerists should report at West Point for instruction, and in September, a school was opened with four army officers and a civilian as administrators and instructors.

An act of Congress approved March 16, 1802, authorized the President to organize and establish a Corps of Engineers to consist of five officers and ten cadets, and provided that it should be stationed at West Point, in the State of New York, and should constitute a Military Academy. The Academy with ten cadets present, was formally opened July 4, the year of the Act.

Acts of Congress, in 1802 and 1808, authorized 40 cadets from the Artillery, 100 from the Infantry, 16 from the Dragoons, and 20 from the Riflemen; few of these were appointed, and no provision was made for them at the Academy. In 1810, the Academy was deprived of nearly all means of instruction, and officers and cadets had difficulty in obtaining their pay. During most of the year 1811, and a part of 1812, although war was imminent, academic instruction was practically abandoned. In March, 1812, the Academy was without a single instructor. Up to and including this time, 88 cadets had been graduated; they had entered without mental or physical examination, at all ages from 12 to 34, and at various times during the year.

By Act of Congress of April 29, 1812, the Academy was reorganized. The provisions of this Act have furnished the general principles upon which the Military Academy has since been conducted and controlled; a more adequate corps of professors was authorized; a maximum of 250 cadets was fixed; and the age and the mental requisites for admission were prescribed.

In 1817, under the provisions of the Act of 1812, and the able superintendency of Major Sylvanus Thayer, Corps of Engineers, the present era in the Academy's history opened.

Until 1843, a prescribed residence was not a legal qualification for appointment, but the selection of one cadet from each Congressional district had grown to be customary. In this year the custom became the law, Congress prescribing that the Corps of Cadets should consist of one from each Congressional district, one from each Territory, one from the District of Columbia, and ten from the United States at large, to be appointed by the President.

By the Act of Congress, approved June 7, 1935, the Corps of Cadets, as now constituted, consists of three for each Senator, three for each Representative, three for the Delegate in Congress from the Territory of Alaska, three for the Delegate in Congress from the Territory of Hawaii, three for the Resident Commissioner from Puerto Rico, one for the Governor of the Panama Canal Zone, five for the District of Columbia, twenty for the sons of deceased officers, twenty for the sons of deceased enlisted men, forty for Honor Schools, three for the Vice-President, eighty-nine for The President, ninety for the Regular Army and ninety for the National Guard, or a total of 1,960.

In addition to the 1,960 mentioned above, the Secretary of War is authorized to permit not exceeding four Filipinos, to be designated, one for each class, by the President of the Commonwealth of the Philippine Islands, to receive instruction at the United States Military Academy: *"Provided, That the Filipinos undergoing instruction shall receive the same pay, allowances, and emoluments as are authorized by law for cadets at the Military Academy appointed from the United States, to be paid out of the same appropriations: And Provided further, That said Filipinos undergoing instruction on graduation shall be eligible only to commissions in the Philippine Scouts. And the provisions of Section 1321, Revised Statutes, are modified in the case of the Filipinos undergoing instruction, so as to require them to engage to serve for eight years, unless sooner discharged, in the Philippine Scouts."* (35 Stats., 441.)

The Act of Congress approved July 1, 1937, making appropriations for the military establishment for the fiscal year ending June 30, 1938, contains a proviso which reads as follows: "That no part of this or any appropriation contained in this Act shall be available for the pay of any person, civil or military, not a citizen of the United States, unless in the employ of the Government or in a pay status under appropriations carried in this Act on July 1, 1937."

An Act of Congress approved May 25, 1933, as amended by the Act of Congress approved July 8, 1937, provides: "That the superintendents of the United States Naval Academy, the United States Military Academy, and the United States Coast Guard Academy may, under such rules and regulations as the Secretary of the Navy, the Secretary of War, and the Secretary of the Treasury may prescribe, confer the degree of bachelor of science upon all living graduates of their respective academies, from and after the date of the accrediting of said academies by the Association of American Universities." The United States Military Academy was accredited by the Association of American Universities on October 31, 1925. The degree of bachelor of science was conferred retroactively by certificate upon all qualified living graduates up to and including the class of 1925. The degree of bachelor of science was conferred retroactively by certificate upon all graduates in the classes of 1926 to 1933, inclusive. For succeeding classes this degree is regularly conferred at the time of graduation.

The total number of graduates, including foreigners receiving instruction under Acts of Congress, from 1802 to June 11, 1940, inclusive, is 12,288.

COMMENDATORY REFERENCES TO THE ACADEMY

"I have duly received your letter of the 28th ultimo, enclosing a copy of what you had written to the Secretary of War, on the subject of a Military Academy.

"The establishment of an Institution of this kind, upon a respectable and extensive basis, has ever been considered by me as an object of primary importance to this country; and while I was in the Chair of Government, I omitted no proper opportunity of recommending it, in my public speeches and other ways, to the attention of the Legislature. But I never undertook to go into a detail of the organization of such an academy; leaving this task to others whose pursuits in the paths of science, and attention to the arrangements of such institutions, had better qualified them for the execution of it. For the same reason I must now decline making any observations on the details of your plan; and as it has already been submitted to the Secretary of War, through whom it would naturally be laid before Congress, it might be too late for alterations if any should be suggested."

"I sincerely hope that the subject will meet with due attention, and that the reasons for its establishment which you have so clearly pointed out in your letter to the Secretary, will prevail upon the Legislature to place it upon a permanent and respectable footing."—George Washington. (*Letter to Alexander Hamilton dated Mount Vernon, 12 December, 1799, two days before General Washington died.*)

"I recommend to your fostering care, as one of our safest means of national defense, the Military Academy. This institution has already exercised the happiest influence upon the moral and intellectual character of our Army; and such of the graduates as from various causes may not pursue the profession of arms will be scarcely less useful as citizens. Their knowledge of the military art will be advantageously employed in the militia service, and in a measure secure to that class of troops the advantages which in this respect belong to standing armies."—Andrew Jackson. (*Extract from his First Message to Congress, December, 1829.*)

COMMENDATORY REFERENCES TO THE ACADEMY (Continued)

"I give it as my fixed opinion, that but for our graduated cadets, the war between the United States and Mexico might, and probably would, have lasted some four or five years, with, in its first half, more defeats than victories falling to our share; whereas, in less than two campaigns, we conquered a great country and a peace, without the loss of a single battle or skirmish."—*Winfield Scott.* (*Extract from a letter written by him July 25, 1860, to Lieutenant Ives, Secretary to the U. S. Military Academy Commission.*)

"The foregoing considerations naturally bring to mind the Military Academy at West Point. I believe that the great service which it has rendered the country was never more conspicuous than it has been during the past two years. The faithful and efficient services of its graduates since the declaration of war with Spain have more than repaid the cost of the institution since its foundation. They have been too few in number and most heavily burdened"—*Elihu Root.* (*Extract from his report as Secretary of War, June 30, 1899.*)

"This institution has completed its first hundred years of life. During that century no other educational institution in the land has contributed so many names as West Point has contributed to the honor roll of the nation's greatest citizens."—*Theodore Roosevelt.* (*Extract from his address at the Centennial Exercises U. S. Military Academy, June 11, 1902.*)

"In the World War, West Point again demonstrated its supreme value to the country in the hour of need. Our great overseas army was made and led by West Point men and the incredible swiftness with which it was trained for its great task is a tribute to the fineness of the raw material and also to the leadership generated by West Point. In all walks of life character is the indispensable basis of enduring success. West Point does many things for its men, but the highest quality it gives them is character and in the emergency of the World War, our success rested upon the character of our leaders. It, therefore, finally rested upon West Point"—*Newton D. Baker.* (*Extract from a letter written by him March 27, 1928, to Major General William R. Smith, Superintendent, U. S. Military Academy.*)

"What the Academy stands for has always been my guide throughout my military career, and to have approached the high ideals of duty, honor and service to the country that are the real spirit of West Point, has to me a meaning that nothing else has. The longer I live, and the further I have gone on in the service, the more I reverence the things that inspire the heart and soul of young men at West Point.

I can only add that West Point has again, in this war, demonstrated its usefulness and justified itself a hundred times over in furnishing to this great American Army in Europe the splendid men who have served here in the old West Point spirit."—*Extracts from a letter from General John J. Pershing, January 11, 1929.*

Note.—The selection of the Superintendents of the Military Academy was confined to the Corps of Engineers from the establishment of the Institution, March 16, 1802, till the passage of the law of July 13, 1866, which opened it to the entire Army. By the Act of June 12, 1856, the local rank of Colonel was conferred upon the Superintendent.

1 Major Williams resigned June 20, 1803, on a point of command, and pending its settlement until April 19, 1805, when he again returned to service as Chief Engineer, no permanent Superintendent of the Military Academy was appointed, the command devolving upon the senior officer of the Corps of Engineers present for duty.

2 Bvt. Major P. G. T. Beauregard, Corps of Engineers, by order of John B. Floyd, Secretary of War, relieved Colonel Delafield, Jan. 23, 1861, from the superintendency of the Military Academy, but was himself displaced five days later Jan. 28, 1861, by direction of the succeeding Secretary of War Joseph Holt, the command again devolving upon Colonel Delafield.

CLASSIFICATION OF CADETS.

The Cadets are arranged in four distinct classes, corresponding with the four years of study. The Cadets employed on the first year's course constitute the *Fourth Class*; those on the second year's course the *Third Class*; those on the third year's course the *Second Class*; and those on the fourth year's course the *First Class*.

The academic year commences on the 1st of July. On, or before, that date the result of the examination held in the preceding month is announced and Cadets are advanced from one class to another. At no other time is a Cadet advanced from one class to another, unless prevented by sickness, or authorized absence, from attending the aforesaid examination; in such a case a special examination is granted; but in no case is a Cadet advanced from one class to another without having satisfied the Academic Board of his proficiency in each branch of study pursued by his class.

Cadets whose names are marked thus * in the following pages are designated as distinguished cadets. A cadet is designated as distinguished for any year in which he has attained a final total of not less than ninety per centum of the maximum possible total for that year; a cadet is designated as distinguished for the four years if he has attained a final total of not less than ninety per centum of the maximum possible total for the four years; provided, however, that not more than six per centum of any class may be designated as distinguished for the year or for the four years. A complete list of distinguished cadets by classes will be found in the following pages.

Cadets whose names are marked thus † were found deficient, and turned back, to join the next succeeding class.

Cadets whose names are marked thus ‡ were found deficient, and discharged.

CORPS ORGANIZATION (Continued)

For instruction in Infantry Drill and in Military Police and Discipline, the Corps of Cadets is organized into three battalions, under the Commandant of Cadets, assisted by three battalion commanders (army officers), each company being commanded by an officer of the army. Cadet officers and noncommissioned officers are in general selected from those cadets having the highest rating in Military Efficiency and Conduct. Captains, Lieutenants, 1st Sergeants, Supply Sergeants, and Sergeants are selected from the First Class, Corporals from the Second Class, and Acting Corporals from the Third Class.

June 12, 1940.

INFORMATION RELATIVE TO THE APPOINTMENT AND ADMISSION OF CADETS TO THE UNITED STATES MILITARY ACADEMY, WEST POINT, N. Y.

{Communications relating to matters connected with the Military Academy should be addressed to
The Adjutant General, Washington, D. C.]

THE MILITARY ACADEMY

1. The United States Military Academy is an institution established by the Government for the practical and theoretical training of young men for the military service. Its cadets are given a comprehensive and general education of collegiate grade and a sufficient basic military education and training to enable them to pursue their careers as officers of the Army.

2. Direction and supervision of the Military Academy are vested by law in the War Department under such officer or officers as the Secretary of War may select, and, in accordance with this provision, the Chief of Staff has been designated as the officer in charge of all matters pertaining to the institution.

HOW TO ENTER THE MILITARY ACADEMY

3. The candidate for a cadetship, who must never have been married and who will at the time of his proposed entrance come within the prescribed age limits and be a citizen of the United States, should follow the steps outlined below. He must first obtain an appointment to a vacancy, existing or prospective. He must then demonstrate that he measures up to certain physical and educational standards. His physical fitness is determined by examination; his educational qualifications may be shown by regular mental examination or by the submission of certain prescribed certificates with validating examination, or, in certain special cases, by certificate without mental examination. (See pars. 23 and 24.) If he be accepted, he reports at the academy on the first weekday in July and, prior to admission, he is required to take the oath of allegiance and to subscribe to an engagement to serve the United States for a time subsequent to his graduation. (See par. 48.)

COURSE AS A CADET

4. Upon admission to the academy, he enters upon a 4-year course of study and training. The academic year extends from September 1 to June 4, the greater part of the remainder of the year being spent in camp and devoted to military training. At the end of his second year at the academy he is granted a furlough of about 10 weeks, which, with the exception of a few days during Christmas week of his second, third, and fourth years, is the only extended vacation which he receives. During the time that he remains a cadet, he is paid at the rate of \$1,053.75 per annum. Upon graduation he may be commissioned as a second lieutenant in one of the branches of the Army.

The points brought out briefly in the paragraphs above are explained in detail in the following pages.

STRENGTH OF THE CORPS OF CADETS

5. Under an act of Congress approved June 7, 1935, the Corps of Cadets shall hereafter consist of 1,960 cadets, appointed in number and from sources as follows:

6 from each State at large	288
3 from each congressional district	1,305
3 from each Territory (Hawaii and Alaska)	6
5 from the District of Columbia	5
3 from natives of Puerto Rico	3
1 from Panama Canal Zone	1
172 from the United States at large ¹	172
180 from among the enlisted men of the Regular Army and of the National Guard, in number as nearly equal as practicable	180
Total	1,960

¹ Of whom 3 are appointed upon the recommendation of the Vice President, 40 are selected from among the honor graduates of those educational institutions designated as "honor military schools," and 40 are chosen from among the sons of veterans who were killed in action or died prior to July 2, 1921, of wounds received or disease contracted in line of duty during the World War.

FILIPINO CADETS

6. In addition to the 1,960 mentioned above, the Secretary of War is authorized to permit not exceeding four Filipinos, to be designated one for each class by the President of the Commonwealth of the Philippine Islands, to receive instruction at the United States Military Academy: "Provided, That the Filipinos undergoing instruction * * * shall receive the same pay, allowances, and emoluments as are authorized by law for cadets at the Military Academy appointed from the United States, to be paid out of the same appropriations: And provided further, That said Filipinos undergoing instruction, on graduation shall be eligible only to commissions in the Philippine Scouts. And the provisions of section 1321, Revised Statutes, are modified in the case of the Filipinos undergoing instruction, so as to require them to engage to serve for eight years, unless sooner discharged, in the Philippine Scouts." *Act May 28, 1908 (35 Stat. 441.)*

The act of Congress approved June 11, 1938, making appropriations for the military establishment for the fiscal year ending June 30, 1939, contains a proviso which reads as follows: " * * * That no part of this or any other appropriation contained in this act shall be available for the pay of any person, civil or military, not a citizen of the United States, unless in the employ of the Government or in a pay status under appropriations carried in this act on July 1, 1937, * * *"

APPOINTMENTS. HOW MADE

7. The numbers mentioned above represent the maximum allowed at the Military Academy at any one time from the respective sources; consequently, no appointment can be made from any source except to fill a vacancy therefrom.

All appointments are made by the President and as follows:

From States at large and from congressional districts, upon the recommendations of the respective Senators and Representatives in Congress.

From the Territories, upon the recommendations of the respective Delegates in Congress.

From the District of Columbia, upon the recommendations of the commissioners thereof.

From Puerto Rico, upon the recommendation of the resident commissioner.

(Those cadets appointed from States at large, from congressional districts, from the Territories, from the District of Columbia, and from the island of Puerto Rico, must, under the law, be *actual residents* thereof, respectively.)

From among the sons of civilians residing in the Canal Zone and the sons of civilian personnel of the United States Government and the Panama Railroad Company residing in the Republic of Panama to be selected by the Governor of the Panama Canal Zone.

From among the honor graduates of educational institutions designated as "honor military schools," upon the recommendations of the heads of the respective schools.

From among the enlisted men of the National Guard of the States and Territories, and of the island of Puerto Rico, upon the recommendations of the respective governors thereof.

From among the enlisted men of the National Guard of the District of Columbia, upon the recommendation of the commanding general of the District Militia.

From among the enlisted men of the Regular Army, upon the recommendations of the commanding generals of the respective corps areas and territorial departments.

Appointments from the United States at large (excepting those from "honor military schools," those chosen from among the sons of deceased World War veterans, and those appointed upon the recommendation of the Vice President) are made by the President upon his own selection, and as the result of a competitive examination, identical in every respect with the regular entrance examination.

Only such candidates as are fully qualified may be nominated subsequently to the holding of the scheduled examinations, and no nomination for appointment will be accepted if received in the War Department later than midnight on June 30th, preceding the regular date of admission to the Military Academy on July 1st. Letters whose postoffice marks clearly show that they were placed in the mail prior to midnight of June 30th are held to meet the foregoing requirement.

SELECTION OF CANDIDATES

8. From States at large, congressional districts, and Territories.—The selection of candidates, by competitive examination or otherwise, for appointment from any State at large or congressional district, is entirely in the hands of the

Senator or Representative in Congress who has the vacancy at his disposal, and all applications for appointment from those sources should be addressed to the proper Senator or Representative.

For each vacancy from a State at large or congressional or Territorial district, three candidates should be nominated, one to be named as *principal*, one as *first alternate*, and one as *second alternate*. The first alternate, if qualified, will be admitted in the event of the failure of the principal; the second alternate, if qualified, will be admitted in the event of the failure of both the principal and the first alternate.

These candidates must, at date of admission, be between the ages of 17 and 22 years.

9. From "honor military schools."—*Honor graduates* of "honor military schools" are selected for appointment as cadets of the United States Military Academy in the following manner:

There is maintained in the office of The Adjutant General a roster of "honor military schools" as determined by annual War Department inspections of educational institutions. At an early date in each year The Adjutant General will anticipate the vacancies in the Corps of Cadets which are open to *honor graduates* and will make an equitable distribution of those vacancies amongst the "honor military schools" and notify them accordingly. Each designated institution will at a specified time notify The Adjutant General of the names of the selected honor graduates, designating them as principal, first alternate, and second alternate. In considering graduates for this designation the institution is not limited to those graduating during the current year.

An honor graduate, designated as principal, of a selected institution will be appointed a cadet of the United States Military Academy upon the certificate of the head of the institution that the appointee is an honor graduate of that institution of a year for which the institution was designated an honor military school. No student will be rated as honor graduate unless he has in his school work shown proficiency in subjects amounting to not less than the 15 units prescribed by the regulations for admission to the United States Military Academy. A certificate (form II) will be forwarded to the Adjutant, United States Military Academy, West Point, N. Y., when the appointment is made. In the event that the honor graduate designated as principal does not accept the appointment or fails to qualify for admission, the first alternate will, if qualified, be appointed; and in the event that neither the principal nor the first alternate qualifies, the second alternate will, if qualified, be appointed.

These candidates must at date of admission be between the ages of 17 and 22 years.

All honor graduates are appointed subject to the same tests for mental and physical qualifications as are required of other candidates. (See pars. 23 and 24.)

10. From among sons of deceased World War veterans.—An act of Congress approved June 8, 1926, authorized 40 cadets to be appointed by the President from among the sons of officers, soldiers, sailors, and marines of the Army, Navy, and Marine Corps of the United States who were killed in action or died prior to July 2, 1921, of wounds or injuries received, or disease contracted in line of duty during the World War; one-half to be appointed from among the sons of officers and one-half from among the sons of warrant officers, soldiers, sailors, and marines.

Candidates appointed under this act must be between the ages of 17 and 22 years and meet the usual physical requirements, and will be required to undergo the regular entrance examination competitively, the vacancies available from this source being awarded to those physically qualified competitors who make the highest proficient ratings in the order of merit established by the examination mentioned. There is no restriction as to residence in the case of these appointees.

No form is prescribed for making application, which should be by letter addressed to The Adjutant General, showing the full name, date of birth, and address of the applicant, and the name, grade, and organization of his father, together with a brief statement showing the time and cause of his death. If the father of the applicant was an enlisted man, his serial number should also be given.

11. From the National Guard.—To be eligible for appointment from the National Guard, an applicant must be an enlisted man in an active or inactive status, of a unit recognized by the Federal Government and must, at date of admission, be a member of the National Guard and between the ages of 19 and 22 years, and have served as an enlisted man in an active status in the National Guard not less than 1 year. It is not essential that the service shall have been continuous; therefore, former service in the Guard may be counted in determining

an applicant's eligibility. Similarly, service with a National Guard organization prior to its recognition by the Federal Government may be considered, the date of enlistment of the soldier governing, and not that of the recognition of the unit. Those applicants who contemplate enlisting in the National Guard for the purpose of being appointed to the Military Academy should do so early enough to enable them to acquire the year of service by the date of admission in the year during which they desire to enter.

For vacancies in the cadetships allotted to enlisted men of the National Guard, the candidates, not exceeding three for each vacancy, will be apportioned, in number as nearly equal as practicable, among the States, the Territories, the District of Columbia, and the island of Puerto Rico, according to their enlisted strength. With the exception of the candidates from the District of Columbia they will be selected by the governors from successful competitors in a *PRELIMINARY EXAMINATION* to be held between August 1 and November 15 of each year, such examination to be of a scope and nature similar to the regular examination for entrance to the United States Military Academy. The candidates from the National Guard of the District of Columbia will be similarly selected by the commanding general of the District of Columbia Militia.

Each candidate thus selected will be authorized by the War Department to report for the regular Military Academy entrance examination, which he must undergo in competition with the entire number of National Guard candidates, the available vacancies being awarded to those physically qualified candidates making the highest proficient averages in the order of merit established at the last-mentioned examination, irrespective of the State, Territory, or District to which their organizations may belong. The selection being made throughout by competition, alternates cannot be considered under any circumstances. (See par. 14.)

12. From the Regular Army.—To be eligible for appointment from the Regular Army, an applicant must be an enlisted man thereof, and must, at date of admission, be between the ages of 19 and 22 years, and have served as an enlisted man in the Army not less than 1 year. It is not essential that the service shall have been continuous; therefore, prior Army service may be counted in determining a soldier's eligibility. Those applicants who contemplate enlisting in the Army for the purpose of being appointed to the Military Academy should do so early enough to enable them to acquire the year of service by the date of admission in the year during which they desire to enter.

The candidates nominated for cadetships allotted to the enlisted men of the Regular Army shall not exceed three times the number of existing vacancies and shall be equitably distributed among the corps areas and territorial departments by the War Department. If the number of applicants in any corps area or department exceeds the share allotted to it by the War Department, the candidates in such corps area or department will be chosen from the successful competitors in a *PRELIMINARY EXAMINATION* to be held in the several corps areas and territorial departments between December 1 and December 15, except that in the Philippine Department it is held between November 1 and November 15, such examination to be of a scope and nature similar to the regular examination for entrance to the United States Military Academy.

Each such candidate will be authorized to report for the regular Military Academy entrance examination, which he must undergo in competition with the entire number of Army candidates, the available vacancies being awarded to those physically qualified competitors making the highest proficient averages, in the order of merit established at the last-mentioned examination, without regard to the corps area or territorial department from which designated. The selection being made throughout by competition, alternates cannot be considered under any circumstances. (See par. 14.)

EDUCATIONAL QUALIFICATIONS. HOW SHOWN

13. There are three methods of meeting the educational requirements for admission to the Military Academy, viz:

- a. By successfully passing the regular entrance examination, or,
- b. By submitting a satisfactory educational certificate (secondary school) to be validated by special examination, or,
- c. By submitting an educational certificate which does not need a validating examination. (See pars. 23 and 24.)

ENTRANCE EXAMINATION, WHEN HELD

14. The regular Military Academy entrance examination and the examination for validating certain classes of certificates are held beginning on the first Tuesday in March each year. Each candidate designated to take one of these examinations will receive from the War Department a letter of appointment, and he must appear for examination at the time and place designated therein before a board of Army officers convened by the War Department. Enlisted men appointed from the Regular Army also receive authority from the War Department to report for examination, and must report at the time and place specified. No other regular mental examination is held during the year. The failure of candidates holding noncompetitive appointments to appear for examination unless prevented by sickness of other unavoidable cause shall vacate the appointment; the failure of candidates holding competitive appointments to report for examination for any cause shall vacate the appointment.

A second validating examination is held on June 21 at West Point, N. Y., but is only for emergency vacancies which remain unfilled or occur after the March examination. Candidates appointed to such emergency vacancies must qualify by certificate or by certificate supplemented by the validating examination mentioned above.

ENTRANCE EXAMINATION, WHERE HELD

15. The board before which a candidate is directed to appear will be the one convened at the place nearest or most convenient to his home or to the school at which he is in regular attendance.

Following is a list of the places at which the examination is held:

Army Building, 39 Whitehall Street, New York, N. Y.	Fort Leavenworth, Kans.
Army and Navy General Hospital, Hot Springs National Park, Ark.	Letterman General Hospital, Presidio of San Francisco, Calif.
Army Medical Center, Washington, D. C.	Fitzsimons General Hospital, Denver, Colo.
Army Base, Boston, Mass.	Fort Lewis, Wash.
William Beaumont General Hospital, El Paso, Tex.	Fort McPherson, Ga.
Canal Zone (such place as the com- manding general, Panama Canal Department, may designate).	Fort Missoula, Mont.
Chilkoot Barracks, Alaska.	Fort Omaha, Nebr.
Fort Douglas, Salt Lake City, Utah.	United States Army Supply Base, New Orleans, La.
Fort Benjamin Harrison, Ind.	San Juan, P. R.
Fort Sam Houston, Tex.	Fort Sheridan, Ill.
Jefferson Barracks, Mo.	Fort Sill, Okla.
	Fort Snelling, Minn.
	Schofield Barracks, Honolulu, Hawaii.
	Fort Wm. McKinley, P. I.

SCHEDULE OF MENTAL EXAMINATIONS

16. Schedule of examinations is as follows:

REGULAR EXAMINATION

First day.—Report and instructions, 9 a. m. to 11 a. m., 2 hours. History, 1:30 p. m. to 5:30 p. m., 4 hours.

Second day.—Algebra, 9 a. m. to 1 p. m., 4 hours. English grammar, composition, and literature, 2:30 p. m. to 5:30 p. m., 3 hours.

Third day.—Geometry, 9 a. m. to 1 p. m., 4 hours.

(For a more complete description of the examination and for sample questions, see appendix A, p. 27.)

VALIDATING EXAMINATION

First day.—Report and instructions, 9 a. m. to 11 a. m., 2 hours. English grammar, composition, and literature, 2 p. m. to 4 p. m., 2 hours.

Second day.—Mathematics (algebra and plane geometry), 9:30 a. m. to 12:30 p. m., 3 hours.

(For a more complete description of the examination and for sample questions, see appendix B, p. 60.)

ADMISSION BY REGULAR MENTAL EXAMINATION. (SEE PAR. 13a)

17. All candidates take the regular mental examination who cannot qualify under paragraph 23 or paragraph 24 below.

Inasmuch as candidates from the United States at large, the Regular Army, and the National Guard are appointed to vacancies in the order of merit competitively established as a result of the regular mental entrance examination, such candidates are not permitted to submit educational certificates in lieu of that examination, and therefore cannot qualify under paragraph 23 or 24 below.

18. **Algebra.**—Candidates will be required to pass a satisfactory examination in that portion of algebra which includes the following range of subjects: Definitions and notations; the fundamental laws; the fundamental operations, viz: Addition, subtraction, multiplication, and division; factoring; highest common factor; lowest common multiple; fractions, simple and complex; simple or linear equations with one unknown quantity; simultaneous simple or linear equations with two or more unknown quantities; graphical representation and solution of linear equations with two unknowns; involution, including the formation of the squares and cubes of polynomials; binomial theorem with positive integral exponents; evolution, including the extraction of the square and cube roots of polynomials and of numbers; theory of exponents; radicals, including reduction and fundamental operations, rationalization, equations involving radicals; quadratic equations; equations of quadratic form; simultaneous quadratic equations; ratio and proportion; arithmetical and geometrical progressions. Candidates will be required to solve problems involving any of the principles or methods contained in the foregoing subjects.

Sets of questions used at recent examinations will be found in appendix A, page 27.

19. **Plane geometry.**—Candidates will be required to give accurate definitions of the terms used in *plane geometry*, to demonstrate any proposition of plane geometry as given in the ordinary textbooks, and to solve simple geometrical problems, either by a construction or by an application of algebra.

Sets of questions used at recent examinations will be found in appendix A, page 30.

20. **English grammar.**—Candidates must have a good knowledge of *English grammar*; they must be able to define the terms used therein; to define the parts of speech; to give inflections, including declension, conjugation, and comparison; to give the corresponding masculine and feminine gender nouns; to give and apply the ordinary rules of syntax.

They must be able to parse correctly any ordinary sentence, giving the subject of each verb, the governing word of each objective case, the word for which each pronoun stands or to which it refers, the words between which each preposition shows the relation, precisely what each conjunction and each relative pronoun connects, what each adjective and adverb qualifies or limits, the construction of each infinitive, and generally to show a good knowledge of the function of each word in the sentence.

They must be able to correct in sentences or extracts any ordinary errors of grammar.

It is not required that any particular textbook shall be followed; but the definitions, parsing, and corrections must be in accordance with good usage and common sense.

Sets of questions used at recent examinations will be found in appendix A, page 33. These tests and those on English composition and English literature, page 40, have been combined in one 3-hour test on English grammar, composition, and literature, page 46.

21. **English composition and English literature.**—Candidates will be required:

1. By the writing of short themes on subjects chosen by themselves within the limits set by the examination paper, to prove (a) their ability to spell, capitalize, and punctuate, and (b) their mastery of the elementary principles of composition, including paragraphing and sentence structure.

2. To give evidence of intelligent acquaintance with the plays of Shakespeare which are most commonly used in preparatory and high schools.

3. To exhibit a fair knowledge of the history of English and American literature and of the names and lives of most prominent authors and of the names of their principal works.

Sets of questions used at recent examinations will be found in appendix A, page 40. These tests and those on English grammar, page 33, have been combined in one 3-hour test on English grammar, composition, and literature, page 46.

22. **History.**—Candidates will be required to pass a satisfactory examination in (a) United States history and (b) ancient history.

The examination in United States history will cover: Early discovery and settlements; the forms of government in the Colonies; the birth and development of a constitutional form of government; the causes, leading events, and results of wars; important events in the political and economic history of the Nation from its foundation to and including the national election of 1932; the location of places, areas, boundaries, and routes of outstanding historical significance.

The examination in ancient history will cover the period 750 B. C. to 814 A. D., emphasizing the rise, development, and decline of Greek and Roman civilization. It will also include the history of Mediterranean states in the period specified, and the development of western Europe after the break-up of the Roman Empire. The location of places, areas, boundaries, and routes of outstanding historical importance will be required.

Sets of questions used at recent examinations will be found in appendix A, page 50.

ADMISSION BY CERTIFICATE AND VALIDATING EXAMINATIONS. (SEE PAR. 13b)

23. The academic board will consider and may accept in lieu of the regular mental entrance examination a certificate² with validating examination in the following cases. (For alternate method of validating secondary school certificates, see par. 24 (4).)

(1) A properly attested certificate (form II) that the candidate has graduated from a preparatory school or public high school accredited by the United States Military Academy, provided that in his school work he has shown proficiency in subjects amounting to not less than 15 units of the list given below in paragraph 26.

Of the 15 units, 2³ must be in algebra, 1 in plane geometry, 1½ in English grammar and composition, 1½ in English literature, and 2 in history. The remaining 7 units must be chosen from the list of optional subjects, but cannot include commercial or other subjects not included in the list.

(2) A properly attested certificate (form II) that the candidate is in actual attendance in his senior year at a preparatory school or public high school accredited by the United States Military Academy, and has satisfactorily completed three and one-half years' work at such school, provided that the certificate shows specifically by subjects and units the work already completed and also that to be completed by graduation, and provided that the course the candidate is pursuing will, when completed, show proficiency in subjects amounting to not less than 15 units listed in (1) above.

A candidate submitting a certificate showing actual attendance at, and prospective graduation from, a preparatory or public high school must as a condition of admission continue his course of study and submit his diploma or other formal evidence of graduation at the time of entrance to the United States Military Academy. Failure to submit such evidence of graduation will disqualify the candidate for entrance.

The validating examination, required with all secondary school certificates (form II) except those accepted unconditionally under paragraph 24 (4), includes the subjects of mathematics (A and C) and English (A and B). This validating examination is not identical with the regular mental entrance examination. It will be of such a nature as to determine the knowledge of a candidate, but not so difficult as to require for the desirable student an intensive special preparation.

A candidate whose certificate (form II) has been rejected must take the regular mental entrance examination.

Examples of validating examinations will be found in appendix B, page 60. These are not tests which have been given in the past but samples of the type of validating examination.

ADMISSION BY CERTIFICATE. (SEE PAR. 13c)

24. The academic board will consider and may accept without other mental requirement:

(1) A properly attested college certificate (form I) that the candidate is a regularly enrolled student in good standing without condition in a university, college, or technical school accredited by the United States Military Academy, provided that the entrance requirements of the course he is pursuing require

² For lists of subjects and weights on certificates see par. 26.

³ Candidates from schools so organized as to offer only 1½ years of algebra must clearly show completion of all subject matter in paragraph 27 in order to receive credit of 2 units in that subject.

proficiency in subjects amounting to not less than the 15 units listed in paragraph 23 (1).

A full record of academic work at the college, giving subjects taken and grades attained in each, must be submitted on Form 1.

If the college certificate covers less than one full year's work in college, it must be accompanied by a Form II certificate covering work in secondary school, and the two certificates will be considered together in determining the candidate's mental qualifications.

(2) A properly attested certificate (form III) from the College Entrance Examination Board that the candidate has shown proficiency in the examinations set by the board in subjects amounting to the 15 units listed in paragraph 23 (1).

(3) A properly attested certificate (form III) from the College Entrance Examination Board that the candidate has shown proficiency in the examinations set by the board in the 8 required units from the list given below, and a properly attested certificate (form II) from a preparatory or public high school accredited by the United States Military Academy showing proficiency in 7 units of the optional subjects given hereafter. A College Entrance Examination Board certificate that does not cover all of the 8 required units will not be considered.

(4) A secondary school certificate (form II) as described in paragraph 23 (1) and (2) supplemented by a report from the College Entrance Examination Board that the candidate has taken its Scholastic Aptitude Test and Mathematics Attainment Test⁴ (Beta Section), provided the grades earned on these tests are satisfactory. In case the candidate has graduated from secondary school prior to the date set for the validating examination (March or June), the Scholastic Aptitude Test and Mathematics Attainment Test⁴ (Beta Section) must also have been taken and reported upon prior to that date. In case the candidate is in actual attendance in his senior year at a secondary school at the time set for the validating examination in March and has not yet taken these tests, he may decline to take the validating examination, electing instead to undergo the Scholastic Aptitude Test and Mathematics Attainment Test⁴ (Beta Section) to be given by the College Entrance Examination Board in April of the same year. This privilege of electing to substitute the Scholastic Aptitude and Mathematics Attainment Tests⁴ to be taken later is allowed for the March Validating Examination only.

25. A candidate whose certificate has been rejected under paragraph 24 will be required to take the regular entrance examination except in cases where the academic board approves his credits under paragraph 23 for admission subject to the validating examination.

The academic board may reject any certificate (forms I, II, or III) for low grades or upon any evidence, whether contained in the certificate or not, which creates a reasonable doubt as to the candidate's mental qualifications for admission.

A candidate whose certificate has been accepted unconditionally under paragraph 24 is excused from the mental examination but must appear for the physical examination.

A candidate whose certificate is approved under paragraph 24 (4) subject to later passing of the College Entrance Examination Board's Scholastic Aptitude and Mathematics Attainment Tests⁴ is accepted as mentally qualified for admission if his record in these tests proves satisfactory. He is rejected as mentally unqualified if it proves unsatisfactory.

26. Subjects and credits.—The list of subjects and of the corresponding weights in units is as follows:

(a) REQUIRED

Every certificate must show evidence of proficiency in the following subjects:

	Units		Units
Mathematics, A-----	2	History, A)	
Mathematics, C-----	1	History, B	
English, A-----	1½	History, C	Any 2-----
English, B-----	1½	History, D)	2

⁴ In cases where the Scholastic Aptitude Test taken includes a mathematical section the Mathematics Attainment Test is not required.

(b) OPTIONAL

The remaining 7 units may be supplied from among the following subjects and no others:

DEFINITION OF CERTAIN SUBJECTS IN THE ABOVE LIST

27. MATHEMATICS, A, ALGEBRA, TWO UNITS

The meaning, use, evaluation, and necessary transformations of simple formulas involving ideas with which the pupil is familiar, and the derivation of such formulas from rules expressed in words.

The graph, and graphical representation in general. The construction and interpretation of graphs.

Negative numbers; their meaning and use.

Linear equations in one unknown quantity, and simultaneous linear equations involving two unknown quantities, with verification of results. Problems.

Ratio, as a case of simple fractions; proportion, as a case of an equation between two ratios; variation. Problems.

The essentials of algebraic technique.

Exponents and radicals; simple cases.

Numerical trigonometry.

Numerical and literal quadratic equations in one unknown quantity. Problems.

The binomial theorem for positive integral exponents, with applications.

Arithmetic and geometric series.

Simultaneous linear equations in three unknown quantities.

Simultaneous equations, consisting of one quadratic and one linear equation, or of two quadratic equations of certain types. Graphs.

Exponents and radicals.

Logarithms.

28. MATHEMATICS, B, ALGEBRA, ADVANCED, ONE-HALF UNIT

Theory of equations.

Determinants.

Complex numbers (numerical and geometric treatment), simultaneous quadratics, scales of notation, mathematical induction, permutations and combinations, and probability.

29. MATHEMATICS, C, PLANE GEOMETRY, ONE UNIT

The usual theorems and constructions of good textbooks, including the general properties of plane rectilinear figures; the circle and the measurement of angles; similar polygons; areas; regular polygons and the measurement of the circle.

The solution of numerous original exercises, including loci problems.
Applications to the mensuration of lines and plane surfaces.

30. MATHEMATICS, D, SOLID GEOMETRY, ONE-HALF UNIT

The usual theorems and constructions of good textbooks, including the relations of planes and lines in space; the properties and measurement of prisms, pyramids, cylinders, and cones; the sphere and the spherical triangle.

The solution of numerous original exercises, including loci problems.
Applications to the mensuration of surfaces and solids.

31. MATHEMATICS, E, TRIGONOMETRY, ONE-HALF UNIT

Definition of the six trigonometric functions of angles of any magnitude, as ratios. The computation of five of these ratios from any given one. Functions of 0, 30, 45, 60, and 90, and of angles differing from these by multiples of 90.

Determination, by means of a diagram, of such functions as $\sin(A=90)$ in terms of the trigonometric functions of A.

Circular measure of angles; length of an arc in terms of the central angle in radians.

Proofs of the fundamental formulas, and of simple identities derived from them.
Solution of simple trigonometric equations.

Theory and use of logarithms, without the introduction of work involving infinite series. Use of trigonometric tables, with interpolation.

Derivation of the Law of Sines and the Law of Cosines.

Solution of right and oblique triangles (both with and without logarithms) with special reference to the applications.

32. ENGLISH, A, GRAMMAR AND COMPOSITION, ONE AND ONE-HALF UNITS

The principles of English grammar.

The rules of English composition.

Proficiency in spelling, punctuation, grammar, and composition acquired by repeated oral and written exercises.

33. ENGLISH, B, LITERATURE, ONE AND ONE-HALF UNITS

The study of selected masterpieces in English and American literature.

Familiarity with the nature and characteristics of the different literary forms, as the essay, the novel, and biography in prose, the lyric and the epic in poetry, and the comedy and the tragedy in drama.

Knowledge of the history and development of English and American literature, including acquaintance with the chief periods, as the Elizabethan, the Puritan, the Restoration, and the Victorian, with the leading writers of such periods and with the most important works of each writer.

34. HISTORY, A, ANCIENT HISTORY, ONE UNIT

History down to the death of Charlemagne (814 A. D.) with special reference to Greek and Roman history, and with a short introductory study of the more ancient nations.

35. HISTORY, B, EUROPEAN HISTORY, ONE UNIT

History from the fall of Rome to the present time.

36. HISTORY, C, ENGLISH HISTORY, ONE UNIT

History of England, emphasizing the important epochs and the greater movements and showing the relations of English history to the history of other countries, especially the United States.

**37. HISTORY, D, AMERICAN HISTORY, WITH OR WITHOUT CIVIL GOVERNMENT,
ONE UNIT**

The history of the United States and, if civil government is included, a study of the United States Constitution, of the Federal Government, with its powers, organization, and operation, and of the relations between the Federal and the State Governments.

DEFINITION OF A UNIT OF ADMISSION REQUIREMENTS

38. A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work. A 4-year secondary school curriculum should be regarded as representing not more than 16 units of work.

This statement is designed to afford a standard of measurement for the work done in secondary schools. It takes the 4-year high-school course as a basis, and assumes that the length of the school year is from 36 to 40 weeks, that a period is from 40 to 60 minutes in length, and that the study is pursued for 4 or 5 periods a week; but under ordinary circumstances a satisfactory year's work in any subject cannot be accomplished in less than one hundred and twenty 60-minute hours or their equivalent.

GENERAL INFORMATION AS TO CERTIFICATES

39. All necessary papers, *including a set of blank certificate forms* (except form III, which is sent only upon application), are furnished by The Adjutant General to each duly nominated candidate (except where competition is specified) with his letter of appointment.

Any candidate who contemplates submitting a certificate shall, immediately upon receiving his appointment, forward to the Adjutant, United States Military Academy, West Point, N. Y., the names and addresses of all educational institutions from which he expects to obtain certificates, in order that information as to the status of those institutions may be procured before the arrival of the certificates.

Certificates should be submitted not later than February 15. A certificate received between February 15 and the examination will receive consideration, but, in view of the short time left to the academic board to investigate its value, no assurance will be given that such certificate can be acted on in time to exempt the candidate from the regular mental examination. Certificates received at West Point too late for full investigation and appraisal before 9 a. m. on the first Tuesday in March of each year will be returned to the candidates concerned without action.

Candidates who submit certificates on a date which does not allow the academic board sufficient time to investigate their value and notify them regarding the final action thereon prior to the day set for the examination should proceed with the regular examination.

Candidates who are informed that their certificates have been accepted, either provisionally or unconditionally, must present themselves at the regular time and place, as herein prescribed, for physical examination and, if required, for the validating examination.

A candidate submitting a secondary school certificate who has taken the College Entrance Examination Board's Scholastic Aptitude Test and Mathematics Attainment Test (Beta Section), or the Scholastic Aptitude Test alone if it included a mathematical section, should have his record in these tests forwarded to the Adjutant, West Point, N. Y., at the same time as his school certificate. He should state on the latter that this is being done.

A candidate in his last year in secondary school who elects not to take the validating examination in March but to depend for validation of his certificate upon the Scholastic Aptitude Test of April of the same year should include a statement to that effect when submitting his educational certificate. The latter should be submitted as in the general case, when the blank form is received from The Adjutant General.

A candidate whose certificate qualifications have been approved, provided he completes his regular high-school or preparatory-school course with good grades, and graduates, must bring with him, and present on the day he reports for admission, his diploma or certificate of graduation, together with a certified statement of the grades attained in his academic work, in order that the academic board of the Military Academy may determine whether or not these provisions have been fulfilled. If approval of his certificate was also subject to passing the

College Entrance Examination Board's Scholastic Aptitude and Mathematics Attainment Tests at a later date, he should have a report of his record on these tests sent to the Adjutant, West Point, N. Y., as soon as the marks are available. The foregoing does not apply to a candidate whose certificate has been approved *unconditionally*.

A candidate who has once satisfactorily fulfilled all the mental requirements for entrance will be regarded as qualified at any subsequent opportunity which may arise for entrance with the same class.

A certificate which is accepted as satisfactory for one examination will be regarded as satisfactory for any other examination which may be set for entrance with the same class, unless it has been voided in the meantime by failure in the validating examination, in which event it will be reconsidered in connection with the results of the examination, should the candidate be reappointed with a view to admission the same year.

Any certificate accepted for entrance with one class is not valid for entrance with a succeeding class unless reapproved. It must be resubmitted, accompanied by a full statement of the candidate's educational work in the interim, and both certificate and statement will be subject to careful scrutiny by the academic board.

A candidate, not an ex-cadet, who has once been declared mentally qualified for entrance upon written examination, either regular or validating, need not undergo a second mental examination in case of any subsequent appointment unless the requirements for entrance have been changed in the meanwhile. A candidate reported not qualified mentally in one or more subjects on one examination will be required to qualify in all subjects at any subsequent examination.

Information on the Scholastic Aptitude Test and the Mathematics Attainment Test mentioned in this pamphlet may be obtained from the College Entrance Examination Board, 431 West 117th Street, New York, N. Y.

Inasmuch as candidates from the United States at large, the Regular Army, and the National Guard are appointed to vacancies in the order of merit competitively established as a result of the regular entrance examination, such candidates are not permitted to submit educational certificates in lieu of the regular examination.

REQUIREMENTS AS TO AGE, HEIGHT, AND PHYSICAL CONDITION

40. Candidates are eligible for admission from the day they are 17 (or 19 if from the Regular Army or from the National Guard) until the day they become 22 years of age, on which latter day they are not eligible. The age requirements for all candidates as well as the service requirements for appointment from the Army and from the National Guard are statutory and cannot be waived.

No candidate shall be admitted who is less than 5 feet 4 inches in height, or who is deformed or afflicted with any disease or infirmity which would render him unfit for the military service, or who has, at the time of presenting himself, any communicable disease.

Candidates must never have been married.

Each candidate must, on reporting at West Point, present a certificate showing successful vaccination within 1 year; or a certificate of two vaccinations, made at least a month apart, within 3 months.

PRELIMINARY PHYSICAL EXAMINATION

41. Each candidate designated as principal or alternate for appointment as a cadet of the Military Academy should ascertain as soon as practicable whether or not he has any physical defect that would disqualify him for admission or any that should be corrected by treatment before presenting himself for examination. For this purpose he should immediately cause himself to be examined by a physician, preferably a medical officer of the Regular Army. The preliminary physical examination is of great importance to the candidate, as it should enable him to determine if he has any physical defect which might subsequently prevent his appointment.

The presentation by an appointee of his letter of conditional appointment with a request for physical examination, or the presentation by a prospective appointee of a letter signed by a Member of Congress stating that the bearer is a candidate for cadet appointment and requesting that he be physically examined, will be sufficient authority for an Army surgeon at any military post to make the desired physical examination. The Army surgeon making the physical examination will inform the candidate, upon the presentation of proper credentials,

but before proceeding with the examination, that the examination is advisory only, has no official status, and that defects not found in this examination may develop prior to the regular examination, or then be discovered. After completion of this examination the Army surgeon will inform the candidate of the result and, in case a disability be found, whether such disability is believed to be permanent and disqualifying for military service or is believed to be of a temporary or curable nature.

It should be clearly understood by the candidate that this examination is a preliminary one only and *in no way commits or obligates the War Department to accept a candidate who is found by the regular medical examining board to have a physical defect which is considered by the board or by The Surgeon General to be disqualifying.*

REGULAR PHYSICAL EXAMINATION

42. The physical examination of a candidate begins after the conclusion of his last mental examination, and is continued daily until completed, but those candidates who upon reporting at the place of examination present evidence⁵ that they have been excused from the mental examination under the provisions of the certificate privilege, or as the result of having qualified mentally at a previous examination, are usually examined physically as soon as possible after reporting and are not required to wait until the schedule of mental examinations has been completed.

PHYSICAL REQUIREMENTS

43. a. Hearing must be normal (20/20) in each ear for the whispered voice and the ears must be free from acute or chronic disease. The following-named conditions are causes for rejection: The total loss of an ear, marked hypertrophy or atrophy, or disfiguring deformity of the organ; atresia of the external auditory canal, or tumors of this part; acute or chronic suppurative otitis media, or chronic catarrhal otitis media; mastoiditis, acute or chronic; existing perforation of the membrana tympani from any cause whatever.

b. Vision as determined by the visual test types (without a cycloplegic) must not fall below 20/20 in either eye without glasses. Both eyes must be free from acute or chronic disease. Errors of refraction, if considered excessive, may be a cause for rejection even though the visual acuity falls within acceptable limits. Total hyperopia of more than two diopters in any meridian in either eye is cause for rejection.

The following-named conditions are also cause for rejection: Manifest disturbance of muscle balance; esophoria of more than 10 prism diopters, exophoria of more than 5 prism diopters, or hyperphoria of more than 1 prism diopter; impairment of the sense of color perception in a pronounced degree; trachoma, or xerophthalmia; chronic conjunctivitis; pterygium encroaching upon the cornea; complete or extensive destruction of the eyelids, disfiguring cicatrices, adhesions of the lids to each other or to the eyeball; inversion or eversion of the eyelids, or lagophthalmus; trichiasis, ptosis, blepharospasm, or chronic blepharitis; epiphora, chronic dacryocystitis, or lachrymal fistula; chronic keratitis, ulcers of the cornea, staphylooma, or corneal opacities encroaching on the pupillary area and reducing the acuity of vision below the standard noted above; irregularities in the form of the iris, or anterior or posterior synechia sufficient to reduce the visual acuity below the standard; opacities of the lens or its capsule, sufficient to reduce the acuity of vision below the standard, or progressive cataract of any degree; extensive coloboma of the choroid or iris, absence of pigment, glaucoma, iritis, or extensive or progressive choroiditis, retinitis, detachment of the retina, neuroretinitis, optic neuritis, or atrophy of the optic nerve; loss or disorganization of either eye, or pronounced exophthalmus, pronounced nystagmus; or permanent or well-marked strabismus; diplopia, or night blindness; abnormal conditions of the eyes due to disease of the brain; malignant tumors of lids or eyeballs; asthenopia accompanying any ocular defect.

c. Teeth.—No candidate will be accepted unless he has a minimum of 6 serviceable vital masticating teeth (bicuspids and molars) above and 6 below serviceably opposing and also 4 serviceable vital incisor teeth (incisors and cuspids) above and 4 below serviceably opposing. Therefore, the minimum requirement consists of a total of 12 masticating teeth and 8 incisor teeth, all of which must be so opposed as to serve the purpose of incision and mastication.

⁵ The evidence must be in the form of an official communication from the War Department and must specify exemption from the mental examination of the current year.

Vital teeth properly filled with permanent filling material, or well crowned, will be considered serviceable if otherwise acceptable. A single tooth replacement by a standard method of bridgework will be accepted in lieu of a serviceable vital tooth when the abutment teeth are otherwise acceptable and the bridge well constructed.

A tooth will not be considered serviceable if it fails to enter into serviceable occlusion with an opposing tooth, if it has an unfilled cavity, if it supports a defective filling or crown, if it is nonvital, or if there is destruction of the supporting tissues of the tooth, such as results from chronic gingivitis, pyorrhea, etc.

Causes for rejection are: Failure to meet the standard of minimum requirements outlined above; the loss of three adjoining masticating teeth in either side of the upper or lower jaw; disfiguring spaces between anterior teeth, such as result from the extraction of a tooth; marked irregularity of the teeth; and marked malocclusion. No candidate will be accepted until all cavities in the teeth have been filled with proper permanent fillings.

(For additional causes for physical disqualification see appendix C.)

44. MINIMUM STANDARDS OF PHYSICAL PROPORTIONS FOR HEIGHT, WEIGHT, AND CHEST MEASUREMENT FOR ALL CANDIDATES EXCEPT FILIPINOS

The requirements of the following tables of physical proportions are minimum for growing youths and are for guidance in connection with the other data of the examination, a consideration of all of which will determine the candidate's physical eligibility. Mere fulfillment of the requirements of the standard tables does not determine eligibility.

The physical requirements should be those of the age at the birthday nearest the time of the examination. Fractions greater than one-half inch will be considered as an additional inch of height, but candidates must be at least 64 inches in height.

Weight in excess of the standard shown above may be waived if it is clearly shown that it is due to robust physique and that it does not constitute obesity or evidence of endocrine disorder.

If the weight of a candidate exceeds the standards shown for age and height the excess can be waived provided that it is manifestly due to heavy frame or healthy muscular development.

ADMISSION TO THE ACADEMY

46. **Date of admission.**—Candidates who fully conform to the requirements set forth in the preceding paragraphs, and who report in person to the superintendent on the first week day in July, before 12 m., shall be admitted as cadets to the United States Military Academy and shall receive their warrants of appointment as soon as practicable. Candidates are received beginning at 8 a. m., and it is to their advantage to report as soon as practicable after that hour. Facilities are not available for the housing and feeding of new cadets reporting before that time. The Military Academy operates on daylight-saving time beginning the last Sunday in April.

47. **No cadet to be married.**—No married person or person who has been married shall be admitted as a cadet; and if any cadet shall be married prior to graduation, such marriage shall be considered as equivalent to a resignation and he shall be required to leave the institution.

48. **Engagement to serve.**—Immediately after reporting to the superintendent for admission, and before receiving their warrants of appointment, candidates are required to sign, in the presence of the superintendent or of some officer deputed by him, engagements for service in the following form:

I, _____, of the State (or Territory) of _____, aged _____ years, _____ months, do hereby engage (with consent of my parent or guardian) that from the date of my admission as a cadet of the United States Military Academy I will serve in the Army of the United States for 8 years unless sooner discharged by competent authority.

In the presence of _____.

In the case of the Filipino cadets the engagement shall be made to serve in the Philippine Scouts. (See sec. 1321, R. S.)

49. **Oath of allegiance.**—Each cadet shall, previous to his admission to the academy, take and subscribe an oath or affirmation in the following form:

I, _____, do solemnly swear that I will support the Constitution of the United States and bear true allegiance to the National Government; that I will maintain and defend the sovereignty of the United States paramount to any and all allegiance, sovereignty, or fealty I may owe to any State, county, or country whatsoever; and that I will at all times obey the legal orders of my superior officers and the rules and articles governing the Armies of the United States (sec. 1320, R. S.).

Sworn to and subscribed at _____ this _____ day of _____, nineteen hundred and _____, before me.

DEPOSIT UPON ENTRANCE

50. Immediately after admission each candidate must be provided with an outfit of uniform, etc., the cost of which is about \$300. This sum must be deposited with the treasurer of the academy before the candidate is admitted. It is best for the candidate to take with him no more money than he needs for traveling expenses and for his parents to send the required deposit by draft, payable to the treasurer, United States Military Academy. The deposit is credited at once to the cadet's account. Upon graduation a cadet who has exercised proper economy will have sufficient money to his credit with the treasurer of the academy

to purchase his uniform and equipment as an officer. Cadets are allowed 5 cents a mile for traveling expenses from their homes to the Military Academy, as indicated in paragraph 51. This money is credited to their accounts after they have actually become cadets. This money usually is retained on the cadet's account to his credit, and his account is thereby in much better condition when he desires money for his first leave. If parents desire to be reimbursed for the money advanced their sons to make the trip to West Point, the mileage allowance may be sent to them, providing the cadet makes written request to the Superintendent of the Military Academy.

PAY OF CADETS

51. The pay of a cadet is \$780 per year and commutation of rations at 75 cents per day, to commence with his admission to the academy. The total is \$1,053.75.

Mileage, at 5 cents per mile, while proceeding from his home to the Military Academy, is credited to the account of each cadet after his admission to the academy, except when War Department orders directing him to proceed to the Military Academy are received at a place other than his home and nearer to the Military Academy; in such cases the account will be credited with mileage only from the place of receipt of orders to report to the Military Academy.

A cadet's initial deposit, together with his salary, is sufficient to meet his actual needs at the academy. It is not sufficient, however, to meet, in addition, the expenses of leaves of absence, especially if these involve considerable travel.

Obtaining money from outside sources is regarded with disfavor, unless it be for the purpose of liquidating indebtedness at the cadet store or of defraying the expenses of a leave of absence.

UNIFORM AND SUPPLIES

52. Cadets are required to wear the prescribed uniform. All articles of their uniform and equipment, including bedding, shoes, and underwear, are of a designated pattern, and are sold to cadets at West Point at regulated prices. It is not necessary for candidates to make special preparation for their stay at the academy, although there is no objection to their bringing with them such supplies of underwear, toilet accessories, etc., as they may have. Should a trunk be brought, it should be of the Army trunk locker type, 29 $\frac{1}{4}$ by 16 by 12 inches in size, and in good condition. If a candidate does not have such a trunk, he should wait until his arrival at the academy to procure one. Everything needed can be secured from the cadet store at West Point.

ACADEMIC DUTIES

53. There are two terms of academic instruction: September 1-December 23 and January 2-June 4. A semiannual examination is held December 26-31, and an annual examination June 5-12. At the December examination, cadets who are found to be proficient in subjects they have completed during the preceding term are arranged according to merit in each subject. At the June examination they are similarly arranged, and they are also assigned general standing in the class as determined by their standings in the various subjects. When a subject of study is completed during a term, an examination concluding the work in that subject is sometimes held. Cadets deficient in studies at any examination are discharged from the academy unless for special reasons the academic board recommends otherwise. Cadets exceeding at any time the maximum number of demerits allowed for 6 months are reported to the academic board as deficient in conduct.

The courses of instruction in the various departments are outlined on pages 18 to 25, inclusive.

PROGRAM OF INSTRUCTION AND COURSE OF STUDIES

Program of the course of instruction:

First term, September 1 to December 23; 95 periods with Saturday recitations and 80 periods without Saturday recitations.

Second term, January 2 to June 4; 130 periods with Saturday recitations and 109 periods without Saturday recitations.

Semiannual examination, December 26 to 31.

Annual examination, June 5 to 12.

Academic day, 7:55 a. m. to 11:55 a. m. and 1:00 p. m. to 3:00 p. m.

Military exercises, all classes, from 3:15 p. m. to 4:15 p. m.

Supervised athletics, from 3:15 p. m. to 4:25 p. m.

Voluntary study hour and additional instruction, 5:10 p. m. to 6:10 p. m.

DEPARTMENT OF TACTICS

54. **New cadets.**—New cadets report for duty at the Military Academy on the first week day in July. They are quartered separately from the Corps and are given intensive training in infantry recruit instruction, military courtesy, guard duty, and infantry weapons and a course of corrective and upbuilding physical training.

After approximately 3 weeks of the above training, the new cadets join the Corps in camp. The remainder of the first summer is devoted to basic training in the technique of infantry, scouting and patrolling, musketry, methods of study, swimming, dancing, hygiene, and customs of the service.

At the end of the first summer the fourth class (new cadets) is fully incorporated into the Corps. The military training during the remainder of the year carries on basic instruction in infantry weapons, combat principles of the squad, map reading, musketry, rifle marksmanship, field artillery, and customs of the service.

Third class.—The military training in the third class during the summer consists of firing all infantry weapons, including the rifle, the machine gun, the pistol, the 37-mm gun, the automatic rifle, and the 81-mm mortar. Instruction is given in the operation and functioning of the various types of field artillery and coast artillery matériel; basic principles of signal communication; field exercises involving the combat principles of the section and platoon; riding, swimming, and dancing. During the winter training period, instruction is continued in coast artillery and field artillery; combat principles of the infantry platoon, using the sand table; riding; customs of the service; and close-order infantry drill.

Second class.—The second class is absent during the summer. The remainder of the year is spent in preparing the class for their work the next summer. It consists in technique of fire of coast artillery and field artillery, coast artillery and field artillery matériel, field artillery in draft, riding, and minor tactics including combat principles of the smaller units of infantry, cavalry, communication units, field artillery, and coast artillery.

First class.—The first-class year is devoted primarily to developing qualities of command and leadership and to giving the cadet a general knowledge of the capabilities and limitations of the various arms in combat. During the summer, cadets participate in field exercises involving cavalry, field artillery, and coast artillery (antiaircraft). Instruction is given in subjects pertaining to Air Corps, field engineering, signal communication, and tactics to include the infantry company, the later instruction being carried out by a series of tactical walks and

terrain exercises. The summer instruction terminates with a maneuver involving infantry and field artillery. During the winter, instruction relating to administration, Air Corps, motor transportation, and tactics is given, including general lectures, conferences, and tactical problems.

All classes.—Instruction in swimming and dancing begins in the fourth-class year and continues for each cadet until he is declared proficient. Practical instruction in fencing, gymnastic exercises, boxing, wrestling, swimming, and all forms of athletics is given to all classes.

Instruction in equitation is given to the first, second, and third classes.

DEPARTMENT OF CIVIL AND MILITARY ENGINEERING

FIRST CLASS

55. *Civil engineering.*—This course extends throughout the year, attendance being on alternate days. The course covers the theory and design of structures (steel, wood, and concrete). Several periods are devoted to work in the department's concrete laboratory.

Textbooks: Theory of Simple Structures—Shedd and Vawter; Structural Design—Bishop; Design of Concrete Structures—Urquhart and O'Rourke.

Military history.—This course alternates with civil engineering throughout the fall term and until late in the spring term. A study is made of the following periods of military history: The great captains prior to Napoleon, Napoleon's Campaigns, the Civil War, and the World War.

Emphasis is placed upon the tactical and strategical lessons illustrated by the campaigns studied.

Textbooks: Great Captains—Dodge; Life of Napoleon—Jomini; American Campaigns—Steele; Military History of the World War—McEntee.

Military engineering.—This course follows military history and alternates with civil engineering. The subjects covered include military bridges, military roads, demolitions, field fortifications, permanent fortifications, construction in war, and camouflage.

Textbooks: Engineer Field Manual; pamphlets prepared by the department

DEPARTMENT OF NATURAL AND EXPERIMENTAL PHILOSOPHY

SECOND CLASS

56. The course in natural and experimental philosophy extends throughout the second-class year.

In all there are 225 recitation periods, each of 1 hour and 20 minutes' duration, 6 attendances per week. For laboratory work each period is of 1 hour and 55 minutes' duration. Approximately 30 laboratory experiments are performed during the year.

Analytical mechanics, thermodynamics and prime movers, hydraulics and hydraulic machinery, and aerodynamics and the airplane, in the order mentioned, are presented during the year.

The entire course, insofar as the subjects undertaken are concerned, in addition to its educational and training value, is intended as a thorough preparation for engineering and other technical subjects taught during the first-class year.

A brief statement of the courses given and the textbooks used follows:

Analytical mechanics for engineers.—The text used for this subject is Analytical Mechanics for Engineers, Seely and Ensign, second edition, latest printing. This subject is taken up at the beginning of the first term on September 1 and is completed at the end of that term on December 23. Maximum number of actual attendances, approximately 95. The entire text is covered. Throughout this subject a large number of original problems are presented in addition to those given in the text.

Thermodynamics and prime movers.—On January 2, the beginning of the second term, thermodynamics and prime movers is taken up in alternation with hydraulics and approximately 55 days devoted thereto. The text used is Elementary Engineering Thermodynamics—Young and Young. The theoretical course in this subject is supplemented by laboratory work covering such machinery as steam engines, steam turbines, steam pumps, air compressors, refrigerating plants, Diesel engines, gasoline engines, air conditioning equipment, etc.

Hydraulics and hydraulic machinery.—Approximately 50 days are devoted to this subject which alternates with thermodynamics and prime movers. The scope of the work is that given in Textbook on Hydraulics, Russell, fourth edition. The textbook work is supplemented by a series of laboratory experiments in the hydraulic laboratory covering such subjects as orifices, tubes, nozzles, weirs, pipe friction, sudden contraction and sudden expansion, various water-measuring instruments, gages, pumps, turbines, etc.

Aerodynamics.—Approximately 25 periods. The scope and extent of this subject are indicated by the text used, Simple Aerodynamics and the Airplane, Carter, fifth edition. The entire text, including approximately 100 original problems, is taken. Various Air Corps Information Circulars, Aeronautical Magazines, and publications of the National Advisory Committee for Aeronautics are used for reference. The theoretical work is supplemented by laboratory periods devoted to wind-tunnel operation, using a 30- by 24-inch open throat, return flow tunnel at speeds up to 100 miles per hour, and to the operation and use of the Link Trainer.

As the advanced and partial review work in each subject is completed, a series of written general reviews covering the entire subject is presented. All members of the class take the written general reviews. Upon the completion of the work of each term, a final written examination is given on the work of that term to those cadets who have failed to meet the requirements of the course during the term.

DEPARTMENT OF MATHEMATICS

THIRD AND FOURTH CLASSES

57. The course in mathematics begins with daily recitations throughout the fourth-class year. It continues through the third-class year, alternating with physics.

In the first term of the fourth-class year, solid geometry is completed in alternation with algebra. In the second term, algebra is completed, followed by trigonometry and analytic geometry.

The third-class year is devoted to the study of differential and integral calculus, followed by a brief course in the method of least squares for selected sections.

The courses in algebra and solid geometry cover the subjects as generally taught in college, but the student is assumed to have mastered, before entrance, elementary algebra to include the progressions and the solution of the quadratic equation. Trigonometry includes the complete solution of plane and spherical triangles. Analytic geometry includes the discussion of the general equation of the second degree in the plane and the particular forms of the equation of the second degree in space.

The course in differential and integral calculus covers the ground of the usual college textbook, including briefly the subject of ordinary differential equations.

The method of least squares, given to selected sections, includes the deduction of the facility curve, the formulae for the error, and the distribution of error.

Advanced Course in Algebra—Wells.	Differential and Integral Calculus—Granville, Smith, Longley.
Plane and Spherical Trigonometry—Kells, Kern, and Bland.	Method of Least Squares—Bartlett.
Logarithmic and Trigonometric Tables—Kells, Kern, and Bland.	

Books of reference for mathematics, mechanics, engineering: The Engineers' Manual, Hudson.

DEPARTMENT OF CHEMISTRY AND ELECTRICITY

SECOND CLASS

58. This department embraces the subjects of chemistry and electrical engineering, the latter including a short course in telephone and radio communication.

The object of the course is to teach cadets to think scientifically, to prepare them for work given in their first-class year, and to impart to them information which is of cultural and professional value.

Recitations, exercises, laboratory work, or lectures take place on all week days throughout the third academic year. Recitation periods are of 1 hour and 20 minutes' duration and laboratory periods are of 2 hours' duration.

Chemistry.—The course in chemistry is a general one and concentrates on the fundamental phenomena and principles and on the simpler applications which can be thoroughly discussed. It is taught during the fall term (September to December, inclusive), and 97 hours are devoted to recitations, exercises, and lectures, and 40 hours to laboratory work.

Electrical engineering.—The course in electrical engineering includes both direct and alternating currents and concentrates on a study of the general principles of the subject, on the more important uses of electricity, and on the operation of generators, motors, and other electrical machinery. It is taught during the period, January 2 to June 4, and 140 hours are devoted to recitations, exercises, and lectures, and 50 hours to practical work in the laboratory.

Textbooks

Smith's College Chemistry—Kendall (third revised edition).	A Course in Electrical Engineering, volume II, Alternating Currents— Dawes (1934).
A Laboratory Outline to Smith's Col- lege Chemistry—Kendall (1935) (third revised edition).	Fundamentals of Radio—Terman (1938).
A Course in Electrical Engineering, volume I, Direct Currents—Dawes (1937).	

Standard works on the respective subjects are always available for reference, both to cadets and instructors.

DEPARTMENT OF DRAWING

SECOND, THIRD, AND FOURTH CLASSES

59. The course in drawing extends from the middle of the fourth-class year to the middle of the second-class year, or a total of 2 years. There are approximately 194 periods in the course, each of which is, with minor exceptions, 2 hours in length. Attendance is on alternate days. The subjects included in the course are plane surveying, general and engineering drawing, and military topography.

Plane surveying.—This course is presented during the second half of the fourth-class year in 32 classroom recitations and 19 laboratory periods (field exercises). In general, it covers both theoretical and practical presentations of the following subjects: Measurement of distance, leveling, transit and stadia surveying, and plane table methods. Theoretical instruction in triangulation and photogrammetrical applications is included in the classroom work. For field exercises, cadets are organized into small parties, and much practice in the manipulation of instruments is afforded.

General and engineering drawing.—This course is presented through the entire third-class year in 93 laboratory periods. Instruction covers the use of instruments, pictorial representation, perspective drawing, both freehand and mechanical, basic descriptive geometry, technical sketching, detail and assembly drawing, and the fundamentals of architectural drawing.

Military topography.—This course is presented in 50 periods during the first half of the second-class year and embraces the following: 20 field exercises in military topography and panoramic sketching; 30 laboratory periods in map reading, interpretation and elementary restitution of air photos, and topographical drawing (including plotting from field notes and use of conventional signs). Lectures are given paralleling the instruction on scales, military grids, control, map projections, relief delineation, etc.

Textbooks

Surveying—Davis, Foote, and Rayner (latest edition).	Regulations, U. S. Army.
Surveying and Topography—Training	Engineering Drawing—French (latest edition).

DEPARTMENT OF MODERN LANGUAGES**SECOND, THIRD, AND FOURTH CLASSES**

60. Cadets study modern languages throughout the first 3 years at the Military Academy. They follow courses in French during the first and second years and in Spanish the third year. There are 93 attendances in French the first year, 109 the second, and 93 in Spanish the third.

In both languages the instruction starts with pronunciation and grammar and proceeds through idiomatic expression and composition. In these basic features emphasis is placed upon careful and thorough study and application of the rules, but considerable time and attention are devoted also to the lighter side of the study, with much use of exercises in dictation, reading, writing, and speaking. The spoken language is stressed from the beginning, and free composition, both oral and written, is practiced extensively. The history of the literature and of the civilization of the country as a background for the study of its language is brought out in the texts for reading and in lectures. A series of lectures in French on French Civilization and a similar series in Spanish on Spanish Civilization are given at the close of the respective courses.

DEPARTMENT OF LAW**FIRST CLASS**

61. The course in law extends throughout the first-class year, half the class attending daily, Saturday excepted, for a period of 1 hour. The textbook system, supplemented by case book instruction, is employed. The following courses are studied, each cadet attending for the approximate number of periods indicated:

Elementary law. Fall term, 21 periods. Textbook: Smith's Elementary Law. Criminal law. Fall term, 19 periods. Textbook: Miller on Criminal Law. Evidence. Spring term, 17 periods. Textbook: McKelvey on Evidence. Constitutional law. Spring term, 18 periods. Textbook: Burdick's Law of the American Constitution.

Military law. Spring term, 16 periods. Textbook: Manual for Courts-Martial, 1928.

The department of law has a law library of about 6,000 volumes accessible to cadets.

DEPARTMENT OF ORDNANCE AND GUNNERY

FIRST CLASS

62. Ordnance engineering.—This course comprises 71 periods of 1 hour and 10 minutes each beginning on September 1. The entire class takes the course simultaneously, attending on alternate weekdays.

The instruction is theoretical, supplemented by lectures with slides and motion pictures and illustrated by description of typical examples of ordnance matériel. It includes the theory of explosives in general, the characteristics of propellant powders and principal high explosives, interior ballistics, artillery ammunition, small arms and small-arms ammunition, artillery, recoil and recoil mechanisms, fire-control instruments, combat motor vehicles, ordnance metals, cannon construction, and exterior ballistics.

Mechanical trades.—This course begins about March 1 and comprises 17 periods of 2 hours each. One half the class takes this course, attending on alternate weekdays, while the other half of the class takes automotive principles. The work is practical and consists of demonstrations of welding, forging, heat treatment, physical testing, woodworking, and the use of special machine tools; actual individual work on standard machine tools, such as lathes, shapers, and milling machines; and the individual use of hand tools. The work is conducted in the ordnance laboratory. Following the course in mechanical trades, this half of the class is given the course in automotive principles.

Automotive principles.—This course comprises 17 periods of 2 hours each beginning about March 1. One half the class takes this course, attending on alternate weekdays, while the other half of the class takes mechanical trades. The course is conducted in the ordnance laboratory and is partly theoretical and partly practical, with the purpose of giving a basic knowledge of the theories and principles of the design and operation of automotive vehicles. It is illustrated by sectionalized exhibits and models. This course includes basic instruction in Diesel and aircraft engines. Following the course in automotive principles, this half of the class is given the course in mechanical trades.

Visit to Picatinny Arsenal.—At the end of the year a visit is made to Picatinny Arsenal, N. J., for a practical demonstration of manufacture of powders and explosives.

Textbooks

Elements of Ordnance—Hayes.

The Gasoline Automobile—Elliott and Consoliver.

DEPARTMENT OF MILITARY HYGIENE

63. The course in hygiene covers 32 periods of the cadet's first-class year at the academy and is required for all cadets. Its basic purpose is the teaching of the principles and practice of military hygiene in such a manner as to prepare the future officer so to care for his own health and that of his men in garrison and the field as to keep the effective strength of his unit as near the maximum as possible "to conserve fighting strength."

Some knowledge of anatomy and physiology is necessary as a foundation for the course, and as many cadets enter the academy without such knowledge these subjects together with personal hygiene, the effects of drugs upon the system, first aid, and the Army medical service are dealt with in the first part of the course.

The second part of the course deals with water, including requirements under various circumstances, sources and methods of transportation and purification in the field; the constituents of food, requirements of the body for food, the protection and storage of food; the disposal of human, animal, and kitchen wastes in the field; causes of disease; immunity to disease; the prevention and control of the communicable diseases.

Textbook

Elements of Military Hygiene, prepared at the Medical Field Service School, Carlisle Barracks, Pa.

DEPARTMENT OF ENGLISH

64. The course in English extends through the cadet's first 2 years at the Military Academy. Recitation periods are on alternate weekdays, except Saturdays, throughout the academic year.

Object and scope.—The objective of the 2-year course in English is to teach the cadet to express his basic ideas clearly, logically, and forcefully, and to teach

him to appreciate the best in literature. Assignments are not confined merely to the study of proper grammatical form and the construction of mechanically correct exposition. Of greater importance is the training in logical thought processes, in the ability to make intelligent analyses and to draw logical conclusions. Every effort is made to encourage and assist the cadet to translate the workings of his brain into clear and forceful English. It is of paramount necessity that he be taught to present his views intelligently. Literature is presented not alone for beauty of expression but for its meaning.

The main purpose of the fourth-class English course is to teach the effective use of plain English in expository writing. Cadets should know how to spell, how to punctuate, and how to write grammatically before they enter the Military Academy. Cadets are required to learn the principles of exposition and to apply those principles first in the analysis and then in the writing of sentences, paragraphs, and themes. Proficiency in this work requires correct spelling, punctuation, grammar, sentence structure, and the ability to write clear, grammatically correct, and logically developed exposition. Half of the entire fourth-class year is devoted to the fundamentals of expository writing. All papers submitted are corrected, returned, and discussed in conferences. The literature studied includes selections from the Bible and from the lives and works of representative English writers of the fourteenth to the eighteenth centuries, inclusive. Frequent written exercises serve to test the cadet's understanding of these reading assignments. Eleven lectures are given in connection with the course in literature. During this year the course in public speaking begins.

In the third-class year special emphasis is placed on advanced exposition, on appreciation of literature, and on effective speaking. In the exposition and public-speaking courses, stress is placed on the arrangement of ideas, the elimination of nonessentials, the selection and strengthening of essentials, and the drawing of logical conclusions. For each of the 10 expository theme assignments, double preparation periods are allotted. All papers are corrected and returned. If indicated, conferences between instructor and cadet on theme corrections are held. The literature assignments include selections from the romantic, victorian, and contemporary periods. Written exercises serve to test the cadet's understanding of these reading assignments. Throughout the year 17 periods are allotted for public speaking. Fifteen lectures are given in connection with the course in literature.

Textbooks

FOURTH CLASS

Practical English Composition—Easley S. Jones.	Canterbury Tales—Chaucer—Everyman's Library.
The Literature of England, volume I— Woods, Watt and Anderson.	Webster's Collegiate Dictionary (fifth edition).
Shakespeare—Hardin Craig.	Concerning Words—J. E. Norwood.

THIRD CLASS

Literature of England, volume II— Woods, Watt and Anderson.	Modern American Poetry—Louis Untermeyer (fifth revised edition).
Cyrano de Bergerac—Rostand (Brian Hooker adaptation).	The College Book of Exposition—Reed and McCorkle.
John Brown's Body—Stephen Vincent Benet.	Contemporary Short Stories—edited by K. A. Robinson.
Fortitude—Hugh Walpole.	Webster's Collegiate Dictionary (fifth edition).
Modern Short Biographies—Marston Balch.	

DEPARTMENT OF ECONOMICS, GOVERNMENT, AND HISTORY

HISTORY

65. The course in history is required of all cadets in the third class. Recitation periods are on alternate week days throughout the academic year.

The course includes a survey of the political and international history of Europe from medieval times to the present day.

Fall term: Europe from medieval times through the French Revolution.
Spring term: Europe from the Napoleonic Era to the present.

RIDING HALL—INTERIOR

THE CORPS AT REVIEW

Textbooks: Hayes—A Political and Cultural History of Modern Europe, volumes I and II; Shepherd—Historical Atlas, 1932 ed. During the written general review periods, fall and spring, cadets exempted from such reviews are given a course in modern history of the Far East. Textbook: Vinacke—A History of the Far East in Modern Times.

ECONOMICS AND GOVERNMENT

The course in economics and government is required of all cadets during their first-class year. Government is given during the fall term; economics during the spring term. Recitation periods are on alternate week days throughout the academic year, except for a period of 28 days given to military hygiene at the end of the spring term.

The course in government opens with a survey of the evolution of political forms, from the prehistoric era to the present; a more detailed examination of political systems extant today; and a final concentration on the organization and operation of government in the United States. Two periods are devoted to military government.

Textbooks: Maxey—The American Problem of Government; Military Aid to the Civil Power, by the General Service Schools; Department pamphlets: The Governments of the Major European Powers; The Status of Military Personnel as Voters.

The study of economics includes an investigation of the economic organization of modern society with special reference to the United States and a consideration of the part money and credit play in the operation of this organization. Short courses in the principles of insurance and the principles of double-entry book-keeping are included.

Textbooks: Fairchild, Furniss, and Buck—Elementary Economics; Twentieth Century Bookkeeping and Accounting, part I; Department pamphlet: Principles of Insurance.

During the written general review periods, fall and spring, a special course in the resources for war of the Great Powers is given the upper sections (not less than half the class).

Textbooks: Simonds and Enemy—The Great Powers in World Politics; Department pamphlet: The United States; Its Situation as to Strategic and Critical Raw Materials.

Throughout the year a course in public affairs is given the entire class. Representative daily newspapers are used for reference.

DEPARTMENT OF PHYSICS

THIRD CLASS

66. The course in physics begins September 1 of the third-class year and alternates daily with mathematics throughout the academic year. In addition to numerous demonstrations in the classrooms, approximately 22 formal laboratory experiments are performed. Each laboratory period is of 2 hours' duration. In all there are 112 periods, the recitation period being 1 hour and 20 minutes.

This course is in preparation for technical work of the second- and third-class years. The textbook, Smith's Elements of Physics, is almost completely covered. Elementary mechanics and sound are taken during the fall term; heat, electricity, and magnetism, and light during the spring term. The text is supplemented with numerous original problems. Laboratory apparatus is used for the demonstration of practically all the principles covered. In addition the use of the slide rule is taught at the beginning of the course and its use is required.

THE LIBRARY

67. Cadets and officers have free access to the library, which comprises approximately 102,000 volumes, with an extensive collection of maps, manuscripts, and rare books. The collection contains substantially all standard books on the subjects taught in the academy, and is especially complete in military subjects. Its card catalogues (about 400,000 cards) are arranged with the special object of saving the time of cadets. The library is open on week days from 8:30 a. m. to 6 p. m., evenings during the summer encampment and when required for studies; on Sundays and holidays from 2 p. m. to 6 p. m.

ANNUAL PHYSICAL EXAMINATION OF CADETS

68. All cadets are examined physically each year, and those found physically disqualified to continue with the course, or, in case of the first class, for commission in the Army, are discharged.

VACATIONS AND LEAVES OF ABSENCE

69. Academic duties are suspended from the completion of the June examinations until the end of August. During this period cadets are engaged in military duties and exercises and in receiving practical instruction in military and other subjects. Academic duties are also suspended from December 24 until January 2, except for those undergoing examination. All duties and exercises, as far as practicable, are suspended on New Year's Day, February 22, May 30, July 4, Labor Day, Armistice Day, Thanksgiving Day, and Christmas Day.

Cadets of the first, second, and third classes not undergoing examinations are allowed leaves at Christmas. Cadets of the first class are also granted six weekend or holiday leaves throughout the year, provided this privilege does not interfere with academic or military duty and is warranted by their disciplinary and academic records and money accounts. Excepting such leaves, cadets under ordinary circumstances are allowed but one leave of absence during the 4-year course. This leave is granted to those cadets who have successfully completed the third-class course of study and extends from the middle of June to the 28th of August.

DEGREES

70. An act of Congress approved May 25, 1933, as amended by the act of Congress approved July 8, 1937, provides: "That the superintendents of the United States Naval Academy, the United States Military Academy, and the United States Coast Guard Academy may, under such rules and regulations as the Secretary of the Navy, the Secretary of War, and the Secretary of the Treasury may prescribe, confer the degree of bachelor of science upon all living graduates of their respective academies, from and after the date of the accrediting of said academies by the Association of American Universities." The United States Military Academy was accredited by the Association of American Universities on October 31, 1925. This degree is regularly conferred at the time of graduation.

PROMOTION AFTER GRADUATION

71. The act of Congress approved May 17, 1886, to regulate the promotion of graduates of the United States Military Academy provides: "That when any cadet of the United States Military Academy has gone through all its classes and received a regular diploma from the academic staff, he may be promoted and commissioned as a second lieutenant in any arm or corps of the Army in which there may be a vacancy and the duties of which he may have been adjudged competent to perform." The act approved June 4, 1920 (National Defense Act), section 24e as amended by the act approved April 3, 1939 (Public, No. 18—76th Cong.), provides:

*"Appointment of officers.—Except as otherwise herein provided, all appointments in the Regular Army shall be made in the grade of second lieutenant from the following groups: Group 1, from the graduates of the United States Military Academy; * * *."*

NOTE.—The information contained in this circular is subject to change at any time.

APPENDIX A

REGULAR EXAMINATIONS

The following sets of questions were used in recent years:

1. ALGEBRA

MARCH 1935

- | No. | Wt. | |
|-----|-----|--|
| 1 | 10 | (a) Simplify: $[(a^5+a^{-5})^2-4]^{15}$
(b) Write in its simplest form the ninth term in the expansion of $\left(\frac{\sqrt[3]{x^2}}{4} - \frac{\sqrt{x^3}}{2}\right)^{11}$ |
| 2 | 10 | (a) Solve graphically $\begin{cases} 7x+22y=77 \\ 2x-5y=24 \end{cases}$. Interpret results.
(b) Solve graphically $\begin{cases} 5x-y+14=0 \\ 2y-10x-28=0 \end{cases}$. Interpret results. |
| 3 | 10 | Twenty years hence the sum of the ages of a father and son will be three times the difference of their ages. Twenty-five years hence the sum of their ages will be three times the sum now. Find their ages now. |
| 4 | 10 | Solve: $\sqrt{x^2-10x+41}-\sqrt{x^2+10x+41}=8$. |
| 5 | 10 | At his usual rate a man can row 15 miles downstream in 5 hours less time than it takes him to return. If he doubled his rate, his time downstream would be only 1 hour less than his time upstream. What is his rate in still water and what is the rate of the current? |
| 6 | 10 | The sum of the squares of two numbers exceeds twice their product by 576; the arithmetical mean of the two numbers exceeds the geometrical mean by 6. Find the numbers. |
| 7 | 10 | For what values of k are the roots of the equation $x^2+k(x+1)+3=0$ equal? Find the equal roots. |
| 8 | 10 | In 8 hours workmen move a pile of stones from one place to another. Had there been 8 more workmen and each had carried 5 lbs. less per trip they would have completed the work in 7 hours. Had there been 8 fewer workmen and each had carried 11 lbs. more per trip they would have completed the work in 9 hours. How many workmen were there, and how many pounds did each carry per trip? |
| 9 | 10 | Solve: $\begin{cases} x^2+4y^2=13 \\ xy+2y^2=5 \end{cases}$. |
| 10 | 10 | Find the highest common factor and lowest common multiple of—
$\begin{aligned} & 4x^4+11x^2+25 \\ & 2x^3-9x^2+14x-15 \\ & 2x^3+x^2-x+10 \end{aligned}$ |
| 11 | 10 | On one of the sides of an acute angle a point is taken a feet from the vertex; from this point a perpendicular is let fall on the second side cutting off b feet from the vertex. From the foot of this perpendicular a perpendicular is let fall on the first side, and from the foot of this perpendicular a perpendicular is let fall again on the second side, and so on, indefinitely. Find the sum of the lengths of all the perpendiculars.
(Hint: Show that the lengths of the perpendiculars form a geometric progression whose ratio is b divided by a .) |

MARCH 1936

- | | | |
|---|----|---|
| 1 | 10 | For what values of n will the sum of n terms of the progression $-6\frac{1}{2}, -6\frac{2}{3}, -6, \dots$ be $-52\frac{1}{2}$? |
| 2 | 10 | Multiply $\frac{m}{a^n+a^{2n}} \cdot \frac{m}{b^{4n}} \cdot \frac{t}{b^{8n}} + b^{\frac{t}{8n}}$ by $\frac{m}{a^n-a^{2n}} \cdot \frac{m}{b^{4n}} \cdot \frac{t}{b^{8n}}$. |
| 3 | 10 | (a) Arrange in descending order of magnitude: $3\sqrt[3]{4}, 4\sqrt[4]{\frac{7}{4}}, 2\sqrt[3]{13\frac{3}{4}}$,
(b) Reduce: $\frac{2}{\sqrt{5}+\sqrt{3}-\sqrt{2}}$ to an equivalent fraction having a rational denominator. |

- | No. | Wt. | |
|-----|-----|--|
| 4 | 10 | (a) Simplify: $3x - (y + [2x - (y - z)]) + \frac{1}{2} + \frac{2z^2 - \frac{1}{2}}{2z + 1}$.
(b) Factor: $9a^2 - b^2 + 4bx - 4x^2$. |
| 5 | 10 | A and B each have a square field. It requires 200 rods of fencing to enclose both fields. The total area of the two fields is 1,300 square rods. What is the value of each at \$2.25 per square rod? |
| 6 | 10 | Solve: $\begin{cases} x^2 + y^2 + 2x + 2y = 60 \\ xy + x + y = 23 \end{cases}$ |
| 7 | 10 | Solve: $x^2 + 2x + 6\sqrt{x^2 + 2x + 5} = 11$. |
| 8 | 10 | The combined ages of a man and his wife are six times the combined ages of their children. Two years ago their combined ages were ten times the combined ages of their children. Six years hence their combined ages will be three times the combined ages of the children. How many children have they? |
| 9 | 10 | (a) Find the term independent of x in the expansion of $\left(\frac{3}{2}x^2 - \frac{1}{3x}\right)^9$ by the Binomial Theorem.

(b) Simplify: $\frac{x^2 - 17x + 72}{x^2 + 22x + 120}$ |
| 10 | 10 | A passenger train leaves New York at 3 p. m. and reaches Albany at 6 p. m. A freight train leaves Albany at 1:30 p. m. and arrives at New York at 6 p. m. If each train travels at a uniform speed, at what time do they pass each other? |
| 11 | 10 | Given the equation of $x^4 + (2m-5)x - m^2 - 2 = 0$.
(a) For what value of m will the roots of the equation be equal to 3 and -6?
(b) For what value of m will the roots be numerically equal but opposite in sign? |

MARCH 1937

- | | | |
|----|----|--|
| 1 | 10 | A man bought a certain number of sheep for \$200.00. Having lost five of them he sold one-fourth of the remainder for \$63.00, making a profit of 5 percent on each sheep sold. How many sheep did he buy? |
| 2 | 10 | (a) Factor: $9a^6 + 168a^4 + 100a^2 + 78a^4b^2 + 260a^2c + 60a^3c$.
(b) Reduce to its lowest terms: $\frac{-15x^3 + 13x^2 + 10x - 8}{120x^3 + 106x^2 - 52x - 48}$. |
| 3 | 10 | Plot the graphs of the following equations:
$\begin{cases} x - y + 7 = 0 \\ x + 2y - 5 = 0 \\ 4x + 3y = 0 \end{cases}$
Are these equations consistent? Are they independent? |
| 4 | 10 | A and B together received \$29.00 for a certain piece of work at which A worked 5 hours longer than B. If A had only worked the number of hours that B worked he would have received \$12.00. If B had worked as long as A worked he would have received \$17.50. How long did each actually work and how much did each receive? |
| 5 | 10 | How many negative terms are there in the expansion of $\left(x^2 - \frac{a}{x^3}\right)^9$ by the Binomial Theorem? Write the term involving x^{-17} . |
| 6 | 10 | Solve: $\sqrt{6x+1} + \sqrt{2-2x} = \sqrt{7x+6}$. |
| 7 | 10 | Solve: $\begin{cases} y + \frac{1}{x} = \frac{20}{3} \\ xy + \frac{x}{y} = \frac{5}{3} \end{cases}$ |
| 8 | 10 | (a) Define a geometric progression and write expressions for the n^{th} term and the sum of first n terms of such a progression.
(b) Find the sum of the first ninety odd multiples of three. |
| 9 | 10 | (a) Solve: $x^2 + \sqrt{4x^2 + 24x} = 24 - 6x$.
(b) Solve: $x^{\frac{1}{4}} + x^{-\frac{1}{4}} = 4$. |
| 10 | 10 | At a concert N dollars were paid for reserved seats, and an equal amount for unreserved seats. A reserved seat cost 50 cents more than an unreserved seat, and N more unreserved seats were sold than reserved seats. How many tickets were sold altogether? |
| 11 | 10 | For what values of m will the equation $mx^2 + 2x^2 - 3mx + m = 0$ have equal roots? What are these roots? |

MARCH 1938

- No. Wt.
- 1 10 (a) Divide: $4x^4 - 5x^2y^2 - 8x^2 - 4y^2 + 4 + y^4$ by $y^2 + 2x^2 - 2 - 3xy$.
 (b) Find the Least Common Multiple and the Highest Common Factor of $x^3 - 27$; $x^4 - 6x^3 + 12x^2 - 18x + 27$; $x^4 - 9$.
 - 2 10 Two points move at constant rates along the circumference of a circle whose length is 150 feet. When they move in opposite directions they meet every 5 seconds; when they move in the same direction they are together every 25 seconds. What are their respective rates?
 - 3 10 (a) Expand: $\left(\frac{1}{x^2} + x^2\right)^7$ by the Binomial Theorem.
 (b) Without expanding, find the coefficient of the term containing x^5 in the expansion of $\left(2x - \frac{1}{x}\right)^{15}$.
 - 4 10 A person receives \$15 daily. He spends \$1.40 the first day, \$1.80 the second day, \$2.20 the third day, and so on.
 (a) When will he have the most money and how much will he have at that time?
 (b) When will he have nothing?
 (c) Will he ever have exactly \$97.00? If so, when?
 - 5 10 (a) For what value of m is the expression $4x^4 - 12x^3y + mx^2y^2 - 8xy^3 + y^4$ a perfect square?
 (b) Simplify:
$$\frac{a^2+b^2}{a^2-b^2} - \frac{a^2-b^2}{a^2+b^2}$$

$$\frac{\overline{a+b}}{\overline{a-b}} - \frac{\overline{a-b}}{\overline{a+b}}$$
 - 6 10 A vintner draws a certain quantity of wine from a full cask containing 63 gallons. Having filled up the cask with water, he draws the same quantity of liquid as before and then finds that only 28 gallons of pure wine remain in the cask. How many gallons of pure wine did he draw from the cask each time?
 - 7 10 (a) Determine the values of k for which the roots of the equation $3kx^2 + 2kx + x^2 + 2x + k = 0$ are real and equal. What are these roots?
 (b) What range of values of k will give imaginary roots?
 - 8 10 An automobile whose wheels are 8 feet in circumference is traveling at a constant speed. When this speed is increased by 15 miles per hour, the time of one revolution of the wheels is decreased by $2/33$ seconds. At what speed is the automobile traveling?
 - 9 10 (a) Solve: $\sqrt{13x-1} - \sqrt{2x-1} = 5$.
 (b) Reduce to an equivalent fraction having a rational denominator:
 - 10 10 A rectangle is surrounded by a border whose width is 5 inches. The area of the rectangle is 168 square inches and that of the border 360 square inches. Find the length and breadth of the rectangle.
 - 11 10 (a) Solve:
$$\begin{cases} x^2 + y^2 = \frac{17}{4}xy \\ x - y = \frac{3}{4}xy \end{cases}$$

 (b) Solve: $3x^4 + 10x^2 - 8 = 0$.

MARCH 1939

- 1 10 (a) Divide: $a^m - a^{m+1} + 37a^{m+3} - 55a^{m+1} + 50a^{m+6}$ by $1 - 3a + 10a^2$.
 (b) Simplify:
$$\frac{\frac{3m}{2n} - 1}{x^{2n} + 1} + \frac{\frac{3m}{2n} + 1}{x^{2n} - 1}$$
- 2 10 (a) Reduce to an equivalent fraction having a rational denominator: $\frac{2}{\sqrt{5} - 3\sqrt{2} + \sqrt{7}}$
 (b) Simplify:
$$\frac{5x-12}{x^2-5x+6} - \frac{7x-24}{x^2-7x+12} + \frac{8x-4}{x^2-6x+8}$$
- 3 10 Two bodies, A and B, are moving at constant rates and in the same direction around the circumference of a circle whose length is 20 feet. A makes one circuit in 2 seconds less time than B, and A passes B once every minute. What are their rates?
- 4 10 (a) Find the values of m for which the roots of the equation $2mx^4 + x^2 - 6mx - 6x + 6m + 1 = 0$ are real and equal. Find these roots.
 (b) Between what limits for m are the roots of this equation real?

- | No. | Wt. | |
|-----|-----|--|
| 5 | 10 | Solve: $x^2 - 4x + 19 = 6\sqrt{x^2 - 4x + 11}$. |
| 6 | 10 | The sum of three rational numbers in geometric progression is $\frac{83}{6}$. The sum of their reciprocals is $\frac{23}{6}$. Find the numbers. |
| 7 | 10 | A and B having worked together for 2 days on a certain job, A can now finish the job alone in 10 days. If they work together one more day B can finish it alone in 5 days. How long would it take each alone to do the original job? |
| 8 | 10 | The 3d, 4th, and 5th terms in the expansion of $(a+b)^n$ by the Binomial Theorem are 448, 224, and 70, respectively. Find the values of a , b , and n . |

$$\begin{cases} \frac{3}{x+y} + \frac{4}{x-z} = 2 \\ \frac{6}{x+y} - \frac{5}{y-z} = 1 \end{cases}$$

- | | | |
|---|----|---|
| 9 | 10 | Solve: $\begin{cases} \frac{3}{x+y} - \frac{1}{y^2} = 9 \\ \frac{3}{y^2} - \frac{1}{xy} = 90 \end{cases}$ |
|---|----|---|

- | | | |
|----|----|---|
| 10 | 10 | Two airplane passengers have together 300 pounds of baggage and are charged \$2.00 and \$7.00, respectively, for the excess weight above that allowed each passenger free. If all the baggage had belonged to a single passenger he would have been charged \$12.00 for excess weight. What is the weight of baggage each passenger is allowed to carry free? |
|----|----|---|

- | | | |
|----|----|---|
| 11 | 10 | Solve: $\begin{cases} \frac{5}{x^2} - \frac{1}{y^2} = 9 \\ \frac{3}{y^2} - \frac{1}{xy} = 90 \end{cases}$ |

110. Define each of the following grammatical terms and illustrate each in a sentence. Underline the part of the sentence that illustrates the term defined.

- (a) Infinitive.
- (b) Correlative conjunctions.
- (c) Gerund.
- (d) Relative adjective.
- (e) Reflexive pronoun.

210. Supply punctuation for the following sentences:

He asked the witness did you hear the defendant say I had no idea that Father was in the city that day

The students who are following us are uncouth sophomores those in front of us are dignified seniors but we who come in between are the best of all juniors

320. (a) Write a sentence containing a noun clause used as the object of a verb.

- (b) Write a sentence containing an adverbial clause of time.
- (c) Write a compound sentence of two clauses expressing concession or antithesis.
- (d) Write a simple sentence containing a participial phrase modifying the subject.
- (e) Write a simple sentence containing an infinitive phrase used as an adverb.
- (f) Write a simple sentence containing a prepositional adverbial phrase of cause.
- (g) Write a simple sentence containing a predicate objective.
- (h) Write a simple sentence containing an appositive.
- (i) Write a simple sentence containing a vocative.
- (j) Write a simple sentence containing a prepositional adjectival phrase modifying the object.
- (k) Write a sentence containing a subordinating conjunction of condition.
- (l) Write a simple sentence expressing a wish.
- (m) Write a simple sentence containing a compound subject and a compound predicate.
- (n) Write a simple sentence containing a coordinating conjunction of alternation.
- (o) Write a sentence containing an adjective in the comparative degree.

415. Correct all grammatical errors in the following sentences. Change the sentences no more than necessary to make corrections. Strike out the erroneous parts and write in corrections.

- (a) The man that answered the telephone was him.
- (b) Each of the reasons that you have given are good.
- (c) Will you call whomever has seen him recently?
- (d) That order does not apply to us noncommissioned officers in B Company.
- (e) The team—Smith, Williams, and me—will do our best, but I am afraid that they are much faster than us.
- (f) We prefer to have these kind of men for the Army.
- (g) The crowd knew he to be right, but they objected to him speaking so strongly.
- (h) The man who I know to be a thief disappeared last June.

515. Write an expository paragraph of about 150 words on a topic suggested by any question or combination of questions in any one of the following groups.

- (a) For what reasons do you enjoy motion pictures? Are there any educational benefits derived from motion pictures? How does the public in your neighborhood theater react to different types of pictures? Why do you think that pictures such as *Mickey Mouse* and *Popeye the Sailor* appeal to so many different classes of people? Do you believe that our present-day pictures will be of value in the year 2034? Will they illustrate our society, mode of life, forms of entertainment, and attitude toward present-day problems?
- (b) Which type of reading—books, periodicals, or newspapers—is of the greatest value to the student? Why? Which one presents the best picture of contemporary affairs? Which one builds up the student's background most effectively? From which one will he gain the deepest insight into human nature?

Bear
Deal
Let

- (b) Explain the difference between an appositive and an adjective.
(c) Write five compound sentences. Use a different coordinating conjunction in each sentence.
(d) In the following passage underline the verbs of all subordinate clauses. Classify the clauses by writing immediately above the underlined verbs the abbreviations Adj., Adv., or N., according

as the clause does the work of an adjective, an adverb, or a noun.

Having dwelt thus long on the subjects and aim of these poems, I shall request the reader's permission to apprise him of a few circumstances relating to their style, in order, among other reasons, that I may not be censured for not having performed what I never attempted. The reader will find that personifications of abstract ideas rarely occur in these volumes; and, I hope, are utterly rejected, as an ordinary device to elevate the style, and raise it above prose. I have proposed to myself to imitate, and, as far as is possible, to adopt the very language of men; and assuredly such personifications do not make any natural or regular part of that language. They are, indeed, a figure of speech occasionally prompted by passion, and I have made use of them as such; but I have endeavored utterly to reject them as a mechanical device of style, or as a family language which writers in meter seem to lay claim to by prescription.

—William Wordsworth.

510. Express the thought of the following passage in a sentence or two:

Indeed, it is a memorable subject for consideration, with what unconcern and gaiety mankind pricks on along the Valley of the Shadow of Death. The whole way is one wilderness of snares, and the end of it, for those who fear the last pinch, is irrevocable ruin. And yet we go spinning through it all, like a party for the Derby. Perhaps the reader remembers one of the humorous deylicies of the deified Caligula; how he encouraged a vast concourse of holiday-makers on to his bridge over Baiae Bay; and when they were in the height of their enjoyment, turned loose the Praetorian guards among the company, and had them tossed into the sea. This is no bad miniature of the dealings of nature with the transitory rage of man. Only, what a chequered picnic we have of it, even while it lasts, and into what great waters, not to be crossed by any swimmer, God's pale Praetorian throws us over in the end.

—Robert Louis Stevenson.

- 3¹⁰. Rewrite the following sentences. Make the specified change in each sentence, together with any additional changes made necessary by the specified change. Make the smallest number of changes possible, and make no changes in meaning, tense, word order, etc., except those necessitated by the specific instructions.

(a) Insert *in addition to* in place of *and*:

He and his friends were sick.

(b) Substitute *every student* for *student*:

In *The Canterbury Tales* students can find a character they have met in real life.

(c) Start the sentence with *The reason why*:

The bank was forced to close because it did not have an adequate reserve.

(d) After *like* insert *there might be*:

It looks like trouble.

(e) Insert *either*:

The games will be played at Baltimore or Philadelphia.

(f) Start the sentence with *After putting on our bathing suits*:

A motorboat took us across the lake.

(g) Insert *1783* after *15*:

On October 15 the first ascent in a captive balloon was made.

(h) Delete *and*:

His car was much faster than mine, and consequently he reached town first.

(i) Substitute *drive* for *be*:

You must be careful when the highway is crowded.

(j) Substitute *ten* for *two*:

Either of the two men would have played well.

(k) Substitute *different* for *muscular*:

A wrestler's physique is more muscular than that of a boxer.

(l) Add *or go to bed* after *sing*:

We may listen to Bing Crosby sing.

(m) Delete *is fond of*:

He likes to fish and is fond of daydreaming.

(n) Substitute either *I* or *me* for *John*:

I'm glad it isn't John who's going.

- 4¹⁰. In the following passage underline the verbs of all subordinate clauses. Classify the clauses by writing immediately above the underlined verbs the abbreviations Adj., Adv., or N., according as the clause does the work of an adjective, an adverb, or a noun.

Of these three estimates, framed without concert by different persons from different sets of materials, the highest, which is that of King, does not exceed the lowest, which is that of Finlaison, by one-twelfth. We may, therefore, with confidence pronounce that, when James the Second reigned, England contained between five million and five million five hundred thousand inhabitants. On the very highest supposition she then had less than one-third of her present population, and less than three times the population which is now collected in her gigantic capital.

510. In a sentence or two express the thought of the following passage:

We are all wise. The difference between persons is not in wisdom but in art. I knew, in an academical club, a person who always deferred to me, who, seeing my whim for writing, fancied that my experiences had somewhat superior; whilst I saw that his experiences were as good as mine. Give them to me and I would make the same use of them. He held the old; he holds the new; I had the habit of tacking together the old and the new which he did not use to exercise. This may hold in the great examples. Perhaps, if we should meet Shakespeare we should not be conscious of any steep inferiority; no, but of a great equality—only that he possessed a strange skill of using, of classifying his facts, which we lacked. For notwithstanding our utter incapacity to produce anything like Hamlet and Othello, see the perfect reception this wit and immense knowledge of life and liquid eloquence find in us all.

—Ralph Waldo Emerson.

- 3rd. Rewrite the following sentences. Make the specified change in each sentence, together with any additional changes made necessary by the specified change. Make the smallest number of changes possible, and make no changes in meaning, tense, word order, etc., except those necessitated by the specific instructions.

For *neither* ----- nor substitute *either* ----- or:

Neither you nor I know him.

Before *writer* insert *entertaining*:

Stevenson was a remarkable writer.

After *was* insert *to take long walks and*:

His only diversion was chess.

Begin the sentence with *Each of*:

The children who enter the building are given a small diag.

For *three senators* Mr. Calhoun substitute *two representatives* Mr. Thomas:

Of the three senators Mr. Calhoun was the most popular.

Delete *he* and begin the sentence with an interrogative pronoun that refers only to persons:

Could it have been he that broke the lock?

Begin the sentence with *The father as well as*:

The two boys were interested in what the lecturer said.

Substitute *we are certain, always has a kind word for everyone* for *is always kind*:

Jimpson is one man who is always kind.

For *been* substitute *laid* or *lain*:

The cap was under the tree where it had been all night.

- 4th. In the following passage underline the verbs of all subordinate clauses. Classify the clauses by writing immediately above the underlined verbs the abbreviations Adj., Adv., or N., according as the clause does the work of an adjective, an adverb, or a noun.

We cannot kindle when we will.
 The fire which in the heart resides;
 The spirit bloweth and is still,
 In mystery our soul abides.

But tasks in hours of insight willed

Can be through hours of gloom fulfilled.

With aching hands and bleeding feet
 We dig and heap, lay stone on stone;
 We bear the burden and the heat
 Of the long day, and wish 'twere done.
 Not till the hours of light return,
 All we have built do we discern.

Then, when the clouds are off the soul,
 When thou' dost bask in Nature's eye,
 Ask, how she viewed thy self-control,
 Thy struggling, tasked morality—

Nature, whose free, light, cheerful air,
 Oft made thee, in thy gloom, despair.

—Matthew Arnold.

- 5th. (a) Name the three general classes of verbals and give an example of each.

- (b) Give the principal parts of the following verbs:

dive
 drag
 fly
 lie

- 2nd. Write on either (a) or (b).

(a) Choose one of the following poets: Milton, Wordsworth, Tennyson, Browning, Longfellow, Whittier, Holmes, Emerson.

Mention at least two of his poems which you have read and, in a sentence for each, state the chief thought of the poems.

(b) Choose one author from each group.

(1) Washington Irving, Herman Melville, James Fenimore Cooper.

(2) Dickens, Thackeray, George Eliot, Charlotte Brontë, Jane Austen, Anthony Trollope.

Mention one important prose work of each author selected and, in a sentence or two for each, state the thought of the work.

- 3rd. Read carefully the following paragraph:

LITERARY BURROWING

A few years ago a Shakespearian critic showed that when Falstaff was made to babble of green fields he was really quoting from one of the psalms. This proved that he had received a religious education, and was probably a choir boy in his youth. The man who hit upon this illuminating thought was for weeks a marvel among critics. Since then they have no doubt found Falstaff to be nine different kinds of an allegory; so rapidly does the work advance. Why need every honest poet be suspected of leading a quadruple life? Sometimes the second or third meaning is less interesting than the first, and the only really difficult thing about a poem is the critic's explanation of it. But active minds must find employment, and if you cannot burrow how can you be deep? And if you are not deep you are that wretched vulgar thing, a casual reader, and will be snubbed to the end of your days by these haughty troglodytes. So when one of them comes along, never let him see you feeding on the surface of a poem. Dive to the bottom like a loon. You can bring up queer things from the deepest part. Then he will feel degraded and superficial and blush awkwardly like a casual reader.

In a sentence summarize the thought of this paragraph.

Essaying the Essay—Johnson.

4th. Read carefully the following poem:

THE DISCOVERY

There was an Indian, who had known no change,
 Who strayed content along a sunlit beach
 Gathering shells. He heard a sudden strange,
 Commingled noise; looked up; and gasped for speech.
 For in the bay, where nothing was before,
 Moved on the sea, by magic, huge canoes
 With bellying cloths on poles, and not one oar,
 And fluttering coloured signs and clambering crews.

And he, in fear, this naked man alone,
 His fallen hands forgetting all their shells,
 His lips gone pale, knelt low behind a stone,
 And stared, and saw, and did not understand,
 Columbus's doom-burdened caravels
 Slant to the shore, and all their scarred land.

—John C. Squire.

In your own words state the thought of this poem.

5th. Write in several paragraphs a composition of at least 300 words on one of the following subjects:

- (a) My favorite American author and his special contribution to literature.

- 2nd. In a few sentences give the central thought of one of the following stanzas:

(a)

Far-called, our navies melt away;
 On dune and headland sinks the fire.
 Lo! All our pomp of yesterday
 Is one with Nineveh and Tyre!
 Judge of the Nations, spare us yet,
 Lest we forget,—lest we forget!

—Rudyard Kipling—Recessional.

(b)

Love me not for comely grace,
 For my pleasing eye or face,
 Nor for any outward part,
 No, nor for my constant heart,—
 For those may fail, or turn to ill,
 So thou and I shall sever:
 Keep therefore a true woman's eye,
 And love me still, but know not why—
 So hast thou the same reason still
 To doat upon me ever.

—Anonymous Elizabethan.

- 3rd. Read the following stanzas carefully; then in a short paragraph which conforms to the rules of rhetoric state what kind of a man you think Richard Cory is:

RICHARD CORY

Whenever Richard Cory went down town,
 We people on the pavement looked at him:
 He was a gentleman from sole to crown,
 Clean favored, and imperially slim.
 And he was always quietly arrayed,
 And he was always human when he talked;
 But still he fluttered pulses when he said,
 "Good morning," and he glittered when he walked.
 And he was rich,—yes, richer than a king,—
 And admirably schooled in every grace:
 In fine, we thought that he was everything
 To make us wish that we were in his place.
 So on we worked, and waited, for the light,
 And went without the meat, and cursed the bread;
 And Richard Cory, one calm summer night,
 Went home and put a bullet through his head.

—Elwin Arlington Robinson.

No.

- 4th. John Galsworthy once said that the best plot for a play is a human being. Selecting one play of Shakespeare's with which you are familiar, justify this statement in a paragraph. (Pay particular attention to the rules of unity, coherence, and emphasis.)

415. Answer one part *only*—either A or B.

A. "Poetry is the language of the imagination and the passions. It relates to whatever gives immediate pleasure or pain to the human mind. It comes home to the bosoms and businesses of men; for nothing but what so comes home to them in the most general and intelligible shape, can be a subject for poetry. Poetry is the universal language which the heart holds with nature and itself. He who has a contempt for poetry, cannot have much respect for himself, or for anything else. It is not a mere frivolous accomplishment, * * * the trifling amusement of a few idle readers or leisure hours—it has been the study and delight of mankind in all ages. Many people suppose that poetry is something to be found only in books, contained in lines of 10 syllables with like endings: But wherever there is a sense of beauty, or power, or harmony, as in the motion of a wave of the sea, in the growth of a flower that 'spreads its sweet leaves to the air and dedicates its beauty to the sun'—there is poetry, in its birth. * * * There is no thought or feeling that can have entered into the mind of man, which he would be eager to communicate to others, or which they would listen to with delight, that is not a fit subject for poetry."

—William Hazlitt.

1. According to Hazlitt what constitute the sources of poetry?

2. By specific reference to a poem or two which you have read, explain your agreement (or your disagreement) with Hazlitt's central thought.

B. "Poetry is the image of man and nature. The obstacles which stand in the way of the fidelity of the biographer and historian, and of their consequent utility, are incalculably greater than those which are to be encountered by the poet who comprehends the dignity of his art. The poet writes under one restriction only, namely, the necessity of giving immediate pleasure to a human being possessed of that information which may be expected from him, not as a lawyer, a physician, a mariner, an astronomer, or a natural philosopher, but as a man. Except this one restriction, there is no object standing between the poet and the image of things; between this, and the biographer and historian, there are a thousand."

—Wordsworth.

1. Explain one essential difference between the work of a poet and of a biographer or historian.

2. Why is the audience of a biographer or historian more limited than that of a poet?

515. Read the following poem carefully, and then answer (a) and (b) below:

THE CHOICE

I

Eat thou and drink; tomorrow thou shalt die.
 Surely the earth, that's wise (being very old),
 Needs not our help. Then loose me, love, and hold
 Thy sultry hair up from my face; that I
 May pour for thee this golden wine, brim-high,
 Till round the glass thy fingers glow like gold.
 We'll drown all hours; thy song, while hours are tolled,
 Shall leap, as fountains veil the changing sky.
 Now kiss, and think that there are really those,
 My own high-bosomed beauty, who increase
 Vain gold, vain lore, and yet might choose our way!
 Through many years they toll; then on a day
 They die not—for their life was death—but cease;
 And round their narrow lips the mold falls close.

II

Watch thou and fear; tomorrow thou shalt die.
 Or art thou sure thou shalt have time for death?
 Is not the day which God's word promiseth
 To come man knows not when? In yonder sky,
 Now while we speak, the sun speeds forth; can I
 Or thou assure him of his goal? God's breath
 Even at this moment haply quickeneth
 The air to a flame; till spirits, always nigh
 Though screened and hid, shall walk the daylight here.
 And dost thou prize of all that man shall do?
 Canst thou, who hast but plagues, presume to be
 Glad in his gladness that comes after thee?
 Will his strength slay thy worm in hell? Go to:
 Cover thy countenance, and watch, and fear.

III

Think thou and act; tomorrow thou shalt die.
 Outstretched in the sun's warmth upon the shore,
 Thou say'st: "Man's measured path is all gone o'er;
 Up all his years, steeply, with strain and sigh,
 Man climb until he touched the truth; and I,
 Even I, and he whom it was destined for."
 How should this be? Art thou then so much more
 Than they who sowed, that thou shouldst reap thereby?
 Nay, come up hither. From this wave-washed mound
 Unto the furthest flood-brim look with me;
 Then reach on with thy thought till it be drowned.
 Miles and miles distant though the gray line be,
 And though thy soul sail leagues and leagues beyond—
 Still, leagues beyond those leagues, there is more sea.

—Dante Gabriel Rossetti.

- 2nd. (a) In the following passage underline all subordinate clauses. Classify the clauses by writing immediately above the underlined clause the abbreviations Adj., Adv., or N., according as the clause does the work of an adjective, an adverb, or a noun.

Exposition has customarily been called the stepdaughter of rhetoric, a Cinderella whose proper sphere is the dirt and utility of the kitchen. Needless to say, the history of literature records a more glamorous reputation. Exposition has its own art and canons of excellence. It provides ample scope for the creative imagination, and is as sensitive to the touch of genius as any other form. Yet it is true that exposition is the form best adapted to serve utilitarian ends. The essay, which is dominantly expository in method, is probably the most efficient of all literary instruments for the swift socialization of knowledge. It is exposition, of course, that we habitually rely upon in transacting the intellectual business of everyday life. The importance of exposition and the need of learning the secret of its technique can scarcely be overemphasized.

(The New College Omnibus.)

- (b) From the following passage select words or groups of words that are illustrative of the terms listed below. Select only one example for each term. Indicate the number of the line from which you select your illustration.

1. For us to attempt to judge a modern author's
2. eventual fame is as futile as trying to predict the
3. destiny of mankind, itself. Our critical taste
4. is dominated by influences too transient to be reliable.
5. That which we acclaim our descendants may ignore.
6. Authors we herald they will scorn. Deceived
7. by momentary fancies, we have not the calm, unerring
8. judgment of those sober, unbiased generations yet
9. to come.

EXAMPLE: abstract noun*fame (2)*

3. Answer the following by inserting the answers in the blank spaces:

1. A little over a century ago there appeared a poem which achieved amazing popularity for its author. Written in blank verse, the poem ponders death, and offers Nature as a healing power for such dark broodings. The work ends with a plea that we should live our lives in such fashion that death should hold no fears for us, concluding with the thought:

*"Thou go not, like the quarry-slave at night,
 Scourged to his dungeon, but, sustained and soothed
 By an unfaltering trust, approach thy grave
 Like one who wraps the drapery of his couch
 About him and lies down to pleasant dreams."*

410. "It has been written, 'an endless significance lies in Work'; a man perfects himself by working. Foul jungles are cleared away, fair seedfields rise instead, and stately cities; and withal the man himself: first ceases to be a jungle and foul unwholesome desert therby. Consider how, even in the meanest sorts of Labor, the whole soul of a man is composed into a kind of real harmony, the instant he sets himself to work! Doubt, Desire, Sorrow, Remorse, Indignation, Despair itself, all these like hounds lie beleaguering the soul of the poor dayworker, as of every man: but he bends himself with free valor against his task, and all these are stilled, all these shrink murmuring far off into their caves. The man is now a man. The blessed glow of Labor in him, is it not as purifying fire, wherein all poison is burnt up, and of sour smoke itself there is made bright, blessed flame!"

—Carlyle.

"Hateful is the dark-blue sky,
Vaulted o'er the dark-blue sea.
Death is the end of life; ah, why
Should life all labor be?
Let us alone. Time driveth onward fast,
And in a little while our lips are dumb.
Let us alone. What is it that will last?
All things are taken from us, and become
Portions and parcels of the dreadful past.
Let us alone. What pleasure can we have
To war with evil? Is there any peace
In ever climbing up the climbing wave?
All things have rest, and ripen toward the grave
In silence—ripen, fall, and cease;
Give us long rest or death, dark death, or dreamful ease."

—Tennyson.

Should you answer more than nine (9) of the questions numbered 2 to 12, only the first nine answers will be considered in computing the final mark. An answer scratched out will not be considered.

No.

1. On map L (see p. 58):
 Name and locate five (5) of the following:
 1. The first permanent settlement in the United States.
 2. The last of the Thirteen Original Colonies to be founded.
 3. The western boundary of the United States in 1783.
 4. The route of Sherman's march to the sea.
 5. The route of John C. Frémont's expeditions.
 6. The territory purchased by the United States in 1819.
 7. The region governed by the Ordinance of 1787.
 8. The first State to be admitted to the Union after 1783.
2. Name five (5) men who made early explorations or discoveries in the Americas, and for each state: (a) The country he represented; and (b) the region and period (dates) of his work.
3. Name three (3) occasions in the eighteenth century prior to 1787 on which delegates from several colonies met for common action. Give dates, places, and cause or purpose, of each meeting.
4. (a) Concerning any three (3) of the following battles of the Revolutionary War, state (1) location (colony), (2) opposing commanders, (3) victorious forces: Trenton, Brandywine, Princeton, Camden, Monmouth (June 1778).
 (b) What part did De Grasse play in the operations at Yorktown?
5. (a) How did the Federalists and the Republicans differ in their interpretation of the Constitution?
 (b) Distinguish between the different forms of the national debt in 1789.
 (c) Why did Alexander Hamilton advocate a tariff?
6. (a) How and when did Texas become an independent state (nation)?
 (b) State three reasons why the annexation of Texas was favored in the United States, and the date of the annexation.
7. Outline in chronological sequence the course of the war in the west (American Civil War) to include the fall of Vicksburg.
8. Identify any five (5) of the following terms, each in its historical setting:
 "Assumption," "tariff of abominations," "fifty-four-forty or fight," "black codes," "open door," "gentlemen's agreement," "Freeport doctrine," "freedom of the seas."
9. (a) Give the terms of each of the following concerning Negro suffrage:
 Fourteenth and fifteenth amendments to the Constitution, and the Reconstruction Act.
 (b) What methods did the South employ to restore white rule in their States?
10. (a) Compare the Bland-Allison Act and the Sherman Silver Purchase Act in respect to (a) the amount of silver purchased, and (b) disposition of the silver purchased.
 (b) State the names and principal terms of two (2) acts of Congress passed prior to 1915 to regulate large corporations (exclusive of railroads).
11. (a) Give the three (3) main provisions of the Monroe Doctrine.
 (b) State Theodore Roosevelt's interpretation, or corollary, of the Monroe Doctrine, and give two examples of the application of his interpretation.

13. Locate and name on map B (see p. 69) any ten (10) of the following:

Syracuse	Ravenna
Ebro River	Chalons
Seguntum	Numidia
Cameae	
A Greek colony in Italy.	
Site of the last land battle in Greece between Greeks and Persians.	
Site of Hannibal's defeat in 202 B. C.	
Site of the first victory of Roman arms in Asia Minor.	
Boundary of the Roman Empire under Trajan.	
Site of a church council in 325 A. D.	
Site of a famous victory by Charles Martel.	

14. Identify (date or period, nationality or location, nature, position, or importance) any five (5) of the following:

Satrap	Media
Lydic	Cambyses
Xerxes I	Arbela
Behistun Rock	Cyrus the Great

15. In a paragraph of not over 150 words, discuss the Greek tyrants, including (a) form of government they supplanted, (b) causes of their rise, (c) benefits of their rule to Greek civilization, and (d) Greek feeling toward tyrants. In the paragraph, name two (2) Greek tyrants.

16. (a) Trace in outline form the events of the third, and final, Persian expedition against Greece (480-479 B. C.).
 (b) What was the primary, or true, significance of the Greek triumph in the struggle against Persia?

17. State the field of activity and importance of five (5) of the following:

Aristophanes	Pythagoras
Herodotus	Socrates
Zeno	Thucydides
Plato	Aristotle

18. In a paragraph of not over 200 words, sketch the career of Alcibiades.

19. (a) Compare Rome and Carthage in 265 B. C. under the following heads:
 (1) extent of territorial control, (2) subject peoples and allies, (3) armies, and (4) navies.
 (b) State the territorial terms of the treaties which concluded the First and Second Punic Wars.

20. (a) Why did small Roman farmers move to the city during the second century B. C.?
 (b) What reform did Tiberius Gracchus sponsor?
 (c) Name two (2) reforms sponsored by Gaius Gracchus.

21. (a) Into what three classes were free inhabitants of Italy divided about 100 B. C.?
 (b) State the cause and general results of the Social War.

22. (a) During the first century A. D. what was the Roman method or principle of imperial succession
 (1) in theory, and (2) in fact?
 (b) Name two (2) conditions which favored the spread of early Christianity in the Roman Empire,
 and two (2) reasons for the persecution of the early Christians.
 (c) Name the last Roman Emperor to persecute the Christians.

23. (a) Give three (3) reasons why Constantine selected a new capital for the Roman Empire.
 (b) Why are the years 376-378 A. D. important in the history of the Roman Empire in the East?

24. (a) State the date, opposing commanders, and significance of the Battle of Chalons.
 (b) For what is the reign of Justinian (527-565 A. D.) most famous?
 (c) State the highest office, or title, held by each of the following:
 1. Charles Martel.
 2. Pepin III (the Short).
 3. Charlemagne.

1. On map L (see p. 58):
- (a) Locate by a cross and enter the name of any six of the following:

Savannah	Fort Ticonderoga
Long Island	Vicksburg
San Francisco	San Antonio
Detroit	Santa Fe
New Orleans	Ogden
 - (b) Trace and name any one (1):
Mason and Dixon Line Oregon Trail
 - (c) Print its proper name beside any two (2) of the following rivers:
Rio Grande Ohio Connecticut
2. (a) State when (date) and by whom any three (3) of the following were discovered:
West Indies Mississippi River
European Sea route to India Gulf of St. Lawrence
Mainland of South America
- (b) What two (2) inventions encouraged navigation in the fifteenth century?
3. (a) Name three (3) colonies settled by groups from the Massachusetts Bay Colony. Which of these three later received charters?
(b) What area in North America did the Dutch colonize? What method of settlement did they use?
4. (a) What was the French colonial policy in North America regarding: (1) local government; (2) relations with natives; (3) economic interests?
(b) Identify any two (2) of the following in connection with the Revolutionary War:
 De Grasse Charles Lee John André
5. (a) Under the Articles of the Confederation, what power did Congress have over: (1) taxation; (2) commerce; (3) the judiciary?
(b) Under the Constitution, what power has Congress over items (1), (2), and (3) above?
6. List the acquisitions of territory on the North American Continent made by the United States between 1800 and 1860, showing date and source of each acquisition.
7. (a) What was the fundamental difference between the Fugitive-slave Law of 1793 and that of 1850?
(b) How did the Compromise Bill of 1850 treat the question of slavery in (1) California; (2) the Mexican cession?
(c) How was slavery affected by (1) the Dred Scott Decision; (2) Missouri Compromise (1820)?
8. Place in chronological order, five (5) of the following battles of the Civil War. Opposite each of the five selected, write the names of the opposing commanders, and underline the name of the victor:
Shiloh (Pittsburgh Landing), Antietam, 1st Bull Run, Chickamauga, Gettysburg, Chancellorsville, Murfreesboro, Nashville.
9. In a paragraph of about 150 words, describe the negotiations which preceded the construction of the Panama Canal between (a) the United States and Great Britain; and (b) the United States and the French Panama Company.
10. (a) What pertinent events led to and finally precipitated our occupation of Vera Cruz in 1914?
(b) State the terms of the Bryan-Chamorro Treaty.
11. Give the reasons or causes for any four (4) of the following acts or developments in the period 1914-20:
(a) Enforced recall of Austro-Hungarian ambassador from the United States.
(b) Resignation from the Cabinet of William Jennings Bryan.
(c) The German "Sussex" pledge.
(d) Severance of diplomatic relations between the United States and Germany.
(e) Passage of the National Defense Act and Naval Construction Act (1916).
(f) Action of the United States Senate on the Treaty of Versailles.
12. (a) Why did the Johnson-Lodge Immigration Bill take the census of 1890 as the basis for computing the allowed quota per country?
(b) What is meant by the 5:3:3 naval ratio? What circumstances led to its adoption?

4. (a) The three main features of Alexander Hamilton's financial program were Assumption, Tariff, and a National Bank. In what classes or sections did opposition develop to each of these features? Why?
 (b) What were the political and economic results of Hamilton's program?
5. (a) What circumstances led President Monroe to include in his message to Congress the pronouncement known as the Monroe Doctrine?
 (b) What were the three main provisions of the Monroe Doctrine?
 (c) Name two instances in which the Monroe Doctrine has been invoked.
6. (a) Why did the Missouri question assume such importance in 1819?
 (b) How did the Kansas-Nebraska Bill of 1854 affect the Missouri Compromise?
7. (a) Compare briefly the resources of the North and the South for war, in the following particulars:
 Manpower, material resources, training.
 (b) For any two (2) of the following battles or campaigns, state (1) the year, (2) the opposing commanders, (3) which side was victorious, (4) the resulting effect upon the ultimate outcome of the war:

Atlanta	The Shenandoah Valley (1864)	Second Manassas
Vicksburg	Chancellorsville	Antietam
The Peninsula	Chickamauga	
8. (a) Identify (date or period, nature, position, or importance) any one (1) of the following:
 Northwest Ordinance Shay's Rebellion Tariff of Abominations
 (b) Identify any one (1) of the following:
 Spoils System "Fifty-four Forty or Fight" Dred Scott Decision
 (c) Identify any one (1) of the following:
 Trent Affair "Carpetbagger" Interstate Commerce Act
 (d) Identify any one (1) of the following:
 Populist Party Progressive Party Federal Reserve Act
9. In a paragraph of not over 150 words, discuss the role of the railroad in the opening and settlement of the West.

1. (Required). On map L (see p. 58):

- (a) Trace the exterior boundaries of (1) the Original Thirteen States (as of 1781), and (2) the United States after the Treaty of Paris (1783).
 (b) Trace the route of either (1) the Oregon Trail or (2) the Santa Fe Trail.
 (c) Locate any four (4) of the following:

Atlanta	Kansas City	Nashville
Denver	Mobile	Providence

Answer any nine (9) of the following questions:

2. (a) Describe the British commercial policies concerning her colonies, prior to 1775. What effect did these policies have on relations between the colonies and Great Britain?
 (b) How did the French and Indian War hurry the American Revolution?
3. Concerning any two (2) of the following campaigns of the American Revolution state location (colony); purpose of the campaign; opposing commanders; victorious forces; reason for success or failure; result:
 Trenton and Princeton Saratoga Yorktown
4. Show how the American Constitution as written in 1787 was a compromise between—
 (a) The large and small States.
 (b) The North and the South.
5. What were the policies of Andrew Jackson with respect to any four (4) of the following:
 Banking Public works (internal improvements)
 Civil service Tariff
 Nullification
6. In a sentence or two each explain how any five (5) of the following affected slavery:
 Invention of the cotton gin The Free-Soul Party
 The Missouri Compromise The Kansas-Nebraska Bill (1854)
 The Annexation of Texas The Dred Scott Decision (1857)
7. In a few sentences each, show how the following definitely aided the Union cause in the Civil War:
 Blockade of Southern coasts by the Union Navy Fall of Vicksburg
 Industrialization Sherman's March to the Sea
8. In a paragraph of not more than 150 words describe the reconstruction governments set up in 1867-8, indicate what measures the South adopted against them, and account for the eventual restoration of "home rule."

No.

9. Identify (date or period, nature, position or importance) any four (4) of the following:

Bland-Allison Act	Panic of 1873
Free Silver (16 to 1)	Pullman Strike (1894)
James G. Blaine	Thomas B. Reed
John Hay	William M. Tweed

10. (a) Describe the events leading up to the construction of the Panama Canal, explaining the Hay-Pauncefote Treaty and the Panama Revolution.
 (b) How has the construction of the Canal affected the relations of the United States with the Caribbean countries?
11. What were the policies and achievements of the Wilsonian Democrats between 1912 and 1916 in respect to—
 (a) Tariff?
 (b) Banking and currency?
 (c) Industry and labor?
12. Explain the immigration legislation of 1921 and 1924, noting the changes in sources of immigration between 1890 and 1910, necessity for regulation, and system of regulation adopted.

PART II.—Ancient History, 750 B. C. to 814 A. D. (Weight 50)

NOTE.—The examination in Ancient History consists of twelve questions (questions 13-24), each having a weight of five (5). You are required to answer the first question (question no. 13), and in addition not more than nine (9) of the questions numbered 14 to 24, inclusive, making a total of ten (10) to be answered. Should you answer more than nine (9) of the questions numbered 14 to 24, only the first nine answers will be considered in computing the final mark. An answer scratched out will not be considered.

No.

13. (Required.) On map B (see p. 50):

- (a) Trace the boundaries of the Roman Empire at one of the following times:
 1. A. D. 14 (death of Augustus).
 2. A. D. 117 (death of Trajan).

Indicate on map which of the above you have traced.

- (b) Locate any five (5) of the following:

Alexandria	Crete	Rome
Athens	Danube River	Syracuse
Carthage	Rhine River	Tours
Constantinople		

Answer any nine (9) of the following questions:

14. Compare and contrast Persian and Assyrian (a) organization of government and (b) treatment of conquered races.
15. Describe the battle of Marathon, giving date, composition, and numbers of the opposing forces; victor, and historical effect of the victory.
16. Contrast Athens and Sparta as to—
 (a) Political and social organization.
 (b) Education and culture.
17. Arrange any four (4) of the following in chronological order, and in a few sentences each, show their connection with the history of Athens:
- | | |
|-------------|--------------|
| Alcibiades | Pisistratus |
| Cimon | Hermistocles |
| Cleisthenes | Solon |
| Demosthenes | |
18. In a paragraph of not more than 150 words outline the career of Alexander the Great, covering his inheritance, his army, one battle, extent of his conquests, and his part in spreading Greek culture.
19. Contrast the geography of the Italian and Grecian Peninsulas, explaining the part that geography played in the economic and political development of the peoples of those peninsulas.
20. Describe and compare the varying position and influence of the Roman Senate under the Republic, under the Early Empire, and under the Later Empire.
21. Discuss briefly the social and economic changes in Italy resulting from the Roman conquest of the Mediterranean World.
22. State the political and social changes made by Augustus in Rome and in the provinces.
23. In a paragraph of not over 150 words discuss the reasons for the decline of the Roman Empire, considering the following:
 Governmental system established by Diocletian.
 Decline of the farmer class.
 The composition of the legions.
24. (a) Name three (3) of the barbarian tribes which migrated into the Roman Empire, and for any one (1) of them give the general route of migration.
 (b) During the Dark Ages, through what agency and by what means was the spark of learning and culture kept alive?

APPENDIX B

VALIDATING EXAMINATIONS

1. MATHEMATICS

The validating examination in mathematics will be a single examination, including questions in both algebra and plane geometry. It will consist of two parts, each part requiring $1\frac{1}{2}$ hours. Part I will comprise a large number (approximately 100) of objective or short-answer questions; part II will comprise a smaller number (approximately 10) of traditional type questions.

The following model illustrates the nature of the questions to be given in each part. On account of the necessity for maintaining a large file of satisfactory questions it is not considered advisable to publish part I in full; the model illustrates the type but not the number of questions to be expected.

Part I

- (a) In triangle ABC , angle B is a right angle, $AB=6$, $BC=8$; $AC=$
- (b) Arrange 3 equilateral triangles to form a trapezoid.
- (c) If $a=2$ and $b=1$, $\frac{a^2-ab}{3b}=$
- (d) If $\sqrt{\frac{36}{b}}=0$, $b=$
- (e) Reduce to simplest form: $\frac{b^2-3b-4}{b-2} \cdot \frac{b^2-5b+6}{b+1}$.
- (f) If $3x=(-3)^4$, $x=$
- (g) If each side of an equilateral triangle is 6 inches, the altitude is inches.
- Complete the following statements:
- (h) Two triangles which have their sides proportional each to each are
- (i) The bisector of an angle of a triangle divides the opposite side into segments which are
- (j) The angle formed by a tangent and a chord of a circle is measured by
- (k) Expand $(x+2y)^4$.
- (l) If $x=2$, $y=3$, $z=1$, the value of $2x^2-3y^2-4z^2$ is
- (m) Factor: $1-x^2+2xy-y^2$.
- (n) If $\frac{a}{b}=\frac{c}{d}$, the value of $\frac{a+b}{a-b}$ in terms of c and d is
- (o) If $x^{-\frac{3}{2}}=\frac{1}{8}$, $x=$
- (p) Draw an equilateral pentagon that is not regular.
- (q) Each interior angle of a regular decagon contains degrees.
- (r) An angle of 30° inscribed in a circle intercepts an arc 5π inches long on the circumference. The radius of the circle is inches.
- (s) For what value, or values, of x is there no corresponding value of y in the equation $y=\frac{x-1}{x+1}$?
- (t) The diagonals of a rhombus are 2 inches and 4 inches. Its area is square inches.
- (u) What is the sum of the five consecutive even numbers of which the middle one is $2n-2$?
- (v) Cross out the statements not applicable, leaving only a correct statement: The angle between two secants, intersecting without the circumference of a circle, is measured by (1) the difference of the intercepted arcs; (2) the sum of the intercepted arcs; (3) one-half the difference of the intercepted arcs; (4) one-half the sum of the intercepted arcs.

Part II

No.

1. Write the first three terms in the expansion of $\left(\frac{2}{3}x^2 - \frac{3}{2}y^3\right)^2$ by the binomial theorem, and simplify the result.
2. Prove that the angle formed by a tangent to a circle and a chord is measured by one-half its intercepted arc.
3. The sum of the ages of a father and his son is 100 years. One-tenth of the product of their ages, in years, exceeds the father's age by 180. What are their ages?
4. The hypotenuse of a right triangle is 25 inches. The altitude on the hypotenuse is 12 inches. What are the lengths of the other two sides of the triangle?
5. A man climbing a mountain ascends 1,000 feet the first hour, 800 feet the second hour, 600 feet the third, and so on. After how many hours will he be at an elevation of 2,800 feet above his starting point? (Interpret the two answers.)
6. Solve: $\sqrt{x^2-5x+10}=2(x^2-5x+7)$.
(Verify your answers.)
7. Construct a triangle, given two of its sides and the altitude to the third side.

No.

8. Find the area of a trapezoid in which the bases are 17 feet and 42 feet and the legs are 15 feet and 20 feet.
 9. Prove that, if two opposite angles of a quadrilateral (not a parallelogram) are right angles, the bisectors of the other two angles are parallel.
 10. Solve: $9x^{-4} + 4x^{-2} = 5$.

2. ENGLISH GRAMMAR, COMPOSITION, AND LITERATURE

The following set of questions is not a set which has been used in a previous year, but is a *sample* of the type of validating examination.

No.

- 1²⁰. In each line below select the word which means most nearly the same as the italicized word. In the blank space in the left-hand column write the number of the word you select.

EXAMPLE: 1.	<i>immobile</i>	(1) still (2) oily (3) vehicle (4) have (5) sickly.
-----	<i>amphibious</i>	(1) liar (2) mixed nature (3) loving (4) dexterous (5) eager.
-----	<i>tortuous</i>	(1) aching (2) punished (3) fiery (4) twisted (5) animal.
-----	<i>asped</i>	(1) look (2) snaky (3) measure (4) nibbled (5) vault.
-----	<i>decility</i>	(1) refuse (2) vivacious (3) slope (4) lean (5) sound.
-----	<i>ominous</i>	(1) hungry (2) threatening (3) inclusive (4) loud (5) coal.
-----	<i>audacious</i>	(1) radio (2) probable (3) bold (4) hurrying (5) dour.
-----	<i>abyssal</i>	(1) bad (2) deep (3) similar (4) nursery (5) foreign.
-----	<i>lagoon</i>	(1) bird (2) slow (3) boat (4) bay (5) reached.
-----	<i>august</i>	(1) angry (2) windy (3) imposing (4) increase (5) foretell.
-----	<i>glade</i>	(1) sharp (2) dell (3) shimmering (4) smile (5) drink.
-----	<i>deceptive</i>	(1) receive (2) misleading (3) look (4) measure (5) fierce.
-----	<i>flaunt</i>	(1) blow (2) repel (3) grunt (4) display (5) tear.
-----	<i>stimult</i>	(1) portions (2) extracts (3) incentives (4) clouds (5) zebras.
-----	<i>transitory</i>	(1) temporary (2) fable (3) sedentary (4) traitor (5) death.
-----	<i>quack</i>	(1) chicken (2) strike (3) ill (4) pretender (5) repeat.
-----	<i>prelate</i>	(1) punctual (2) sing (3) gorge (4) minister (5) raise.

- 3rd. (a) In the following passage underline the verbs of all subordinate clauses. Classify the clauses by writing immediately above the underlined verbs the abbreviations Adj., Adv., or N., according as the clause does the work of an adjective, an adverb, or a noun.

I was witness to events of a less peaceful character. One day when I went out to my wood pile, or rather my pile of stumps, I observed two large ants, the one red, the other much larger, nearly half an inch long, and black, fiercely contending with one another. Having once got hold, they never let go, but struggled and wrestled and rolled on the chips incessantly. Looking farther, I was surprised to find that the chips were covered with such combatants, that it was not a *duelum*, but a *bellum*, a war between two races of ants, the red always pitted against the black, and frequently two red ones to one black. The legions of these Myrmidons covered all the hills and vales in my woodyard, and the ground was already strewn with the dead and dying, both red and black. It was the only battle which I have ever witnessed while the battle was raging; intermecine war; the red republicans on the one hand, and the black imperialists on the other.

—Thoreau.

- 3rd. (b) Rewrite the following sentences. Make the specified change in each sentence, together with any additional change made necessary by the specified change. Make the smallest number of changes possible, and make no changes in meaning, tense, word order, etc., except those necessitated by the specific instructions.

1. Use the present tense:
There stood the old house and the barn.
2. Change *three* to *two*:
Of the three boys I like Henry the best.
3. Change the dependent clause to an adverbial phrase:
When we opened the door, a strange sight confronted us.
4. Add *does* after *professional*:
He pitches ball like a professional.
5. Change *of the French* to *in France*:
July 14 is a national holiday of the French. They always celebrate this day very elaborately.

- 4th. Write a composition of at least 300 words on *one* of the following subjects:

1. What I have gained from reading Shakespeare.
2. Why I have selected the Army as a career.
3. How the depression affected my home town.

APPENDIX C

ADDITIONAL CAUSES FOR PHYSICAL DISQUALIFICATION (SEE PAR. 43)

a. *In general:*

- (1) Any deformity which is repulsive or which prevents the proper functioning of any part to a degree interfering with military efficiency.
- (2) Obesity when so marked as to interfere with marching or military duties.
- (3) A height of more than 78 inches.
- (4) Deficient muscular development.
- (5) Deficient nutrition.
- (6) Evidences of physical characteristics of congenital asthenia. The physical characteristics of congenital asthenia are slender bones, a weak ill-developed thorax, nephroptosis, gastrophtosis, constipation, the "drop" heart, with its peculiar attenuation and weak and easily fatigued musculature.
- (7) All acute communicable diseases.
- (8) All diseases and conditions which are not easily remediable or that tend physically to incapacitate the individual, such as—
 - (a) Chronic malaria and malarial cachexia.
 - (b) Severe uncinariasis.
 - (c) Tuberculosis, of whatever degree and whether general or localized.
 - (d) Leprosy and actinomycosis.
 - (e) Pellagra and beriberi.
 - (f) Recurrent attacks of rheumatic fever, chronic articular rheumatism, and chronic arthritis.
 - (g) Cellulitis and osteomyelitis.
 - (h) Malignant disease of all kinds in any location.
 - (i) Hemophilia and purpura.
 - (j) Leukemia of all types.
 - (k) Pernicious anemia.
 - (l) Splenic anemia.
 - (m) Filariasis and trypanosomiasis.
 - (n) Diabetes mellitus or insipidus.
 - (o) Acromegaly, gigantism, myxoedema, cretinism, Addison's disease, and other endocrine diseases.
 - (p) Chronic metallic poisoning.

b. *The skin:*

- (1) Eczema of long standing or which is rebellious to treatment.
- (2) Chronic impetigo, pemphigus, lupus, or sycosis.
- (3) Actinomycosis, dermatitis, herpetiformis, or mycosis fungoides.
- (4) Psoriasis, or marked ichthyosis.
- (5) Acne upon face or neck, which is so pronounced as to amount to positive deformity.
- (6) Elephantiasis.
- (7) Pediculosis or scabies.
- (8) Carbuncle.
- (9) Ulcerations of the skin not amenable to treatment, or those of long standing, or of considerable extent, or of syphilitic or malignant origin.
- (10) Extensive, deep, or adherent scars that interfere with muscular movements or with the wearing of military equipment, or that show a tendency to break down and ulcerate.
- (11) Nævi and other erectile tumors, if extensive, disfiguring, or exposed to constant pressure.
- (12) Obscene, offensive, or indecent tattooing on portions of the body subject to exposure.

c. The head:

- (1) Tinea in any form.
- (2) All tumors which are of sufficient size to interfere with the wearing of military headgear.
- (3) Imperfect ossification of the cranial bones, or persistence of the anterior fontanelles.
- (4) Extensive cicatrices, especially such adherent scars as show a tendency to break down and ulcerate.
- (5) Depressed fractures or depressions, or loss of bony substance of the skull, unless the examiner is certain the defect is slight and will cause no future trouble.
- (6) Monstrosity of the head, or hydrocephalus.
- (7) Hernia of the brain.
- (8) Deformities of the skull of any degree associated with evidence of diseases of the brain, spinal cord, or peripheral nerves.

d. The face:

- (1) Extreme ugliness.
- (2) Unsightly deformities, such as large birthmarks, large hairy moles, extensive cicatrices, mutilations due to injuries or surgical operations, tumors, ulcerations, fistulae, atrophy of a part of the face or lack of symmetrical development.
- (3) Persistent neuralgia, tic doloreux, or paralysis of central nervous origin.
- (4) Ununited fractures of the maxillary bones, deformities of either maxillary bone interfering with mastication or speech, extensive exostosis, caries, necrosis, or osseous cysts.
- (5) Chronic arthritis of the temporo-maxillary articulation, badly reduced or recurrent dislocations of this joint, or ankylosis, complete or partial.

e. The mouth, nose, fauces, pharynx, larynx, trachea, and oesophagus:

- (1) Harelip, loss of the whole or a large part of either lip, unsightly mutilations of the lips from wounds, burns, or disease.
- (2) Malformation, partial loss, atrophy or hypertrophy of the tongue, split or bifid tongue, or adhesions of the tongue to the sides of the mouth, provided these conditions interfere with mastication, speech, or swallowing, or appear to be progressive.
- (3) Malignant tumors of the tongue, or benign tumors that interfere with its functions.
- (4) Marked stomatitis, or ulcerations, or severe leukoplakia.
- (5) Ranula if at all extensive, or salivary fistula.
- (6) Perforation or extensive loss of substance or ulceration of the hard or soft palate, extensive adhesions of the soft palate to the pharynx or paralysis of the soft palate.
- (7) Loss of the nose, malformation, or deformities thereof that interfere with speech or breathing, or extensive ulcerations.
- (8) Perforated nasal septum, if progressive, or if respiration is accompanied by a noticeable whistling sound. Before accepting any applicant with a perforated nasal septum the possibility of syphilitic infection will be excluded.
- (9) Nasal obstruction due to septal deviation, hypertrophic rhinitis, or other causes, if sufficiently severe to interfere materially with breathing.
- (10) Acute or chronic inflammation of the accessory sinuses of the nose, or hay fever.
- (11) Chronic atrophic rhinitis, if marked and accompanied by ozena.
- (12) Malformations and deformities of the pharynx of sufficient degree to interfere with function.
- (13) Postnasal adenoids interfering with respiration or associated with progressive middle-ear disease.
- (14) Chronic enlargement of the tonsils sufficient to interfere with speech or swallowing.
- (15) Chronic laryngitis from any cause.
- (16) Paralysis of the vocal cords, or aphonia.
- (17) Tracheotomy.
- (18) Stricture or pronounced dilation of the oesophagus.

f. The neck:

- (1) Cervical adenitis of other than benign origin, including cancer, Hodgkin's disease, leukemia, tuberculosis, syphilis, etc.
- (2) Adherent and disfiguring scars from disease, injuries, or burns.
- (3) Extensive or progressive goiter interfering with breathing or with the wearing of military clothing.
- (4) Exophthalmic goiter, or myxoedema.
- (5) Thyroid enlargement from any cause associated with toxic symptoms.
- (6) Benign tumors or cysts which are so large as to interfere with the wearing of a uniform or military equipment.
- (7) Torticollis.

g. The spine:

- (1) Lateral deviation of the spine from the normal midline of more than 2 inches (scoliosis).
- (2) Curvature of the spine of any degree in which function is interfered with, or in which there is noticeable deformity when the applicant is dressed (scoliosis, kyphosis, or lordosis).
- (3) Fractures or dislocations of the vertebrae.
- (4) Vertebral caries (Pott's disease).
- (5) Abscess of the spinal column or its vicinity.
- (6) Osteoarthritis of the spinal column, partial or complete.
- (7) Fracture of the coccyx.

h. The chest:

- (1) Deficient expansion of the chest.
- (2) Congenital malformations or acquired deformities which result in reducing the chest capacity and diminishing the respiratory functions to such a degree as to interfere with vigorous physical exertion, or that produce disfigurement when the applicant is dressed.
- (3) Pronounced contractions of the chest with adhesions following pleurisy or empyema.
- (4) Deformities of the scapulae sufficient to interfere with the carrying of military equipment.
- (5) Absence or faulty development of the clavicle.
- (6) Old fracture of the clavicle where there is much deformity or interference with the carrying of military equipment, ununited fractures, or partial or complete dislocation of either end of the clavicle.
- (7) Suppurative periostitis or caries or necrosis of the ribs, the sternum, the clavicles, or the scapulae.
- (8) Old fractures of the ribs with faulty union, if interfering with function.
- (9) Tumors of the breast or chest wall which interfere with the wearing of a uniform or of military equipment.
- (10) Unhealed sinuses of the chest wall following operation.
- (11) Scars of old operations for empyema unless the examiner is assured that the respiratory function is entirely normal.

i. The lungs:

- (1) Active pulmonary tuberculosis.
- (2) Inactive pulmonary tuberculosis.
- (3) Acute or chronic pleurisy, or empyema.
- (4) Pneumothorax or hydrothorax.
- (5) Chronic bronchitis, chronic pneumonia, pulmonary emphysema, asthma, or bronchiectasis.
- (6) Actinomycosis, hydatid cysts, or abscess of the lung.
- (7) Tumor of lungs, pleura or mediastinum.

j. The heart and blood vessels:

All questionable findings will be thoroughly investigated over a sufficient period of time to determine their significance. Any evidences of organic heart disease will be considered as cause for rejection. When a candidate is found to have a systolic blood pressure of 140 mm. or more, or a diastolic blood pressure of 90 mm. or more, a series of readings will be taken over a period of 3 or more days in order to determine if the arterial hypertension is constant and, if possible, the causes thereof.

- (1) All valvular diseases of the heart.
- (2) Hypertrophy or dilatation of the heart.

- (3) Pericarditis, endocarditis, myocarditis, or angina pectoris.
- (4) A heart rate of 100 or over, or of 50 or under, when these are proved to be persistent in the recumbent posture and on observation and reexamination over a sufficient period of time.
- (5) Marked cardiac arrhythmia or irregularity.
- (6) Arteriosclerosis.
- (7) A persistent systolic blood pressure of 140 mm. or more, or a persistent diastolic blood pressure of 90 mm. or more, or an unstable blood pressure.
- (8) Aneurysm of any variety in any situation.
- (9) Intermittent claudication.
- (10) Raynaud's disease.
- (11) Thrombophlebitis of one or more extremities if there is a persistence of the thrombus or any evidence of obstruction to circulation in the involved vein or veins.

k. The abdomen:

- (1) Wounds, injuries, cicatrices, or muscular ruptures of the abdominal walls sufficient to interfere with function.
- (2) Fistulae from visceral or bony lesions or following operation.
- (3) Hernia of any variety.
- (4) Large tumors of the abdominal walls.
- (5) Scar pain, if severe.
- (6) Chronic diseases of the stomach and intestines.
- (7) Gastroenterostomy for relief of gastric or duodenal ulcer.
- (8) Blood in the feces, unless shown to be due to unimportant causes.
- (9) Ptosis of the stomach or intestines.
- (10) Chronic appendicitis.
- (11) Chronic diseases of the liver, gall bladder, pancreas, or spleen.
- (12) Chronic peritonitis or peritoneal adhesions.
- (13) Chronic enlargement of the liver.
- (14) Chronic enlargement of the spleen, if marked.
- (15) Jaundice.
- (16) Proctitis or stricture of the rectum.
- (17) Hemorrhoids.
- (18) Fistula in ano.
- (19) Incontinence of feces.
- (20) Uncinariasis, if attended with marked anemia or other evidence of grave constitutional disturbance.

l. The pelvis, including the sacroiliac and lumbosacral joints:

- (1) Malformation and deformities of the pelvis sufficient to interfere with function.
- (2) Disease of the sacroiliac or lumbosacral joints.
- (3) Urinary fistula.
- (4) Stricture or prolapse of the rectum.
- (5) Fissure of the anus or pruritis ani.
- (6) Fistula in ano or ischio-rectal abscess.
- (7) External hemorrhoids sufficient in size to produce marked symptoms. Internal hemorrhoids, if large or accompanied by hemorrhage or protruding intermittently or constantly.

m. The genito-urinary system, including venereal diseases:

The Wassermann test will be required for all candidates. If facilities exist at the station where the examination is conducted the Kahn test will also be made. Whenever a single or a double plus Wassermann reaction or a 3-plus or a 4-plus Kahn reaction is obtained, a second test will be made. If the second test be negative, a third test will be performed. Two single-plus or double-plus Wassermann reactions or two 3-plus or 4-plus Kahn reactions are cause for rejection.

If albumin or casts are found in the urine, the cause will be determined, if possible. In the absence of demonstrable cause urine containing albumin or casts will be analyzed on three successive days. Persistent albuminuria or the persistent presence of casts in the urine is a cause for rejection, even though the cause thereof cannot be determined.

- (1) Acute or chronic nephritis, or diabetes mellitus or insipidus.
- (2) Blood, pus, albumin, or casts in the urine, if persistent.

- (3) Floating kidney, hydronephrosis, pyonephrosis, pyelitis, tumors of the kidney, or renal calculi.
- (4) Acute or chronic cystitis.
- (5) Vesical calculi, tumors of the bladder, incontinence of urine, enuresis, or retention of urine.
- (6) Hypertrophy or abscess of the prostate gland, or chronic prostatitis.
- (7) Urethral stricture or urinary fistula.
- (8) Epispadias or pronounced hypospadias.
- (9) Phimosis.
- (10) Hermaphroditism.
- (11) Amputation of or deformity of the penis.
- (12) Varicocele, if large and painful, or hydrocele if large.
- (13) Atrophy or maldevelopment of both testicles or loss of both.
- (14) Undescended testicle of any degree. Infantile genital organs.
- (15) Chronic orchitis or epididymitis.
- (16) Syphilis in any stage.
- (17) Gonococcus infections, acute or chronic (including gonorrhoeal arthritis), chancreoids, or buboes.

n. The extremities:

Suitable exercise will be employed to determine the strength of the arches of the feet. Weak or painful feet are a cause for rejection regardless of whether or not the arch is flattened. In reporting the presence of flat feet a careful estimate of the degree of flattening as first, second, or third degree will be made and reported, as well as other abnormalities, such as eversion, rotation, etc.

- (1) All anomalies in the number, the form, the proportion, and the movements of the extremities which produce noticeable deformity or interfere with function.
- (2) Atrophy of the muscles of any part, if progressive or if sufficient to interfere with function.
- (3) Benign tumors, if sufficiently large to interfere with function.
- (4) Ununited fractures, fractures with shortening or callous formation sufficient to interfere with function, old dislocations unreduced or partially reduced, complete or partial ankylosis of a joint, or relaxed articular ligaments permitting of frequent voluntary or involuntary displacement.
- (5) Reduced dislocations or united fractures with incomplete restoration of function.
- (6) Amputation of any portion of a limb, except fingers or toes, or resection of a joint.
- (7) Excessive curvature of a long bone or extensive, deep or adherent scars interfering with motion.
- (8) Severe sprains.
- (9) Diseases of the bones or joints.
- (10) Chronic synovitis, or floating cartilage, or other internal derangement in a joint.
- (11) Varicose veins in an extremity when they cover a large area or are markedly tortuous or much dilated, or are associated with oedema, varicocele, or hemorrhoids, or are accompanied by subjective symptoms.
- (12) Varices of any kind situated in the leg below the knee if associated with varicose ulcers or scars from old ulcerations.
- (13) Chronic oedema of a limb.
- (14) Chronic and obstinate neuralgias, particularly sciatica.
- (15) Deviation of the normal axis of the forearm to such a degree as to interfere with the proper execution of the manual of arms.
- (16) Adherent or united fingers (web fingers).
- (17) Permanent flexion or extension of one or more fingers, as well as irremediable loss of motion of these parts, if sufficient to interfere with proper execution of the manual of arms.
- (18) Total loss of either thumb.
- (19) Mutilation of either thumb to such an extent as to produce material loss of flexion or strength of the member.
- (20) Loss of more than one phalanx of the right index finger.
- (21) Loss of the terminal and middle phalanges of any two fingers on the same hand.

- (22) Entire loss of any finger except the little finger of either hand, or the ring finger of left hand.
- (23) Perceptible lameness or limping.
- (24) Knock-knee when the applicant is unable to take the position of a soldier, when the gait is clumsy or ungainly, or when subjective symptoms of weakness are present.
- (25) Bowlegs if so marked as to produce noticeable deformity when the applicant is dressed.
- (26) Clubfoot unless the defect is so slight as to produce no symptoms during vigorous exercise.
- (27) Pes cavus if extreme and causing symptoms.
- (28) Flat foot when accompanied with symptoms of weak foot or when the foot is weak on test. Pronounced cases of flat foot attended with decided eversion of the foot and marked bulging of the inner border, due to inward rotation of the astragalus, are disqualifying regardless of the presence or absence of subjective symptoms.
- (29) Loss of either great toe or loss of any two toes on the same foot.
- (30) Webbing of all the toes.
- (31) Overriding or superposition of any of the toes to such a degree as will produce pain when wearing the military shoes.
- (32) Ingrowing toe nails when marked or painful.
- (33) Hallux valgus when sufficiently marked to interfere with locomotion or when accompanied with a painful bunion.
- (34) Bunions sufficiently pronounced to interfere with function.
- (35) Hammer toes when existing to such a degree as to interfere with function when wearing the military shoe.
- (36) Corns or callous on the sole of the foot when they are tender or painful.
- (37) Hyperhidrosis or bromidrosis when present to a marked degree.
- (38) Habitually sodden feet with blistered skin.

o. The nervous system:

- (1) Insanity, epilepsy, or convulsions of any character, or history thereof.
- (2) Idiocy, imbecility, mental deficiency, or moronism (an applicant having a mental age of 10 years or less).
- (3) Constitutional psychopathic states.
- (4) Chronic alcoholism or drug addiction.
- (5) Locomotor ataxia, paresis, or cerebrospinal syphilis.
- (6) Multiple sclerosis, syringomyelia, paralyses, paraplegia, monoplegia, hemiplegia, or hemiparesis.
- (7) Psychoneurosis, neurasthenia, psychasthenia, hysteria, hysterical paralysis, or hysterical stigmata.
- (8) Chorea or marked muscular tremors.
- (9) Somnambulism, or history thereof.
- (10) Neuritis, beriberi, or severe neuralgia.
- (11) Muscular atrophies and dystrophies.
- (12) Stuttering or stammering of such degree that it would interfere with performance of military duties.
- (13) Unequal or irregular pupils, unless cause is definitely determined to be other than neurological.
- (14) Brain tumors.
- (15) History of having been committed to an institution for the care of the insane.
- (16) History of injury to skull, with secondary symptoms, or any evidence of impaired nervous function.
- (17) History of excessive nervousness, or depression to an undue extent.
- (18) Endocrine disturbances that can be diagnosed by ordinary examination.
- (19) Injuries involving peripheral nerves which result in impaired function to an extent that would interfere with the performance of military duty.
- (20) Other organic or severe functional diseases of the nervous system.
